Lewis lead the ticket, receiving 40 votes.

THE PENNSYLVANIA COLLATERAL CORPORATION is a going concern, occupying an entire building in the heart of Philadelphia, within a half block of the John Wanamaker Department Store.

MANAGEMENT—The management is in the hands of experienced and capable men, thoroughly versed in the business. The Officers of the Corporation are men prominent in the Public and Commercial Life of Philadelphia.

CHARACTER OF BUSINESS—It is a money lending Institution. The most remarkable argument in its favor is the Truth of Time—Every Institution of its kind has been a wonderful success. Every successive age has proven more forcibly that the loaning of Money is the most profitable business engaged in by man. Risk is eliminated by the fact that every loan made is protected by Collateral, left by the Borrower, representing 3 or 4 times the amount of the loan. Richard V. Mattison, of Keasbey & Mattison, in a letter to Mr. Lindes, says: "I KNOW that ALL these Collateral Corporations are Profitable Institutions."

PROFITS

The EARNINGS on every dollar invested averages from 60 per cent to 75 per cent. The Earnings of this Corporation, over and above all its expenses, totals 40 per cent, which is being used to meet the demand, subject to division among the share holders after the disposal of this issue. **The present rate of interest being 6 per cent payable semi-annually, with every reason for an increase.**
