GOVERNOR-ELECT HERRINGTON will be inaugurated next Wednesday with imposing ceremonies.

THE "rule or ruin policy" of the Lee-Preston following is now seen at Annapolis and is causing the right-thinking people to condemn in no unmistakable terms such men and such action.

THE Baltimore American on Thursday contained a good picture of Senator Brown, of Kent. Mr. Alex Mair was the choice of Republicans for a desk position, but he failed to land the job.

MR. TURNER'S COMMITTEE REPORT.

A plan for reorganization of the employs of the House of delegates which would save $43,533 02, as compared with the cost of the House in the last session was submitted to the Goodnow Economy and Efficiency Commission Tuesday by a committee of members of the last House, and will be submitted to the next House. Hon. Howard Turner, of Kent county, is chairman of the committee.

This committee was named by Speaker Trippe of the last House under the provisions of a resolution which was offered by Mr. Turner, who had been active in the fight two years ago to hold down expenses. The resolution was offered as a step toward determining some way of putting the House expenses for the coming session upon a business basis. For some weeks the members of the committee have been working upon a schedule of employes and of salaries which would be reasonable and which would meet the necessity and demand of economy without impairing efficiency. They believe that they have worked out such a schedule. Their plan practically cuts in half the number of employes in the last House.
