Which
is more impressive?

First impressions count. Good, bad or indifferent, they're hard to change. So it pays to make *good* first impressions.

Each envelope is your personal messenger, classified instantly by the appearance of your name in the corner. Which is more impressive—three lines of black type on a government stamped envelope, or a "private" envelope with an attractive design that ties in with your letterhead?

Let us figure on your next envelope order and submit some "corner card" ideas. We may be able to save you some money, too.
