GOLDSBOROUGH has lined up for Teddy! Well, Well, who'd a thought it.

ANOTHER white house wedding! Dr. Cary T. Grayson, the White House physician, and Mrs. Alice Gordon, of New York, were married Wednesday. The White House is a veritable cupid's home.

FEW men in Maryland had wider acquaintance or more friends than Hon. Murray Vandiver, who died Tuesday. He had a big heart, a good companion, popular in and out of the Democratic party and his influence will be missed in the councils of this State.

THE grand jury for Talbot county returned an indictment against Frank and Rose Marshall Tuesday for assault with intent to kill their daughter, Grace Marshall, who was rescued from a room in the Marshall home, near St. Michaels, about a year ago, where it is alleged, she had been held a prisoner for years. The case will come up next November. Attorney Charles J. Butler says he is going to push it and hopes to secure a conviction.

THE campaign expenses of former Gov. Goldsborough in the recent primaries were $30,869.48, according to the sworn statement of Claredon I. T. Gould his political agent. It is reported that Kent got $750 of this.

David J. Lewis, successful candidate for the Democratic nomination for United States Senator in the recent primaries, received and expended about $8,000.

LET'S PULL TOGETHER

Are we, as a community, pulling together? Or are we pulling in opposite directions? Organization is the great community need of the day. Without organization men and women are apt to sink below the level of mules. Even mules, in times of danger or panic, have been known to co-operate. They sometimes kick together. The only benefits worth having are the benefits we can share with our neighbors. Individual benefits count for little. It is the co-operative effort that brings everlasting good.

EXAMINATION of the new rates proposed by the Chesapeake and Potomac Telephone Company for Baltimore city and the State at large shows that under it the Company would collect more money from its patrons than it does now. The most important changes in the rates relate to the country districts. The toll charges are rearranged so that on the whole they are higher, to conform to the general schedule of the American Telephone and Telegraph Company. These charges are made uniform, which they at present are not, and the section of the State that would be called upon to pay the greatest increase under the proposed schedule is the Eastern Shore. There has so far been no general revision in the country districts. The Commissioners have not yet been called upon to take any action in regard to the proposed new rates. They are tentative and the object of the Company in offering them appears to be to feel out the attitude of the Commission, and perhaps also to sound the public.

THE smallpox has broken out in Middletown among the negroes.

Feed It Again---Keep It Growing

Your Growing Crops, Like a Growing Child, Need Feeding Often

Now that your growing crops are above ground, and going good, give them a helping hand, toward maturity, by a second and even a third application of fertilizer. It will not only increase the yield and improve the quality but will hasten their maturity.

With corn and other crops, past experience has shown this method of cultivation is not only expedient but necessary to get the best yields possible. The plant food placed in the soil previous to planting will be largely consumed by the plant by June. It is time then to feed them again and help them grow. It is not too late now to overcome a bad start by a second and then a third application of fertilizer.
