
## The Piano and the Price Question

The diamond is more valued than the emerald, the sapphire or pearl.

All are precious stones, yet each has a different value.

THE STEINWAY PIANO, like the diamond, stands alone. It *costs* more because it's *worth* more.

The wonderful richness and depth of tone, the gradations of light and shade, the brilliance and fire that flash forth under the musician's touch---all are the outcome of perfect blending of perfect parts.

A personal inspection of our superb stock---*personal* contact with the STEINWAY PIANO that's all that's needed to make you lifelong friends.

*Catalog on request.*

# The Fall and Winter Season

IT is just nine months since this store opened in Chestertown, and for the short time which we have been here we have convinced all the people without a doubt that this is the poor people's store and the foremost place where they can save the most money on their supplies. So we want to announce that we are ready with a complete and large stock of furnishings of all kinds for the Fall and Winter seasons. It will pay you well just to pay us a visit to see how cheap goods are.

We have just received a fresh lot of Ladies' Suits which we will sell at $2.98 $8 values.
Another lot at $3.98, $4.98. $10 and $12 values.
One lot Ladies' Fur Coats at $4.98, worth $10.
One lot of Men's Suits which we just bought from a bankrupt sale so that we can afford to sell them from $2.50 up.
We will settle your question about Heavy Winter Underwear, so come and get it here.
50c Heavy Underwear at 39c.
$1.00 Fleece Lined Underwear at 50c.
A full line of Blankets on which you can save just one-half by buying at this store.
We have a new full line of 5c and 10c articles.
Come and see them.

### MAN AND HIS SHOES.

How much a man is like his shoes!
For instance both have a soul to lose;
Both have been tanned, both been made tight
By cobblers; both get left and right,
Both need a mate to be complete;
And both are made to go on feet,
They both need healing, oft are sold,
And both in time will turn to mold.
With shoes the last is first with men
The first shall be last. And when
The shoes wear out they're mended new—
When men wear out they're men dead too!
They both are trod upon, and both
Will tread on others nothing loath.
Both have their ties, and both incline,
When polished, in the world to shine;
And both peg out. Now would you choose
To be a man or be his shoes?

From my grandmother's scrap book,

WILLIAM NORRIS REED.

[The following excellent paper by Mr. Walter B. Harris, a practical fruit grower of Kent, was read at the Grange meeting in Fairlee last week.]

### Reclaiming The Old Apple Orchard.

The reclaiming of the old apple orchard is a subject that has been much discussed in all the farm papers of recent date. It is possible to renew any orchard where 50 per cent. of the trees are left standing, up to forty years old, after which age the trees are generally so badly broken up and brittle that it does not pay.

The things to consider in bringing back an old orchard are pruning, cultivation, fertilization, spraying and replanting.

The pruning naturally comes first. The trees should have all of the dead wood and broken branches removed, and pruned sufficiently to let in plenty of sunshine to give color. The trees should be cut back to a convenient height for spraying and harvesting. All wounds should be painted with white lead paint and decayed places hollowed out and filled in with concrete. To keep the trees in a good healthy condition this pruning will have to be followed up every year.

In talking about the age of an apple orchard, I once heard a New York fruit grower in speaking of his orchards say that his young orchard 38 years old had not come in full bearing yet, but that his other orchard 76 years old was just at its height.

The orchard should be plowed in the late fall or early spring and should be kept worked up with a disc or spring tooth harrow until a cover crop is sown the first of August. This is when we work in the fertilizer in planting the cover crop.

The spraying should be done thoroughly every year. Whether you have a crop or not. The first spraying is before the buds open and is with lime and sulphur. Lime sulphur is the best insecticide and fungicide we have. The next spraying comes after the petals have fallen from the blooms. This is with bordeau combined with a good insecticide. This is the most important spraying of the year as it catches the first brood of codling moth. Then this should be followed in two weeks with the same spray.

Nearly every farm is well supplied with its neglected apple trees, that could be well taken care of and supply the farm with some fine winter apples.

W. B. HARRIS.

### THE NEW TROTTING RECORD.

**With A Look Backward To Horse Glories That Have Been.**

A horse has trotted a mile in 1 minute and 54¼ seconds; and the world notes the feat with little more than passing interest. Possibly it is because the horse has been in great measure eclipsed by the automobile and the bicycle; or because the devices of windshield, running mate and improved sulky detract from the merit of the performance; or because the sport of horse racing itself is, or has been under more or less suspicion; or because the two-minute horse long ago appeared and the climax of interest was then reached and passed. Whatever is the matter, there has been a curious psychological change in the public attitude toward the fast horse and the "sport of kings" is left now largely in breeders, fanciers and old-time sporting men.

Yet men now living can recall the time when the speed of Flora Temple (a mile in 2 19¾) was the marvel of all the world. Then, in 1867, came Dexter (2.17½) and the beautiful Goldsmith Maid, who in 1871 smashed the record of the invincible Dexter, and in 1874 brought the time down to 2.14. Followed Rarus (2.13¾) for a brief period of glory, and St. Julien (2.12¾ in 1979), who yielded the crown in 1880 to the wonderful Maud S. (2 11¾).

But St Julien came back with another world's record (2.11¼) and in 1880 Maud S. cut down the time by another half second (2 10¾). Jay Eye See came along (2.10), but yielded to the swift Maud S. who in 1884 made the distance in 2 09¾, and in 1885 in 2 08¾. Sunol appeared (2.08¼, but in 1892 gave way to Nancy Hanks (2.04).

But this time there were hundreds of horses that were faster than Dexter or Galdsmith Maid and now there are other hundreds that can go better than Maud S. or Nancy Hanks. Came along the champion Alix, The Abbott and Cresceus in quick succession and the two-minute horse arrived in 1903 in Lou Dillon and later the same year in Major Delmar. Both Cresceus and Lou Dillon trotted later in less than two minutes. Now the great Uhlan holds the champion ship

We have had the two minute horse for 10 years. In that time 6¼ seconds have been clipped from the record. Is the minute-and-a-half horse possible.

Foot Ball.—Washington College played a fine game of foot ball Saturday at Haverford, Pa., with the big college team of that place and held them down to 8 points. A touchdown by Ramsey, Haverford's star right half, in the first quarter and a safety a few minutes later netted the Pennsylvanians their count.

The local collegians were unable to make any material gains, depending solely upon straight line plunging. On several occasions after having worked the ball within striking distance of the goal by fake formations, the Haverford collegians were held for downs by the local stonewall linemen. Though ten or twelve forward passes were tried by Haverford, only two of them were successful. Bowen and Garrett played well for the locals, while Carey and Sangree were the Haverford stars.

The reserve team of Washington College swamped the Centreville High School eleven Saturday afternoon on the Queen Anne's gridiron, by the overwhelming score of 66 to 0. The High School team was, as the score plainly shows, outplayed in every department of the game. At no time in the game were the Centrevillians within striking distance of the locals' goal. Washington was weak on kicking goals, as she failed in all the eleven attempts after touchdowns. S. Scott Beck was referee, H. Kenton umpire and Jack Perry timer.
