HOSIERY

We are, as we have always been headquarters for hose. We have children's hose, the best that money can buy, for 15c per pair, or 2 pairs for 25c. They are hard to tell from the regular 25c a pair quality. We have a special grade of ladies hose, medium weight and great wearers, at 3 pairs for $1.0

CORSETS

The best advertisement on earth that a man can have is a satisfied customer. A lady whoever puts on a pair of Bon Ton or Royal Worcester Corsets is certainly satisfied and comfortable and she tells her friends and neighbors. That's the cause of our immense sale.

GROCERIES

This is the season of the year for parties and when giving one you always want nice things to eat. We have the best at all times. Why pay a high price for second grade goods when you can get the best here.

We use coffee as our leader. We have a special grade of coffee which are selling at 20c a pound and which cannot be duplicated at any other store for less than 25c a pound. Our 28c quality, our customers say, is as good as they are used to paying 35c a pound for. Try a pound, and if not satisfied no charge will be made for it.

Soliciting a trial to convince you am yours for business.

NOT ENOUGH CHILDREN

ever receive the proper balance of food to sufficiently nourish both body and brain during the growing period when nature's demands are greater than in mature life. This is shown in so many pale faces, lean bodies, frequent colds, and lack of ambition.

For all such children we say with unmistakable earnestness: They need Scott's Emulsion, and need it now. It possesses in concentrated form the very food elements to enrich their blood. It changes weakness to strength; it makes them sturdy and strong. No alcohol.

VESSELS HIT IN HARBOR

Excursion Steamer Severn and Bugeye Mary F. Fogle, of Rock Hall, Collide at Lazeretto Light—Passengers in Near Panic.

The excursion steamer Severn, Capt. Robert Dize, of the Stony Creek Steamboat Company, was in collision Monday night off Lazaretto light with the bugeye Mary E. Fogle, Capt. William Ashley, of of Rock Hall No one was severely hurt although some of the passengers on the Severn were shaken up and slightly bruised and many, particularly the women and children, were very badly frightened.

The Severn had a lot of her joiner work on the starboard side carried away and the Fogle carried away her foremast at the deck, the sail and mast falling on the Severn and increasing the excitement. The Severn was towed to her pier at the foot of Broadway by the police boat Lannan, while the Fogle tied up at the Lazaretto.

Whether the Severn ran into the Fogle or the Fogle ran into the Severn will have to be determined later. The Severn, it appears, struck the boom of the bugeye's foresail and broke it off and then the mast was carried away and fell on the Severn. That swung the bowsprit of the Fogle into the side of the Severn at the starboard gangway and it, with the wreckage of the bugeye, raked away the joiner work from the main deck to the hurricane deck which, relieved of its supports, dropped down at an alarming angle.

In an instant there was a near panic on board the Severn. Women screamed and children cried and men ran first one way and then another in an effort to find members of their families or to get out of danger. Fortunately there were very few persons on deck on account of the coolness of the night and there were only about half a dozen in the vicinity of the crash. These, while in a tight place for a few moments, got out with nothing worse than a shaking up and a few scratches. Men and women in all parts of the vessel grabbed life preservers and when the fright subsided it was found that one woman had carefully put one around her ankles.

In a few minutes it was learned that no one had been hurt and that neither vessel had been seriously damaged. It was found that a part of the rigging of of the Fogle had become entangled in the propeller of the Severn and the s eames could not come up under her own power.

The accident occured at 7.40 p. m. aud it was two hours later that the pier was reached.

The excursion steamer Louise sent several boats to help rescue the passengers on the Severn, but fortunately they were not called upon.

ASSISTANCE REQUESTED

To Procure The Vital Records of The Senator And Representatives in The House of Delegates For Kent Co. In 1839.

A memorial of rare conception is being carefully planned and worked out by the Major William Thomas Chapter, Daughters of the American Revolution of St. Mary's City. It is actuated by the chivalry, in a beautiful law passed by the Maryland Assembly of 1839—to erect a "Female Seminary, to the Birth of the State of Maryland 1634," to be known as "St. Mary's Female Seminary," St. Mary's City.

Acting in accordance with a law, advising the planting of shade trees along the State's highway, this chapter has conceived the idea of an avenue, to be known as "The Avenue of the Maryland Assembly of 1839." This avenue leades up to St. Mary's Seminary and is to be made a fitting memorial to the man, who gave this living monument to the birth of the State. Each name in the Senate and the House of Delegates has been procured. Each county is to have the alloted space, by order of formation as a county, in the strte of Maryland.

Each tree, is to be honored by the name of a Senator or Repsesentative and in the planting thereof, there is to be much ceremony. For each tree two minutes is alloted—the Representative's full name, his birth and death date given and to whom married Therefore, it is earnestly desired that, through the local press of each county, assistance in procuring these vital facts, which will be carefully compiled in book form and entered into "The Room," set aside for such records by the wise Legislature of 1839.

The Senator from Kent was James B. Ricaud; House of Delegates, William S. Constable, Daniel Jones and Ebenezer Welch.

SEPARATE SODA CUPS

All soda water and soft drink dispensers in Kent county will have to use paper cups after September 1, or be liable to a big fine.

The State Board of Health has served notice upon all druggists and dispensers of soft drinks that glasses in which they have been serving drinks to their customers must not be used after September 1, unless they are willing to destroy the glass after it has been used once.

The practice in a number of drug stores has been to give the glasses a simple rinsing in running water each time they were used. This, the health authorities think, is insufficient to cleanse them. As children are great consumers of ice-cream soda, it is considered that a child with insipient infantile paralysis might, by means of soda water glasses, spread the disease to other children. Therefore, after Sept. 1. paper soda water "glasses" will be in style. Any violation of the order will make the violator subject to a fine not exceding $500.
