IF you are a business man, if you are a professional man, if you are employed at a daily wage, make up your mind to deposit weekly a certain sum of money in the bank. You'll be surprised how the sum will grow. Cash in bank gingers up the man who has it there. He has more confidence in himself. The business man is ready for a dull season. He is ready for an opportunity.

So is the professional man. The man who is working for a daily wage and who hasn't any money in bank frequently is fearful of a loss of his situation. He does not work as well or with the confidence in himself as does the man with something laid aside for a rainy day.

LODGE RECEIVES SHOVEL

WAS USED IN 1868 TO BREAK GROUND FOR QUEEN ANNES AND KENT RAILROAD.

The shovel used to turn the first spit of earth in the building of the Queen Annes and Kent Railroad, in 1868, was presented by Joseph Mallalieu, Esq., of Millington, to Centreville Lodge of Masons, at the meeting marking their opening for Fall Monday evening. The old shovel, which has been precisely kept for nearly fifty years, is in an excellent state of preservation and was viewed with interest by the large membership present at the Monday evening.

The breaking of ground for the railroad at Millington in 1868 was quite an auspicious occasion and Masonic Lodges from Centreville, Chestertown, Middletown and Smyrna were the guests of Eureka Lodge, No. 98, then at Millington. The masons participated in the ground breaking ceremonies, and the first shovel full of earth was turned by Col. Lemuel Roberts, father of the late Col. W. Scott Roberts.

At the Monday night meeting in Centreville two Masons were present who witnessed the ceremony at Millington. They were Mr. Joseph Mallalieu, of Millington, who has been a Mason for nearly half a century, and Mr. William E Thompson, of Centreville, who rounded out his fiftheth Masonic year twelve months ago. The late Deputy Register of Willis William F. Bailey was another Centrevillian present on the occasion of the beginning of the new railroad.

In presenting the shovel to the Centreville Lodge Mr. Mallalieu delivered a short address, in which he referrod to the beginning of the railroad and its progress since that time. The blade of the shovel has been gilded and the handle painted a light blue. It will be preserved in the archives of the local institution.

BASEBALL STARS ON SHORE

Many of the leading lights in professional baseball will be in Easton on October 14, and will play a local team there. The line-up will be: McInnes, Barry, Baker, Collins, infield; Oldring, Strunk and Fritz Maisel, outfield; Coombs, Plank, Bush, Shawkey, pitchers; Wally Shang, catcher. Should any of the above players have to play in the world's series their places will be filled with other well-known stars.

Easton will try to have a worthy line-up and Mr. Mason is trying to get Kibler, Tex Myers, Herzog, Babe Ruth, Frank Jarman and others.

IN addition to the high class motion pictures showing at the Lyceum Theatre the following attractions have been booked for the month of October: Wednesday, Oct. 4, Burgderfer, the "Prince of Entertainers" will appear under auspices of the local Lyceum Entertainment Association. This will b followed by a full week of Dramatic plays by the Edna May Stock Co., beginning Monday, Oct. 16th; on Wednesday, Oct. 25th, DeRue Bros. Minstrels; and on Tuesday Oct. 20th, "Beverly of Graustark" will be presented by Long & Carter with a star cast direct from New York.

DANA NOW A HOD-CARRIER

Grandson Of Longfellow Failure As Teacher At Washington College Tries To Find His Level.

Boston, Sept. 21—It became known here today that Edmund Trowbridge Dana, grandson, of the poet Longfellow, Harvard graduate and one time college professor in Chestertown, Md., is now a hod-carrier in an obscure Canadian town.

Dana has been a street car conductor and a newspaper reporter. He was not a success at either and he became a teacher of philosophy.

"Every time I've had a position as teacher in a college I've been fired," he told his sister. "Probably I'm not built for college teaching; in fact, I was told that the last time I was canned."

Dana's wife, Jesse Holliday, an English portrait painter, who shared his strange views of life, was drowned a year ago while bathing at Nantuckat and was buried in a grave he dug near where her body was found.

A COMPARISON OF PRICES

The Kent News of 1906 Shows Some Interesting Differences.

The prices of foodstuffs in Kent in August 1906, as revealed in the files of the KENT NEWS as compared with the prices now of the same articles is most interesting. For instance, eggs were selling in Chestertown stores then for 24 cents, now they are 35 cents; butter was 20 cents, it's now 30 and more; hams 14 cents, and tney are now from 22 cents up; porterhouse steak 18 cents, and now the choicest cuts are 25 and more. Lard was only 8 cents, now 16 cents, potatoes $1 10 bushel, sugar 4 cents, now 7 cenrs.

DR. JARMAN paid a visit to Poole's Island recently and treated the hogs there with serum. Some fine peaches from the Island were received by Chestertown housewives this week through the kindness of Messrs. W. U Lusby and G. E. Noland. The peaches sold for 75 cents per basket.

Baker Buys Another Farm

"Home Run" Baker has bought another farm and he is now the owner of about 350 acres of very desirable Trappe district land. His latest purchase is the Mrs. Annie Berry farm of 150 acres near Trappe, the price paid being reported as $14,000 The sale was made through M. Tilghman Johnston.

THE "Woman's Suffrage News" says: "In Homeric days women were bartered for a copper cauldron. This sets an example in arithmetic. The German Govment has decided that girl babies are worth $2 88 and boys $4 50. How much ought Greeks—or Germans—to pay Mrs. Cojenski of Connecticut? She is 27 and has had 13 children, triplets seven months ago, and recently the stork came again with twins.

SAVE YOUR HOGS

Cholera is Killing Hogs in This Section

It may hit your Hogs next. Many are dying right now for want of attention and medicine of the right kind. There is no sure cure, but—

Cal-Sino

Hog Cholera is very catching and even if your hogs are not yet affected by the epidemic, you should take steps at once to PREVENT SICKNESS.

HOG RESTORATIVE

Is a medicine that prevents sickness and cures all curable cases of Cholera. It has saved thousands of hogs and cured many seemingly hopeless cases.

CAL-SINO Hog Restorative Powder is no experiment; it has been tried and proven good for the seven years it has been on the market. It is based on 35 years practical experience of the CAL-SINO consulting veterinarian. IT HAS EFFECTED MANY REMARKABLE CURES. It is a sure preventative for Cholera, and will cure all curable cases but for surest results must be given before the hogs keel over. After they're down and won't eat, the chance to save is slight. Give it NOW. Do not put it off until they keel over.

CAL-SINO Hog Restorative Powder is a heavily phenolized medicinal remedy, an effective germicidal intestinal antiseptic ond disinfectant which exerts and keeps up a cleaning and purifying, germ-killing action from the stomach all the way through the bowels. It is made for that purpose. SEEMINGLY WELL HOGS are protected from sickness, made strong and gain weight by using it. It is better and safer to PREVENT SICKNESS than to take chances. Besides the increased weight will many many times over pay for all the cost.

It is a conditioner and health promoter, and therefore a flesh maker.

You who have tried it, remember it, and use it NOW to prevent sickness. Tell your friends. You who have not used it, try it once on our say so. Remember, it's no experiment. You'll come back for more. Don't put it off. Delay may cost you all your hogs.

50c cans; 10 lb. Pails, $2.00; 25 lb. Pails, $4.50; 50 lb. Pails, $8.00

Scientific Proof of Maxwell Fuel Economy

In a test made by David L. Gallup, M. E., Professor of Gas Engineering, Worcester Polytechnic Institute, a stock Maxwell Touring Car made from 23 to 33.7 miles per gallon of gasoline at speeds ranging from 10 to 35 miles per hour. We reproduce a letter from Professor Gallup concerning this test.

WORCESTER MASS Sept. 1st, 1916.

Maxwell Motor Co. Inc.,
Detroit, Michigan.

Gentlemen:-

I beg leave to submit the enclosed blue print giving the results of an economy test made on a 1917 Stock Maxwell Touring Car, furnished by your Boston representatives.

The curve is self explanatory and needs no discussion other than the statement that the carburetor, which was stock, was adjusted to give the best combination of power, flexibility, speed and economy, for such conditions of touring as would ordinarily be encountered.

In tabular form the results (taken from the curve sheet) are as follows:

SPEED (Miles per hour)	ECONOMY (Miles per gallon)
10	33.7
15	32.7
20	31.2
25	28.8
30	26.1
35	23.0

Respectfully submitted,

DLG/K D. L. Gallup

Maxwell

Deferred Payments If Desired

NOTE that no unusual means were employed to get these results. The car used was taken from stock; the test was made with a full load and with top and windshield up; the regular Maxwell carburetor was used.

Any Maxwell car is capable of giving this same economy in gasoline consumption.

Maxwell operating economy matches its economy in first cost, making it *The World's Greatest Motor Car Value.*
