VOL. 78. CHESTERTOWN, MD., SATURDAY, JANUARY 19, 1918. NO. 27

To the Public

Having sold my interest in the Kennedyville Garage, Kennedyville, Md., to Mr. W. W. Clendaniel, Kennedyville, Md. I take this means of thanking my patrons and friends for their loyal support given me while in the automobile business. I hope you will favor my successor, as I am sure he will appreciate any business that can be thrown his way and I feel confident that Mr. Clendaniel, will take care of his patrons in a very satisfactory manner.

Very truly yours,
JOHN H. CLENDANIEL, JR.

CORN SHELLERS

THERE is a large crop of corn in Kent and Queen Anne's counties to be handled this year. Are you prepared to shell yours? We are ready to assist you in shelling it.

We have everything in Shellers, from the small machine that bolts on a box up to the large eight-hole Sheller, Our No. 7 Sheller, the 2-hole with shaker, has made a reputation for itself in nearly 15 years of continuous selling and use. We have ordered these the second time this season already. Power Shellers from 2-hole up. Strange to say, the price of KEYSTONE Power Shellers have made no advances over last year's prices. If you need a Sheller to handle your crop, see us about it now. Takes very little engine power to run a 4-hole Sheller.

☞ We have a fine line of OIL ENGINES that will run these Shellers, if you need power.

Money Talks

To be sure money talks, especially money that is actively employed. Money that is idle is money asleep, and money doesn't talk in its sleep.

The place for money is in a reliable bank like ours, safe but subject to check. Hoarding money takes it out of circulation, and it is constantly liable to be lost. Money on deposit talks and the things it says to you are "security comfort, satisfaction." We invite you to open an account at the

NOTICE TO PUBLIC.

CHESTERTOWN, MD., Jan. 16, 1918.

EDITORS OF THE KENT NEWS:

Dear Sirs:—I learned only on last Friday afternoon that a report was widely circulated and generally accepted here that I had resigned as President of The Third National Bank of Chestertown. This is not the fact. I have never resigned, and there is no foundation for such statement by any one whatever.

Please publish this for the correct information of such as might credit the report if I remained silent.

Yours truly,
1t* JAMES A. PEARCE.

ASSESSED VALUATION AGREEMENT FIXED

Meeting Of County Commissioners Of Eastern Shore Counties Meet At Easton And Recommend Uniform Rate.

A meeting was held at Easton on Wednesday of last week, at which the commissioners from every county on the shore, except Cecil, were present, and an effort made to agree on a uniform schedule for farm stock. U. G. Ross, of Talbot, was chairman. O. C. Smith, of Queen Anne's county, acted as secretary, and did much toward reaching an agreement among those present. It was finally agreed to assess live stock at so much per head, several counties having found this satisfactory.

The following is the assessed valuation agreed upon.

Hogs	$15 00

It was agreed to tax only stock hogs, or those kept for breeding purposes.

Sheep	8 00
Mules	70.00
Cows	40.00
Horses	50 00

While there are many worth more than the above amount it was carefully figured out that the above is a fair average.

These valuations are merely recommendations to the State Board and may be increased or diminished before final adoption.

Automobiles were next considered, and after much discussion it was agreed to tax all machines at one-half the factory price for a period of four years.

Some of those present were in favor of going before the State Legislature and demanding 50 per cent of the revenue derived from the auto licenses to be spent on the county roads, but action was deferred for the present.

NOTICE

The Legal Advisory Board of Kent county wishes to make public acknowledgement of the valuable aid rendered by their associates, both members of the bar and public spirited citizens in enabling registrants for Military Service to prepare their Questionnaires promptly and intelligently. Without this hearty and efficient co operation by all those who offered their services, the work could not have been accomplished within the prescribed time, and many registrants would have been delinquent or subjected to costs and hardships in complying with the requirements as to their return.

FARMERS' MEETING TODAY

Farmers and their wives and all interested in the farm ara invited to meet at the Court House today, Saturday, at 3 p. m. to arrange for a course of short lectures to take place February 8th and 9th. G. E. Stayner, of Iowa, will be here to make all details known. Lectures will be given free.

FIVE-DAY HOLIDAY

Government Officials Order All Offices, Stores That Do Not Sell Food, Shops, Plants Etc., To Close—10 Mondays To Be Holiday In Theatres, Saloons, Etc.

With the approval of President Wilson, Dr. Garfield, Fuel Administrator, has issued the most drastic and far-reaching order that has come to the American people since the war began. Under this order, which went into effect Friday morning, all industrial establishments East of the Mississippi will be closed down for five days. This will apply even to those establishments engaged in the making of war munitions. Beginning next week, every Monday will be an industrial holiday and all establishments included in the five-day order must be closed. This will apply also to office buildings, dry goods stores, shops, etc. Dr. Garfield estimates that he can make a saving of millions of tons of coal by this order and during this period coal will be supplied only to railroads, households, public utilities, ships, cantonments, naval stations and public buildings. Banks and trust companies are not included in the order unless State governors specifically declare they shall be included.

CHAPTER OF ACCIDENTS

Bayard Sutton, tenant on the Alms House Farm, accompanied by his son, Norman, and falher-in-law and mother-in-law, Mr. and Mrs. Wm. Durding, of Rock Hall, met with an unusual accident last Friday night in a Ford auto. When near Baker's woods the car skidded and turned crosswise of the road. The occupants got out safely and were trying to warn an approaching car, which failed to see them, and which struck the Sutton car. The car was overturned on Mr. Sutton, injuring his nose, while Mr. Durding was cut about the head. The second car was driven by Miss Mary Griffith, of Sassafras, who was on her way with Miss Willis to the home of Mr. and Mrs. H. C. Willis. They rendered every possible assistance. Dr. W. Frank Smith dressed the wounds of the injured. Mr. Sutton, it will be recalled, fell from a loft and broke his leg in the early fall.

The Ford car driven by Andrew Perry and occupied by Harold Matthews and Spencer Peterson, was overturned near Brown's corner, in Queen Annes, Sunday night, when the steering gear became disarranged. Mr. Matthews had a shoulder blade dislocated and Mr. Perry had his face badly lacerated. Mr. Peterson escaped uninjured.

The Elkton Bus, while enroute to Chestertown on Saturday in an attempt to pass Mr. Elmer Jarman's truck, knocked the tail-board from the truck and landed in the ditch. There were no passengers aboard, and only a broken wheel resulted.

I. R. Leaverton, of near Laukford, fell on the ice one night this week and hurt himself very severely. His side and ribs were injured.

SKATING FROM ROCK HALL ACROSS THE BAY

Three Men From Rock Hall Skate Across The Chesapeake Bay To Bay Shore Park — First Time In The Recollection Of Old Captains That The Bay Has Been Crossed At That Point On The Ice—Distance About Twelve Miles.

Three men, Capt. William Ashley, Cleveland Ashley and Selby Beck, skated from Rock Hall to Baltimore Friday. The men left Rock Hall in the morning, stopped at Seven-Foot Knoll, bringing mail to Inspector King, who gave them a return message. The men had a small scow equipped with runners in case any clear water was encountered while crossing the bay. The only time they had to use the scow on the trip over was when they reached the Bay Shore end. On the way they stopped at "Tub Light" for half an hour. On the way back they transferred the assistant keeper of the Knoll to Craighill outer light.

They were also charged with the duty of delivering at Seven Foot Knoll, at the mouth of the Patapsco, for the keepers an order directing them to abandon their stations if threatened by the ice. This order will apply to the Potomac and has been communicated to the keepers of lighthouses in the York, Rappanhannock and James rivers.

Inspector King was notified that the keeper of Windmill Point, mouth of the York river, has been taken off by a Coast Guard Cutter, because the house was endangered by ice.

Not in many years have the light stations in the Baltimore district suffered damage by ice to such an extent as at present.

A TERRIFIC RAIN AND WIND STORM

This section was given a severe shaking up Friday night by a 44 mile wind, accompanied by rain and snow. Many residents became alarmed and arose and dressed. The worst of the storm occured about 2 a. m. The home of W. W. Beck, Esq., on Water street, seems to have been the most damaged. The whole porch roof on the south side of his home was lifted off the plates and laid over on the roof of his dwelling, striking a large chimney and wrecking it. The tin roof on Mr. Walter Elburn's shed was blown off, as was also a part of the roof on Smith's Garage. A large shed on the Lusby farm was slightly moved from its foundation. Everett Sheets' family, on Kent Cirle, had a rude awakening. The trap door on the roof of the adjoining house blew off, striking the window of Mr. S.'s front room and causing quite a crash. Police Justice R. Hynson Rogers' windows were blown out as were those of his neighbor, W. B. Usilton. Thirty panes of glass were broken out at the college; fodder sheds unroofed, and other damage done.

The roof on Tylden C. Hadaway's kitchen was carried away. Mr. Sudler Baxter, near town, had one cow killed and another so badly hurt that it was found necessary to butcher her. The wind raised the roof of his cow shed as though it was so much paper and when the frightened animals tried to make their escape the roof, beams and all, came crashing to the earth, pinning them beneath its debris. The cow which was not killed outright, gave five gallons of milk a day.

Intending Purchasers of

Delco-Light

Of course you intend to install DELCO-LIGHT like your neighbor sometime and if you want DELCO-LIGHT installed within the next year telephone or write at once and I will tell you how to save $45.00.
