LORD KITCHENER AND WAR STAFF PERISH

Lord Kitchener, Secretary of State of War in the English Cabinet and his staff are reported lost in the destruction of the British crusier Hampshire.

The party, on their way to Russia were on board the crusier Hampshire when it was sunk by a mine or a Germane submarine off the Scotish coast. The loss was officially announced by the Admiralty today.

Lord Kitchener has been Secretary of State of War since the declaration of war with Germany, and his loss will be felt keenly by the English, as he was the one man in whom the British Empire had put its trust since the fighting began in Europe.

The Hampshire was a British crusier of the Argyll type and carried a crew of 655 men and officers. After the ship had been struck, observers on shore saw four boats leaving the sinking ship.

There was a high sea, and on searching later only one capsized boat was found so that up to the present time little hope is held out for the safety of any on board.

Why You Should Own a Maxwell

Comfort — First, because it is a comfortable riding car. Plenty of room for five people; deep, soft cushions; springs made of the best spring steel, scientifically heat-treated, accurately suspended and balanced. You will always be comfortable in a Maxwell.

Appearance — Second, because the Maxwell is a trim, smart, good-looking car.

Many makers of heavy, high priced cars, as you know, have copied the general lines, the shape of the body and hood of the Maxwell. This is more of a compliment than an infringement.

Service — Third, because the Maxwell, being a product of thirteen years evolution, is so designed and manufactured that it gives unfailing, consistent and and satisfying service to thousands of owners.

Maxwell cars are made of the best materials that money and brains can buy—*and they are made right.* You can get out of any car only what is put into it.

Low First-Cost — Fourth, because you get everything in a Maxwell that you can get in *any* car and you get it for less money.

The answer to this is that the Maxwell is a light car and it is built in enormous quantities. The Maxwell Co. is one of the three largest producers of high grade motor cars in the world.

Low After-Cost — Fifth, because the Maxwell will give you *more miles per dollar than any car built.*

We say this without hesitation or doubt. It is our honest belief and we are willing to prove it by Maxwell owners, by comparison with any other car or by any other way you suggest or prefer.

The Maxwell will please you. *We know it will.* Let us arrange for a demonstration and we'll take the responsibility of satisfying you completely.
