The board of Managers of the State fund will feel themselves authorised to discharge the ~~pecuni~~ responsibilities already mentioned, and which growing out of the Establishment of the Colony, cannot by any means be expected to recur again. Thereafter the payment of a reasonable sum per Capita, as provided for by the act of the Legislature will be amply sufficient to ensure the removal to, and support in Africa, of the Emancipated slaves, and the free coloured people who may be desirous to ~~go there~~ emigrate.

To amend this report the committee transmit to you the ~~last official intelligence from their agent~~, with a map of the Country which has been obtained ~~by them~~ by us for the Society, together with a plan of the town that has been built, & its vicinity.

Geo W Blakiston
Chairman.

Rough draft of a letter from the Board of Managers of the Maryland State Colonization Society to the Managers of the State Fund
