For House of Representatives:
JESSE D. PRICE,
Of Wicomico.

THE organization in Delaware won in the Republican primaries Saturday and the News, of Wilmington, which waged a hot fight against Senator Dupont wants an independent ticket named. The Democrats ought to win in Delaware this year.

SEVERAL serious automobile accidents have accurred in the State this week. Capt. Jos. Delano's son was seriously hurt in one of the accidents while others, strangers to our readers, were killed.

TWO WEEKS from next Monday and the school bells will ring, calling the childen back to their studies. We sincerely hope that they all had a pleasant and enjoyable vacation, and when the schools open, we trust they will en te heartily into their studies and try to fit themselves for the duties of life by becoming useful men and women.

WORTHY OF ALL

The Work And Services of President Wilson Deserves a Re-Election.

After four busy years of political, commercial and international complications the American people are likely perhaps, to forget many of the really great and progressive measures and reforms instituted and perfected by President Woodrow Wilson. To the individual who takes the trouble to study the President's work it becomes readily apparent that he has had a most successful administration, and is justly enfitled to re-election.

Consequently, it is not amiss to recite a few of the important items in his administration showing why Mr. Wilson should be the next President.

He should be re-elected—

Because he has kept his country out of war, when a single mistake in a hundred instances in the last year would have plunged the Ualted States into war.

Beeause he has given all the preparedness the United States needs to protect the country from foreign invasion.

Because we have prosperity under his administration, when all the rest of the world is practically bankrupt.

Because he has given to the country a system of regional banks which makes a financial panic impossible.

Because he has forced Germany to abandon its submarine warfare upon passenger and merchant ships in accordance with the accepted principles of the international law.

Because the farming interests, the back bone of our prosperity, is receiving the highest returns in the history of the nation for everything raised on the farm.

Because he exposed and drove out of Washington the corrupt lobby which has for so many years controlled legislation.

Because the manufacturers in the country are so prosperous under the Democratic tariff law that they cannot manufacture enough goods to fill their orders at higher prices for their goods than ever received before.

Because he has established such cordial relations with South American and Central American countries that the manufacturers in this country are almost monopolizing their trade.

Because skilled and common labor is receiving higher wages now than ever before.

Because he has provided a merchant marine, which will prevent our producers on farms and in factories from being robbed of foreign trade by extortionate tolls.

Because he is the first American in the world, standing first for America.

Because his defeat would discredit this Nation in Europe like the proposed plan to stop Americans from traveling abroad would have discredited his diplomacy.

Beeause the Republican party offers no specific thing which would be better for the country than what Wilson has given us or what he stands for.

Because in his foreign policy he has stood for the neutrality of the United States, following the precedents of Washington, Jefferson, Lincoln and Grant.

Because when we have peace, prosperity and preparedness it would be a serious blunder to change political parties in control at Washington.

THE revised regultaions promulgated by Secretary of Agriculture Houston do not make any changes in the open hunting seasons for migratory birds in Maryland, Virginia and West Virginia. The season for shooting ducks, coots, gallinules and jacksnipes is fixed in Maryland, Virginia, North Carolina and Delaware at from November 1 to January 31; the open season for black-breasted and golden plover and greater and lesser yellow legs is fixed in Maryland, Virginia and Delaware from August 16 to November 30
