REV. H. K. MILLER has settled on his farm, near Lynch's, and has bought of Jere Miller his trotting mare, "Silver Queen," together with two of her colts sired by "Old Boxwell." Queen took first money at Tolchester fair when two years old and made a record of a mile in 2.23¼ when she was three years old and in foal with her eighth colt.

THE Chestertown Volunteer Fire Co. held their annual election of officers on Monday night in Firemen's Hall. Following the business meeting an oyster scald was held. The officers elected were as follows:

THE stable and hay shed and the barn on Mr. Henry Stewart's place near I. B. were burned on Saturday afternoon about three o'clock When first discovered the fire had gained such headway that it was impossible to check it. Besides burning the building quite a quantity of hay and some farming implements were destroyed.

THE minstrel and suffragette convention netted $60. Miss Thompson is considering reorganizing in the spring and giving another performance.

THE North Carolina gunners, Messrs. S. Scott Beck and John W. Clendaniel, returned home Saturday with 158 partridges and one wild turkey. They state that they lost their dogs the first night and were a day or more finding them. One of the best ones strayed to the depot and watched the trains pass. The first one was south bound and the next north bound. This dog had sufficient intelligence to jump on the homeward bound train! The conductor recognized the dog as having come down the previous day, put him off and the station agent returned him to the Kent gunners. Kind people in the South, says John and Scott.

THE Tempest Dramatic Co. played to good audiences in the Chestertown Lyceum this week and pleased the people. A feature of the opening night was the presentation of a bouquet of flowers to Wm. Cunningham, the hero of the play, who was a former Washington Collegian, by the boys of the college.

At the college a championship basket-ball game was played; at the High School the Choral Society met with about 40 voices; at Firemen's Hall a town meeting was held, and at Christ Church revival services were in progress Nothing slow about Chestertown, eh?

AT the February meeting of The Ladies Town Improvement Association, a Committee reported a most satisfactory conference with the Town Commissioners. Among a number of things discussed was the spitting on the sidewalks of our town. It was determined to take action to prevent this, as it is not only unsightly but a menace to health. Committee reported unsanitary conditions surrounding the valley which contains the water supply. Some reported to the health physician and on investigation asked for, also for the general drainage of the town. The ladies are still collecting paper, scrap, as well as magazines and old newspapers. They ask every one to save all paper and notify any member of the standing committee of two years.

PERHAPS the largest catch of fish in one night in the history of Love Point was made last Monday, when nearly thirty thousand pounds of fish of almost every species were brought up from the bay depths in the nets that had been set the night before. One entire side of the steamboat pier was covered with fish stacked several feet high. A Centreville gentleman who was returning from Baltimore met some fishermen friends on the wharf and they told him to take his pick of the thirty thousand pounds of fish He selected two herring. —Observer.

LEVI R. TAYLOR, a negro farmer near Newark, Del, who recently declared that he had inherited $200,000 from a white woman at Atlantic City, but which the woman herself soon denied, is in all kinds of trouble. He has been arrested three times within forty-eight hours. Then, in an effort to cap the climax early this morning, he tried to commit suicide in the police scation by choking himself with his suspenders. He was discovered with his tongue protruding by another prisoner and his life was saved. The man seems to be demented.

THE following fish story, is taken from the Baltimore Sun Giovanni Gorio, today in the rapids of the Susquehanna river cut a cake of ice 10 inches thick, containing nine black bass and one salmon. The bass weighed 14½ pounds. The largest weighed 4½ pounds, the smallest ½ pound. The salmon weighed 5 pounds. The fish were hibernating in a shallow pool and were impounded by the anchor ice until the pool became congealed. The salmon when thawed out resumed its summer habits.

THE Hub at Millington, during the month of February will hold a cut price sale that will set the pace in value giving, when it is their intention to dispose of their large line of men's, ladies' and boys' suits and overcoats at such greatly reduced prices, that the purchaser is assured of wonderful bargains.
