THE STORE WITH A SMILE

No, the store itself does not smile, but everybody in it does.

We have here a Store Family of nearly 1400 contented, happy people. Contented, because they are receiving a fair compensation for their service — a compensation which they themselves regulate in proportion to their own effort and efficiency.

Happy, because they are fairly treated, and because their only concern is to see that every customer is given courteous, honest, helpful service.

It is a store which you will like to visit — not the cold, awe-inspiring business machine which many department stores are, but a human store — a store with a personality—an organization of nearly 1400 souls with but the single purpose of serving you well—and smilingly.

Diocesan Pension Committee Meets.

Judge Constable, chairman of the Diocese of Easton Committee on the collection of the $5,000,000 Pension Fund, called a meeting of the committee in the court-house at Easton on Friday. There was a good attendance and plans for the collection of the diocese's apportionment of the pension were made.

The committee is Judge Constable, of Cecil county; Judge Pearce, Kent county; Dudley G. Roe, Queen Anne's county; George Beaven, Caroline county; Judge Adkins, Talbot county; Edwin Dashiell, Dorchester county; Travers L. Ruark, Wicomico county; Col. Henry J. Walters Somerset county; Oliver Collins, Worcester county.

The committee waited upon Bishop Adams while there.

BUILDING TO BE TORN DOWN

The Talbot County Fair Grounds, at Idlewild Park, are to be dismantled in the near future and the land surveyed and laid out into building lots.

This was the information given out by one of the owners of the grounds this week, and with this declared intention the death knell of the Talbot County Fair has sounded.

The plan is to demolish all of the buildings and sell them and to raze all fencing, etc. A survey will be made and the entire park laid out into building lots, the choicest of which will be on the new Trappe road.

Every effort has been made to preserve the grounds intact, with the hope that a new association might be formed to take them over. This seems to have been a forlorn hope, as it was impossible to arouse any further interest in the project.

Eastern Shore Oysters Healthy.

A message has been received at the office of the Conservation Commission from Commissioner William H. Killian, on board the State steamer McLane, at Crisfield, saying though he and Ernest Danglade, of the United States Bureau of Fisheries, have been making all sorts of inquiries they have been unable to ascertain the cause of the mortality among the oysters in certain parts of the Chesapeake Bay. They began their investigation last Monday

The most cheerful news embodied in Mr. Killian's message was to the effect that on the Eastern Shore the oysters are not dead, but, on the contrary, are in a very healthy condition. However, he asserts that even there large stock is scarce and that the cull law is going to hold down the volume. This law, he says is being very satisfactorily observed.

Mr. Killian reported that more than 100 more licenses have been issued to oystermen in Somerset county up to this time than were issued for all of last season.

REGISTER!

We beg to call attention to the fact that October 3rd and 10th (Tuesdays) are the days set aside this year for the Registration days, and it is most desirable that every one in the county qualified to vote should assure themselves that their names are upon the Registration books of the proper district and precinct. This year the registration is intermediate only, that is to say, if your name is upon the books of the district and precinct of the county in which you now reside or will reside at the time of registration, it will not be necessary to do anything except appear at the polling place on election day (November 7) and vote for Wilson, Marshall, Lewis and Price; but if you have moved from one district to another, one precinct to another or one county to another since last election, it will be necessary to get a "transfer" to the place where you now reride, or you are liable to have your name "stricken off" and not be allowed to vote. It is also extremely important that the attention of those who have just acquired the right of franchise to the fact that in order to vote it is necessary to first have their names placed properly upon the registration books on registration days.

"Line Is Busy"

Nine billion telephone calls were answered last year in the Bell System. It is not surprising that some telephones were found to be busy.

When a line is busy it is not the operator's fault. Some one else is talking to the party to whom you wish to talk—or to some one else on his line.

Believe the operator when she says: "Line is busy."

When you telephone, smile.
