Seed Wheat.

The Seed Wheats we offer are from the best and most productive crops grown in the finest wheat-growing sections of Virginia, and are carefully recleaned by us to remove all impurities and small and inferior grains, so as to supply our customers only with plump and well-developed seed wheat, which should yield considerably more per acre than ordinary wheats imperfectly cleaned. All of our Seed Wheats are selected from good yielding crops, which with our methods of cleaning, makes the Seed Wheat which we offer very much superior to ordinary seed wheat.

As in the United States equal suffrage has flourished only in the western provinces of Canada, but there are now signs that the ballot will soon be given to women in all parts of the Dominion, except in extremely conservative Quebec. Several of the important political leaders tn Ontario have been won over to the suffrage cause and others are said to be wavering. There are no constitutional restrictions in Canada against suffrage and Parliament could easily grant the privilege of voting to women. The war is responsible for the new agitation among the Canadian women for suffrage.

A DARING EXPLOIT

The visit of the German submarine U-53 has been even more spectacular than that of the Deutschland, which came on a peaceful errand. The Deutschland created a "sensation," but the U-53 has caused even a greater "sensation." Unheralded this undersea craft of the Kaiser's navy visited Newport, and after "transacting business" and exchanging visits with two American admirals, hurried away. Before warning could be given the submarine became busy with the result that, according to latest reports, four British boats and two neutrals were torpedoed.

It was a remarkable exploit, that of this German ship, and it demonstrates for the time being at least, that submarines, both merchant and war ships, can elude the Allied warships and come to the very coast of the United States. And the fighting submarine can wreck ships of Germany's enemies on our coast. Naturally this latest exploit will cause a commotion among the Allies, for it carries the war into a new theatre, the American coast.

According to the earlier reports the submarine has kept within the law, but there will doubtless be a rigid investigation of her activities. There has been very little expectation or speculation that the submarines would be able to operate so close to American waters, and hence the feat of the U-53 has caused surprise and great interest.

YOUNG WOMEN MAY AVOID PAIN

Need Only Trust to Lydia E. Pinkham's Vegetable Compound, says Mrs. Kurtzweg.

Buffalo, N.Y.—"My daughter, whose picture is herewith, was much troubled with pains in her back and sides every month and they would sometimes be so bad that it would seem like acute inflammation of some organ. She read your advertisement in the newspapers and tried Lydia E. Pinkham's Vegetable Compound. She praises it highly as she has been relieved of all these pains by its use. All mothers should know of this remedy, and all young girls who suffer should try it."—Mrs. MATILDA KURTZWEG, 529 High St., Buffalo, N. Y.

Young women who are troubled with painful or irregular periods, backache, headache, dragging-down sensations, fainting spells or indigestion, should take Lydia E. Pinkham's Vegetable Compound. Thousands have been restored to health by this root and herb remedy.

If you know of any young woman who is sick and needs helpful advice, ask her to write to the Lydia E. Pinkham Medicine Co., Lynn, Mass. Only women will receive her letter, and it will be held in strictest confidence.
