Colonization Rooms

Dear Sir

In compliance with my duty and your request, I proceed to furnish an account of my operations, during my recent visit to the Eastern Shore. As anticipated, two appointments had been announced for me on Sabbath last, at Millington Kent Co. In the morning, an address was delivered to the friends of the Cause, and there is good reason to hope an increased interest awakened. Several have promised to keep the subject of emigration in agitation among the Colored people, and to exert their influence in forwarding our views, and insuring success for the scheme of African Colonization. In the afternoon I addressed a very numerous and attentive assembly of Colored people. It was the first time they had heard the subject discussed, and many of them were highly gratified. None came forward for emigration this spring. Whether they will do so hereafter, must depend on circumstances. If however, our friends do their duty, and Providence favours, I am in good hopes that the labours of that day will prove to have been not altogether in vain.

Of operations at Sudlers + Reads you have been advised by letter to the Board of Managers.
