VERNON M. BARNETT, J. P.

DEMOCRATIC TICKET

For President:
WOODROW WILSON.

For Vice-Pressdent:
THOMAS R. MARSHALL.

For United States Senator:
DAVID J. LEWIS,
Of Allegany.

For House of Representatives:
JESSE D. PRICE,
Of Wicomico.

AN independent Republican ticket for Senator and several other offices has been named in Delaware.

THERE is a vast difference between law and justice. They are as far apart as the two poles in many instances. The citizens of these United States will awake to this fact some day and law and justice will be synonymous.

OUR sympathies go out to the Seaford Tribune, an 8-page weekly of Seaford which is compelled to discontinue on account of not being able to get paper at the present price. Paper which sold for $2.70 per hundred is now quoted at $7 and scarce.

MR. ANTHONY NOTIFIED

Firemen's Hall, Onestertown, was the scene of an interesting event last Friday evening, and it is regretted that not more people were present. The object of the meeting was to formally notify Mr. James T. Anthony of his nomination by the Prohibition party as their candidate for Congress in this district. Mr. Charles R. Wood, of Baltimore, was chairman and introduced the speakers. After prayer by Rev. T. F. Beauchamp, Mr. John H. Dulany, of Fruitland, was presented. He was on the ticket for Governor, but spoke only a few moments giving way to Rev. Ivanhoe Willis, of Tilghman's Island, the orator of evening. Mr. Willis is of this section being a brother to several of our best citizens. He is a fluent speaker of good address, vigorous in his statements and strong in his approval of the prohibition principles.

Mr. Anthony replied in his happy manner evidencing his great ability to handle his subject and tactful in his reference to his foes

FOR UNIFORMITY AND FAIRNESS

The first practical step in the work of reassessing the real estate in this state was taken Wednesday when the State Tax Commission held a four-hour conference with the county supervisors of assessment, at its hearing room in the Union Trust Building. All of the supervisors were present.

President Gorman, of the commission, said that it was the purpose of the commission to complete the field work within three months, beginning Oct. 9, when each of the supervisors will be expected to call the local assessors into conference with him at the county seat.

Mr. Gorman then outlined in detail the plan to be pursued in the assessment word, laying stress upon the desire of the commission to secure uniformity and fairness by requiring a full valuation of all the real property.

Judge Leser, of the commission, pointed out that in several important respects the new reassessment will differ from any previous general assessment. It will apply to real estate only: the land and the improvements will in all cases be separately valued; the dimensions of all land holdings will for the time be shown; farm land will be classified so as to show the quantities and vales of tillable land, wooded land, waste, land etc.; units of land value and factors of value for improvements will be employed: the reponsibility for making the valuation will in the first instance be squarely put upon the assessor instead of upon the property owner; and above all there will be centralized authority and responsibility in the supervisors as respects all the assessments in the county and general supervision of all the counties by the Tax Commission.

"It is hoped through these improved methods," said Judge Leser, "that greater equality and uniformity of traatment will result and that the assessments will be fairer than they ever have been."

Commissioner Wickes joined in urging assessors to strict performance of their duties. Close attention was given to the proceedings by all those in attendance, it having been impressed upon them by the speakers that they were about to embark upon a task which was difficult and arduous and which is being done at the direct mandate of the legislature for the purpose of curing conditions of inequality and injustice which have arisen during the last six years.

All persons are hereby warned against placing any obstructions of any kind upon the public highways of Kent county, or interfering with or obstructing any of the ditches or drains thereof, as the same is made a crime by Section 167L of Chapter 403 of the Acts of 1910, and is punishable by a fine of from $1.00 to $25.00. Particular attention is directed against placing headrow filth in the ditches of the county roads.

GAULT APPLEGARTH,
aug26-tf County Road Engineer.

OUR MEXICAN POLICY BASED ON HUMANITY

How the President Has Upheld a Small Nation's Right to Control Its Affairs.

RESISTED WAR PRESSURE

Determined That America's Sister Republic Shall Be Permitted to Work Out Its Problem of Freedom and Self-Government.

"President Wilson's faith in democracy, and the unselfishness of the United States in international dealings, have been strikingly expressed in his Mexican policy.

"The President's demand for Mexico is—Justice."

The larger phases of the relations of the United States with Mexico during President Wilson's Administration as well as an interesting and complete narrative of events are presented authoritatively in the Mexican chapter of the Democratic National Text Book, from which these quotations are made:

"Two considerations have animated the President in the formulation of his Mexican policy and have compelled his adherence to it throughout his Administration, namely:

"The firm conviction that all nations, both the weak and the powerful, have the inviolable right to control their internal affairs.

"The belief, established upon the history of the world, that Mexico will never become a peaceful and law-abiding neighbor of the United States until she has been permitted to achieve a permanent and basic settlement of her troubles without outside interference.....

"The Mexican problem in its present form has existed for the American Government ever since our frontier was extended to the Rio Grande. When the people maintained the peace it was because they were forced to do so, and not because justice reigned in the land. Thus it was that the history of Mexico, like the history of every aspiring people, pressed upon President Wilson's consideration the truth that no permanent good relations could exist between this great Northern Republic and the one immediately South of us until she had been left free to put her house in order, however painful that process might be and whatever the demands it might make upon the forbearance of the United States."

"There was a powerful pressure for war—a terrible war—by a well-armed powerful nation against an unarmed, bankrupt people exhausted by five years of civil strife, but who still retained enough of patriotic feeling to unify them against an invader. It was the old, old question whether the United States should impose a peace on Mexico; whether, for the sake of the interests of a few of its citizens, it should permanently suppress Mexico's upreaching toward freedom and self-government."

FOR SERVICES RENDERED NOT PROMISES BROKEN

"I do not doubt that the people of the United States will wish the Democratic party to continue in control of the government. They are not in the habit of rejecting those who have actually served them for those who are making doubtful and conjectural promises of service. Least of all are they likely to substitute those who promised to render them particular services and proved false to that promise for those who have actually rendered those very services."—From President Wilson's Speech of Acceptance.

WORK THE PRISONERS

EDITORS OF KENT NEWS:

In reading the "NEWS" of September 16th, I read a statement on page 4 with regards to there being between twenty and thirty prisoners in the jail at the present time. Nothing too strong can be said about this matter. In the South a prisoner is not held in jail to await the next term of court or to serve so many days in jail. He is put out at work upon the public roads bound with chains and serves as high a term at hard labor as five years. They know down there that they will not be able to lay in jail at the county's expense and you will not find as many in the jails in the South in the proportion to the size of the town as there is in some states up North. A law is needed to compel the worthless characters, such as several who are always in jail, to help to improve the streets of our town or to help to keep the roads in good shape instead of paying others to do what they ought to do. If those who make the laws of "Kent County" would only make a law to this effect, the conditions of the town and county would soon improve. It is done in other states, why can't it be done in Maryland? The taxes would not be as high if such a law was made.

AN INTERESTED READER.
