Mr Jas Hall M.D.
Custodian of H S Fund

Dear Sir

Your kind letter in reply to the one sent you denying some false representations made by Mr Jas A Tuning against the board and school have been received and read with pleasure. I assure you it will be gratifying to the whole board when they convene and read the same, to learn that Mr Tuning has not been successfull, as he contemplated in breaking up, or injuring the little school you have been so ardent in forstering. The writing paper you mentioned in yours have not been received, I particularly inquired at the post office for it, but it could not be found.

The draft No 95 drawn in favor of John H Tubman for twenty three dollars ($23.00) acct examination refreshment, and foowarded without the proper signutures and seal, was a blunder made by Mr J H Tubman. The draft was drawn in the usual manner, ie, I drew and signed and delivered the same to the owner to cary the same to secretary for his signature
