THE STORE THAT SERVES YOU BEST

The Hochschild, Kohn & Co. Store was founded in 1897. It began with a plain announcement of its policy and its intentions.

A clear contract was made — is still made, and will always be made—with every customer. This is the contract—it is printed on the back of every sales-check:

Our System
Reliable goods only, at uniformly right prices. For all articles returned, if uninjured, and within reasonable time, we shall willingly refund money.

Baltimore's Best Store is the store of progress. It is not ideal, but it is striving to be.

Its aim is to please—to satisfy; and it never loses sight of the mark. It is the accepted and avowed shopping place of a great many people, in Baltimore, throughout Maryland, and in almost every other state in the Union.

BACK FROM SHORE TRIP

Trade Extensionists Found City Too Hard to Reach—People on Peninsula Also Complain of Baltimore's Neglect—Better Prices Elsewhere.

After a trip that proved a revelation to them, the trade extensionists of the Merchants and Manufacturers's Association returned to Baltimore from their four-day "drive" on the Eastern Shore. They made the entire run of 185 miles from Salisbury in one stretch, and, in addition, stopped over in Federalsburg and Denton for two hours to get the views of Caroline county. Federalsburg and Denton told the tourists exactly what they had been hearing all along the peninsula—that trade, as other things, follows the easiest route, and that trade must be wooed instead of merely attracted.

Briefly, the trip showed a tremendous drift of business to the north, Wilmington, Philadelphia and New York particularly—a drift that should be toward Baltimore. The merchants, the producers, the business men generally, expressed themselves as desirous of trading with Baltimore because of their pride in the State's metropolis, but they showed that the disadvantages were too great.

A general complaint is that Baltimore's grading of grain is unsatisfactory; that Philadelphia gives the Shore a better rating on the same wheat. Philadelphia pays spot cash at the shipping depots; the Baltimore system requires the grain to be sent here subject to local grading and brokerage. New York, Philadelphia and frequently Boston send buyers direct to the Shore to buy truck products that, with more adequate arrangements, might be better distributed from Baltimore.

In the way of return trade, comparatively few Baltimore goods go to the Shore. The Northern houses have the territory better canvassed, and they "get the bacon." Baltimore neglects them, the business houses of the Eastern Shore complain.

Eggs generally go to the Philadelphia and New York markets, because Baltimore's figures are from 4 to 7 cents a dozen less. Hardware is sold over here by the Philadelphia firms because Baltimore concerns have apparently ignored the section. The women of the Shore—of the wealthy towns of Easton, Centreville, Berlin, Snow Hill, Princess Anne, Pocomoke City, Chestertown and Salisbury—go to Philadelphia and New York when they want exclusive styles and patterns for their dresses and gowns. The women say the Baltimore market does not meet their requirements.

The transportation problem projects itself as the greatest factor in the weaning away of Baltimore commerce. Too much time and comfort must be sacrificed for a Shoreman to go to Baltimore frequently. He can more conveniently get to Wilmington, Philadelphia and New York, and his trade is being diverted to those points.

Watch For Bands On Wild Ducks

If you kill or capture a wild duck bearing an aluminum band around its leg, have a number on one side, and on the other a statement requesting that the United States Department of Agriculture, or the Biological Survey, be notified, you are requested to send this band at once to the Bureau of Biological Survey, Department of Agriculture, Washington, D. C. This band, if accompanied by a statement as to date, place and circumstance under which the bird was taken, will be of service to the Survey in its efforts to determine the longevity of individual ducks and the routes of migration of the species. The bands are being attached to considerable numbers of wild ducks of several species which have been cured of the duck sickness prevalent around Great Salt Lake, Utah, and there released. The department is particularly anxious to secure reports from these birds to determine there complete recovery from this malady which has killed hundreds of thousands of ducks in Utah.

AN EXHIBIT AND A LESSION.

The total amount of deposits in the 19 banks of Carroll county at the time of the recent September statement was $9,400,499 15.

The total amount of deposits on May 1, the beginning of the dry period, was $8 240,821 16—a gain since the saloons were closed of $1,159,677.16

There is no better index to the condition of the community than its bank deposits.

The above shows a period of unexampled prosperity in Carroll county.

Every bank in the county shows a substantial gain.
