BURNING OF HOUSE IN 1861

BALTIMORE, June 30th, 1914.

EDITORS KENT NEWS :—

In your issue of June 27 there is a communication from a "Wandering Boy." When he speaks of the burning of my father's house, the late James R. Stavely, I would like to correct him, as the fact is my father's house was burned on Sunday midnight, April 8th, 1861. The court he speaks of being held in the house was held on Saturday afternoon, April 7th, the late Lewis S. Hepbron being the Justice of the Peace and the Hon. Wm. T. Hepbron now living in your town was the constable. The persons who fired our house evidently did it with the purpose of burning the whole family, for as soon as we (the escaped ones) reached the outside of the house the roof fell in. The public road in front of the house at the time was thronged with negroes and among them was three white men. My father and mother always thought that one or all of these men would confess before their deaths, but alas! they did not.

I am very truly,
THOMAS H. STAVELY.

A DECIDED STIR has been caused in school circles in Anne Arundel county, says the Annapolis Advertiser-Republican, by the ruling of the State Board of Education that the supervisor of colored schools in the county must be a colored person. State's Attorney Nicholas H. Green, who is also counsel to the Board of School Commissioners, gave the Board an opinion directly at variance with the legal view taken of the question by the State Board. Many citizens, the Advertiser-Republican reports, contend "that such a change as that being urged by the State Board would be a grave mistake in Anne Arundel county," and advocates that the $1500 contributed by the State for the salary of the supervisor be refused and the position abolished, rather than that the ruling of the State Board be followed.

PUT down the number of your living brothers. Multiply by two. Add three. Multiply the result by five. Add the number of living sisters. Multiply the results by ten. Add the number of dead brothers and sisters. Subtract one hundred and fifty from the result. The right hand figure will be the number of deaths. The middle figure will be the number of living sisters. The left hand figure will be the number of living brothers.

TARIFF OFF; WOOL GOES UP.

Dealers Are Paying 3 To 5 Cents More Than Under Protection.

A telegram from Hagerstown, Md., says, "The new wool clip in this section is being marketed. S. A. Roth, of Hagerstown, who expects to buy 300,000 pounds this season, has purchased 180,000 pounds in the Cumberland Valley. He bought from a Pennsylvania syndicate 72,000 pounds, the biggest wool deal closed in the valley in recent years. The wool is being shipped to Baltimore and Philadelphia for storage and later will be consigned to Boston.

Wool growers, buyers and manufacturers are surprised by the rise of wool since the tariff was taken off. Dealers are paying from 20 to 26 cents a pound, which, they claim, is from 3 to 5 cents higher than before the tariff was removed. Some claim that the demand for wool, due to the rapid increase of population, is responsible for the rise, while others claim that the rise is a vindication of the Democratic tariff and refutes the arguments of high-tariff advocates that the wool industry of the country would be ruined by free wool."

Messrs. J. Walter Skirven & Co. shipped 36000 lbs. of wool last week. They are paying 25 cents for wool this week, as against 19 cents for this time last year.

Wood's Seeds

Seed Potatoes
FOR FALL CROP.

The planting of Seed Potatoes in June and July is increasing to a wonderful extent. A great many farmers claim that they give better crops planted at this time than they do when planted in the spring. Potatoes planted in June and July mature in the cool weather of the fall, at a time when they can be harvested to best advantage.

The Seed Potatoes we offer are put in cold storage early in the season, so as to keep in first-class, vigorous condition.
