For United States Senator:
DAVID J. LEWIS,
Of Allegany.

For House of Representatives:
JESSE D. PRICE,
Of Wicomico.

IT now looks as if Hughes is certain to be the nominee of the Republican party.

THE Methodist conference decided by a big vote not to raise the ban on cards, dancing and theatre.

WHEN will wonders cease? Hon. Lloyd Wilkinson made a speech in favor of Prohibition in Annapolis last Saturday! Its your turn next, Mayor Preston.

In another column will be found a synopsis of the Sunday law which has been published by request of a number of the NEWS readers.

THE price of oysters is going up. On September 1, when the season opens, the price of the succulent bivaeves in Balti more will be increased 10 per cent. This was decided Wednesday at the convention of the Oyster Dealers and Growers' Association of America in Atlantic City. News of the decision of the growers and packers to increase the price of oysters was received here with acclaim.

J. Henry Baker, Esq., has been made chairman of the committee that will manage the dry campaign in Baltimore this fall. He is planning an aggressive fight, and he is more than hopeful that with the co-operation of all those elements interested in the movement he will be able to bring about results. If Mr. Baker is as successful with this undertaking as he has been as President of the Liquor Board then Prohition will win. So be it.

TO SYSTEMATIZE LOADING

Chamber Of Commerce Interested In Loading Of Grain.

Asking that steps be taken to systematize the unloading of grain from boats and cars so as to cause the least possible delay, the board of directors of Chamber of Commerce has filed a petition along that line with the Public Service Commission.

It is contended by the grain men that the small vessels bearing grain have been subjected to hardships for the last five years because of the difficulty in having the grain unloading in Baltimore.

The petition states that the action is taken on behalf of the grain growers in the tidewater counties, who send their grain here by water, and the interest of the owners of the vessels. It is claimed that frequently boats bearing grain are kept in the harbor for 10 days before they can be unloaded.

It is pointed out in the petition that the elevators are owned and controlled by the railroads, who give preference to grain reaching here over their lines. Frequently they pay no attention to the grain in vessels until the waiting cars have been unloaded, it is stated in the petition.

Special attention is called to the meeting in the afternoon, under the auspices of the Woman's Auxiliary, to be addressed by Dr. William H. Jefferys, an expert on Medical Missionary work, and a well known Missionary speaker. The closing service of the Convocation will be held in the evening, at 7.30, when the subject of "The Christian Life of our Youth" will be presented. The meeting will be addressed by Mr. Dr. Frederic Gardiner, representing the Educational Department of the Work of the Province of Washington.

Notes From The Library.—The Chestertown Public Library has served the people of this vicinity for nine years; the year just closed has been the most successful one in its history. On June 1915, the library was made free, and since that time 481 people have borrowed books from its shelves. The library has been open every Tuesday and Saturday and 6911 books have been issued. Miss Josephine Wheatly is the present librarian. During the year 244 books have been added, making a total of 1,735 volumes. Gifts of books have been received from Miss Sappington, Miss Elizabeth Duyer, Mrs. A. E. Coleman, Dr. T. H. Fowler and the Woman's Century Club. The managers of the library thank the directors of the Kent Mutual Insurance Company for the use of the library room, and the editors of county papers for publishing lists of new books. Thanks are also due to several lodges, bank and individuals through whose liberality the free library was established and is maintained. The official report will be published next week.

Feed It Again---Keep It Growing

Your Growing Crops, Like a Growing Child, Need Feeding Often

Now that your growing crops are above ground, and going good, give them a helping hand, toward maturity, by a second and even a third application of fertilizer. It will not only increase the yield and improve the quality but will hasten their maturity.

With corn and other crops, past experience has shown this method of cultivation is not only expedient but necessary to get the best yields possible. The plant food placed in the soil previous to planting will be largely consumed by the plant by June. It is time then to feed them again and help them grow. It is not too late now to overcome a bad start by a second and then a third application of fertilizer.
