"IT'S THE LONG BLUE CHIMNEY"

IF you are a business man, if you are a professional man, if you are employed at a daily wage, make up your mind to deposit weekly a certain sum of money in the bank. You'll be surprised how the sum will grow. Cash in bank gingers up the man who has it there. He has more confidence in himself. The business man is ready for a dull season. He is ready for an opportunity.

So is the professional man. The man who is working for a daily wage and who hasn't any money in bank frequently is fearful of a loss of his situation. He does not work as well or with the confidence in himself as does the man with something laid aside for a rainy day.

Incidents of the Colored Picnic

Rolph's Wharf, across the river from Kent, was the mecca for hundreds of colored people Saturday it being an annual picnic.

Constable Jack Jester, of Kent was on hand to see that order was kept and he had his hands full. He acted as law enforcer and peace-maker, and even kept a drunken man from drowning when he fell in Chester River.

It is reported that 41 boatmen were arrested for carrying passengers without a license. The officers went to the boatmen and inquired if they were carrying passengers for money, and upon an answer in the affirmative they were informed that they arrested.

While returning from the picnic a collision occured which badly damaged the auto of Rev. W. H. Johns, of Chestertown and the one that William Graves was driving.

The wrecks of eight vehicles lined the state roads from Rolph's Wharf to Chestertown Saturday.

A wreck occured on Queen street that night when an intoxicated driver ran into a pole, upset his vehicle and injured his woman companion. Dr. Hines was called upon to dress the wounds.

GOVERNMENT TO CONTROL GRAIN GRADING

The Department of Agriculture has issued a statement directed to all grain interests in the country which explains the provisions of the new law standardizing the grading of grain shipped in interstate and foreign commerce. This law is of particular interest in Baltimore, where it affects one of the largest activities of the port. Before many sessions of Congress the Baltimore Chamber of Commerce led the fight against a Federal grain inspection system on the ground that the practices of the trade provided ample protection to interests and ample relief to those who might make complaint against an individual shipment.

The present law is not as objectionable to the grain people as many which were proposed in the past and against which organizations like that in Baltimore threw the weight of their influence.

In discussing the operation of the Grain Standards act today the department said:

"The act authorizes the Secrerary of Agriculture to investigate the handling and grading of grain and to maintain, as soon, as may be, standards for corn, wheat, rye, oats, barley, flaxseed and other grains. Not less than 90 days' public notice must be given in advance of the dates on which such standards become effective.

"Whenever such standards are established for any grain, the act forbids the shipment or delivery for shipment, in interstate or foreign commerce originating in the United States, or any such grain which is sold or offered for sale by grade, unless it is inspected and graded by a licensed inspector, either at the place of shipment or a point in transit, or at the destination. In case no licensed inspector is located either at the point of shipment or at the point of destination, the grain may be shipped without inspection, in which event either party to the transaction may refer any dispute as to tae grade to the Secretary of Agriculture.

"Any person who presents satisfactory evidence of competency may be licensed as an inspector under the act. In States which have or may hereafter have State grain inspection departments, the Secretary is required to issue licenses to persons authorized and employed to inspect and grade grain under the laws of such States.

THE Pennsylvania Railroad Company have notices posted that all children below sixteen years of age, before they enter upon a journey on their road, should first secure a health certificate from their physician. This is on account of the quarantine at present rigidly enforced in many sections of the country, because of infantile paralysis, may prevent much trouble in passing through these quarantined sections.

HOW MRS. BEAN MET THE CRISIS

Carried Safely Through Change of Life by Lydia E. Pinkham's Vegetable Compound.

Nashville, Tenn.—"When I was going through the Change of Life I had a tumor as large as a child's head. The doctor said it was three years coming and gave me medicine for it until I was called away from the city for some time. Of course I could not go to him then, so my sister-in-law told me that she thought Lydia E. Pinkham's Vegetable Compound would cure it. It helped both the Change of Life and the tumor and when I got home I *did not need the doctor*. I took the Pinkham remedies until the tumor was gone, the doctor said, and I have not felt it since. I tell every one how I was cured. If this letter will help others you are welcome to use it."—Mrs. E. H. BEAN, 525 Joseph Avenue, Nashville, Tenn.

Lydia E. Pinkham's Vegetable Compound, a pure remedy containing the extractive properties of good old fashioned roots and herbs, meets the needs of woman's system at this critical period of her life. Try it.

If there is any symptom in your case which puzzles you, write to the Lydia E. Pinkham Medicine Co., Lynn, Mass.

For the Man Who Runs the Office

You'll appreciate a system by which you can supervise your entire force without leaving your desk. A small private switchboard and a telephone on every desk is what you need.

It does away with rushing around from one desk to another and saves time and energy for everybody.

Ask our local manager for full information.
