WHEAT YIELD POOR

THE best yield of wheat reported in Kent is that of Mr. Robert G Nicholson, near town He got an average of 25 bushels and on five acres of potato ground threshed forty bushels per acre!

Without the use of potash, supposed to be one of the main ingredients in the wheat phospate, Mr. Josiah Massey, averaged 20 bushels per acre. He says he used the cheapest phosphate he could buy and did as well as ever or better

Mr. James T. Anthony had the same experience as Mr. Massey and did a little better than last year, getting 22 bushels per acre. He also used phosphate without potash.

Mr. Harper Carter got 11 bushles per acre. Mr. Wm. Hepbron got 18 bushels per acre.

Mr. George Hatcherson put his crop in his barn for a little over 14 bushels per acre.

Mr. William S. Collins on his Burchinal farm, got an average of 20 bushels.

Mrs George Hudson got a yield of 20 bushels per acre.

Mr. J. Thomas Smith got about 20 bushels per acre from over a hundred acres.

John Boulden averaged 12 bushels from his entire acreage.

B. F. Potts averaged 14 bushels per acre, while Charles Leager only got 10 bushels per acre.

Mr. R. E. Kennedy, on Mr. John H. Clendaniel's farm, averaged 22½ bushels on 146 acres.

Mr. W. M. Clendaniel averaged 21 bushels.

Mr. Charles Clendaniel averaged 24½ bushels.

Messrs. James and Albert Groves, on the Wilmer farm, averaged 18 bushels.

Mr. William Lee, of near Fairlee, got 19 bushels per acre from his entire tract.

Mr. Joseph Everett averaged 15 bushels per acre.

Mr. Robert Brown got 12 bushels from his entire acreage.

Mr. Lewin U. Skirven went far below his usual average, getting but 12 bushels per acre.

Mr. J. B. Metcalfe, of near Sudlersville, averaged 21 bushels per acre.

Talbot's wheat crop is very poor. One of the best farms in Chapel district, a farm known as an ideal wheat raiser, produced this year an average of 10 bushels an acre, while one of the big farms in Miles River Neck, which was ravaged by the hail storm recently, produced only three bushels. Other farms in various parts of the county have reported about the same ratio as the first above mentioned.

Henry Scotten on "Marsh Point" near Locust Grove, got 1000 bushels from 50 acres.

Romie McCawley near Locust Grove, got 1880 bushels from 90 acres.

ASSISTANT AT LOVE POINT DEAD

James M. Ellis, assistant keeper at Love Point light station, at the entrance of Chester River, was found dead Thursday afternoon in a rowboat alongside the station. It is believed Ellis' death was due to natural causes.

The first information of the keeper's death was received Thursday afternoon through a telephone message to Acting Lighthouse Inspector R. L Hankinson.

According to the message received, Anders Simonsen, the keeper of the station, was ashore and left Ellis on duty. Ellis was to have gone ashore in one of the boats to bring the keeper back. On his failure to do so, Simonsen secured another boat and, rowing to the station, found Ellis dead in the boat.

The deceased was married and leaves a wife and three children, living at 1805 Jefferson street. On March 16, 1914, he was transferred to be assistant keeper at Sandy Point, and on June 10, 1914, was made first assistant keeper at Smith Point, which was followed by his appointment on November 1, 1914, to Love Point.

On June 3rd he was commended by the Bureau of Lighthouses for saving a man from drowning off Lazaretto lighthouse.
