NOT ENOUGH CHILDREN

ever receive the proper balance of food to sufficiently nourish both body and brain during the growing period when nature's demands are greater than in mature life. This is shown in so many pale faces, lean bodies, frequent colds, and lack of ambition.

For all such children we say with unmistakable earnestness: They need Scott's Emulsion, and need it now. It possesses in concentrated form the very food elements to enrich their blood. It changes weakness to strength; it makes them sturdy and strong. No alcohol.

HOSIERY

We are, as we have always been headquarters for hose. We have children's hose, the best that money can buy, for 15c per pair, or 2 pairs for 25c. They are hard to tell from the regular 25c a pair quality. We have a special grade of ladies hose, medium weight and great wearers, at 3 pairs for $1.00.

CORSETS

The best advertisement on earth that a man can have is a satisfied customer. A lady whoever puts on a pair of Bon Ton or Royal Worcester Corsets is certainly satisfied and comfortable and she tells her friends and neighbors. That's the cause of our immense sale.

GROCERIES

This is the season of the year for parties and when giving one you always want nice things to eat. We have the best at all times. Why pay a high price for second grade goods when you can get the best here.

We use coffee as our leader. We have a special grade of coffee which are selling at 20c a pound and which cannot be duplicated at any other store for less than 25c a pound. Our 28c quality, our customers say, is as good as they are used to paying 35c a pound for. Try a pound, and if not satisfied no charge will be made for it.

Soliciting a trial to convince you am yours for business.

ADVENTURES OF A BOY SCOUT

The Motion Picture, "The Adveutures Of A Boy Scout," will be shown at the Lyceum Theatre, Chestertown, on next Friday, May 12th, afternoon and night. The play is a stirring drama written to appeal to American boys of red blood and healthy minds. It carries the hero through various phases of Boy Scout life, causing him to participate in stopping a runaway, rescuing a drowning boy, aiding injured people, track the lost in a forest, succoring a wounded dog; partaking of their sports in camp life, and joining with them in their final triumph, in which a public spirited citizen presents the organization with a Club House. The picture was produced under the auspices of the National Council of Boy Scouts of America, and is primarily designed to stimulate interest in the Boy Scout movement. President Wilson, who appears in the picture, Ex-President Roosevelt, Judge Ben Lindsey, Gifford Pinchot, and many other prominent men have endorsed it, and boys in other places where it has been presented have voted it the best thing in the motion picture line they have ever seen. It is clean and wholesome and you will be glad to see it. Next Friday, May 12th, is the date of the Public School Rally, and this picture will be shown at the Lyceum Theatre, in the afternoon, immediately after the school sports.

FUND FOR EUROPE'S BLINDED

The thousands of French, Belgium and British soldiers who have been blinded in the European War are in a pitiable condition, according to an appeal of American bankers, philanthropists and business men, through the B. F. B. Permanent Blind Relief War Fund, 590 Fifth Avenue, N. Y City.

The appeal is sent locally by Hon. James A. Pearce. President of the Third National Bank, who is Sub-Treasurer of the Fund in this locality and will receive all local contributions.

Unable to work at former trades, these numerous blinded war-victims cannot support themselves and their families. Their governments overburdered with more immediate problems, are able to do very little for them, the appeal states.

Six months training, on the other hand, the bankers, business men and philanthropists say, can educate almost all of these thousands of now useless blind men in practical, paying trades, in which they can support themselves and at least partially support their families. Work of this kind has already been begun by C. Arthur Pearson, the blind English newspaper proprietor and philanthropist, at St. Dunstan's, in England, by M. Rene Vallery-Radot thru, "Les Amis des Soldats Aveugles" in the "Maison du Convalesence" in France, and by Miss Winifred Holt of the Comite Franco American pour les Aveugles, of which the Hon. Joseph H. Choate is President. The B. F. B. Permanent Blind Relief War Fund seeks to assist, develop and enlarge these efforts.

The first work of the Fund will be to enlarge and modernize all the present blind institutions of Europe by means of finanicial donations. The Fund later intends to organize in various European cities additional modern equipped blind schools, blind workshops, blind employment exchanges for commercializing blind products.

If baby had the appetite of a young potato beetle it would eat from 50 to 100 pounds of food every 24 hours. If a horse ate as much as a caterpillar, in proportion to its size, it would consume a ton of hay every 24 hours. A caterpillar eats twice its weight of leaves every day; but a potato beetle devours every day at least five times its weight of foliage.
