after which he should have taken it to the president for his signature and seal, I can not conceive how Mr Tubman the teacher in whose favor a large number of drafts have been drawn should make such a mistake. It was hoped that his agent would have sent it back for the signatures of the Secretary & president but I find our hopes have been in vain for instead of returning the draft to us for proper signing it has be forwarded on to you

Hoping you are well

I am yrs truly
