W. C. Travers, who last year was instrumental by constant spraying and through other methods in saving the Harrison orchard from devastation by the San Jose scale, is now devoting his energies to similar work in Gen. Murray Vandivers's orchard of 13,000 trees on Spesutia Island.

The Government is again soliciting bids for carrying the mails between Havre de Grace and Betterton ; daily service both ways with exception of Sundays ; bids must be in before July 1.

During the last month, ending June 1st, one hundred and fifty two gallons of "wet goods" were received at the local express office. During a similar period, nineteen and one half gallons were shipped to Wye Mills. During the month of April, one hundred and eighty gallons were received at the local express office.

The department of agriculture at Washington is getting after the fakirs who are advertising old varieties of vegetable plants and fruits under new names, and selling the seeds or nursery stock at enormous prices through their extravagant stories. The Shahon pea, which is said to have produced 70 tons of hay and 350 bushels of seed from 3½ acres, is the old Asparagus bean or Yardlong bean, a close relative of the cow pea. The old Jack bean is being advertised under the name of the Giant stock pod pea, or the Wataka bean, the seed being quoted at $15 a bushel. The progressive farmer is justified in testing new varieties, but the only safe way is to secure them from firms of established reliability.

Wool buyers have closed a successful season. J. Walter Skirven & Co. have shipped over 30,000 pounds of wool. Stevens Bros., through W. H. McKee, have bought a large quantity while other buyers have done well.
