LOCAL NOTES

BEGINNING March 21st the Tolchester Line begins its Spring Schedule. Boat will run to and from Tolchester every day, as will be seen by the adv. in this paper.

CHESTER BRIDGE and Washington avenue were lined with pedestrians last Sunday. It was a "Spring Opening" sure.

MILFORD SMITH, colored, was slashed with a razor by Wallace Cann, also colored, Saturday night, in "Santiago," from the corner of his eye to his jaw and Dr. Dodd was compelled to take ten stitches to close up the wound. When taken to jail, Smith claimed Cann was only "playing" with him when he cut him.

QUITE a crowd witnessed the basket ball team of Washington College, Chestertown, defeat the Young Men's Athletic Association team of Talbot county, 45 to 2, at Easton, Md., last Thursday night. Between the halves music by the Easton High School helped to enliven the occasion. The lineup: Washington College—Kratzer, right forward; Keyworth, left forward; Shartle, center; Duyer, right guard; Burns, left guard. Y. M. A. A.—Withgott, right forward; Hearn, left forward; Mullen, center; Ryan, right guard; Pilsch, left guard.

IT is reported that a Mrs. Brooks purchased the Jones property at Quaker Neck and will remove to Kent.

THE Chestertown milk station under Mr. Horn's direction is growing and a new building is in prospect this year. During the past month about $1,700 was paid to the 40 patrons.

OWEN C. SMITH, of near town, lost 20 valuable hogs in the last few weeks by some unknown disease thought to be hog cholera. Mr. Smith had a fine bunch of 23 before the disease struck them and has but three left. Some think it is bad slops which caused the loss.

A DELEGATION of Kent county Democrats were in Washington Monday to confer with Representative J. Harry Covington in connection with the postmastership at Chestertown. In the party were State Senator W. W. Beck, Lewin W. Wickes, Esq. and E. F. Perkins, a candidate for the office. While there the visitors called upon Senator John Walter Smith and Hon. J. H. Covington.

DURING the snow storm of Wednesday week an oil stove caught fire at the home of Mr. and Mrs. William Spielberger, on Cannon street opposite the garage, and but for the timely aid of Mr. Spielberger, might have caused a considerable fire. Mrs. Spielberger lit the stove and left it in one of the upstairs rooms to heat, going below in the meantime. When she returned, the room was filled with smoke and the stove on fire. Mrs. Spielberger informed her husband, who came over from Sutton's garage with a fire extinguisher and soon put out the burning stove.

IN the game of ball Monday between the Orioles and Philadelphia the NEWS correspondent says: "All Washington rooted for the Birds and one fan gave Pitcher Jarman, the Washington College boy, a dollar bill for cleverly covering first when Gleichman got a difficult one in his territory on the last man out in the ninth. Jarman bought a dollar cigar."

THERE are said to be 80 teams at the Kennedyville milk station recently.

ONE of the latest additions to the stock farms of Mr. W. Frank Jarrell is a fine jet black Percheron stallion weighing over 1800 pounds. This splendid horse was purchased in Cecil county after a survey of the horse world.

A FARMER'S wife near town says she has a race to the hen house every time a hen cackles as the dogs start as soon as a hen lays to get the egg! It must be an exciting time on that farm.

A CITIZEN in Chestertown has a companion dog to W. E. Moody's "for-get-me-not" dog and Mr. Scott Beck's "train" dog. He says he has certainly an intelligent dog. He saw him start into his dog kennel and seeing a hen in there, retired, and lay outside until the hen had lain an egg. Then the dog went into the Kennel, picked up the egg, carried it to the hen house and returned to his box to take a snooze!

A STORY is told concerning one of Chestertown's "stay-lates" who called to see a young lady who had recently removed to town. It is the custom of country folks to invite their guests to remain all night, especially when it grows late, and this family had not become accustomed to town hours nor ways. So that when 11 o'clock came and the young man did not show any disposition to leave the man of the house invited him to spend the night! He thanked his host, and needless to state, took his departure at once.

TOMATO NEWS.

Mr. Isaac Gibbs, of Massey, being interested in tomato contracts saw the dispatch tn a recent issue of the KENT NEWS dated Mullica Hill, N. J., in which the writer said farmers there were being offered $16 per ton for tomatoes, and he wrote to the postmaster. The postmastere replied, "have been unable to learn who these agents are or what canning factory they represent. Nobody here seems to know anything about it so have concluded it must be a new yarn." The farmers of Kent are more interested in Kent prices than what Mullica Hill growers get:

Farmers about Black Station are offered $8 per ton by Swing & Co.

Georgetown growers are offered 12 cents a basket.

Numsen is also offering 12 cents per basket,

Baldwin at Chestertown has not contracted but is willing to pay $7.50 a ton.

Dover, Camden, Wyoming, Houston and Rising Sun canneries have decided to pay farmers 14 cents per basket to grow tomatoes the coming season. Growers have been holding off for higher prices. but many are now signing contracts. Sixty baskets to the ton will make the price $8.40, which is considered a fair price when the decline in the price of the canned products at the present time and during the past season. At other parts of the country where catsup is not manufactured, the price is 12 cents per basket, or $7.20 per ton.—Denton Union.

Spring Opening, 1914

BORDLEY & SONS, the Men's Store, are now ready to fit satisfactorily any man, boy or child in ready-to-wear clothes who may see fit to favor them with their patronage.

We have the largest, most complete and up-to-date line of Clothing ever shown in Chestertown, ranging in price from $7.50 to $25.00, including both the foreign and domestic woolens, in many varieties.

Our line of the famous "Adler-Rochester" Clothes fit better, are made better, and will hold their shape longer, than any custom-made suit that comes to this town.

The reason is very simple—because they are the only hand-tailored garments that are sold here.

In the favorite Blue Serges we have just received over $1,000 worth, and they are now ready for your inspection.

Remember, the Men's Store is headquarters for Blue Serges, for we carry more of this line than all the stores of Kent county combined.

It will be our pleasure to show you what we have to offer men and boys, whether you are ready to buy or not, and we can show you what clear saving of dollars means to you.

The advantage in dealing with this store lies in the fact that we adjust cheerfully whatever complaints are justly made. That's better than having to keep what you buy. Call on us and test the truth of these statements.

Yours for satisfaction,

BORDLEY & SONS

Mr. Rice tells us the town of Joplin, Mo., has a population of 4,000 is one of the richest towns of its size in the country, and mineral experts claim a strip of land 100 miles long and 60 miles wide is the richest in the country, a solid bed zink and lead ore. The town of Joplin is in the centre of this with seven railroads entering it, four electric interurban roads, the dirt roads of the very best which are made from chat, the grindings of the rock from which the ore is separated, though stone is cheap to handle and makes the best road bed of any known material of its kind. The climatic conditions of this part of Southwest Missouri are good, being mild in winter and the strong south wind in summer keep down the humidity, producing more pleasant summers than many parts of the United States where it is cooler but not so dry. The Peabody Electric Company are doing a general retail and wholesale business from the two points, Joplin and Muskogee, besides doing general electrical contracting on a large scale, electric light and power plants being a specialty of the engineering department of this company.
