CALLS PRESENT PLANNING SORT OF AMUSEMENT

Dr. Abel Wolman, professor of sanitary engineering at the Johns Hopkins University yesterday charged that postwar planning has become "sort of an amusement" enjoyed in a paradise that is not related to reality and warned that unless the situation is corrected we will find ourselves as we were in 1933, completely unprepared to meet an unemployment emergency.

SPEEDING COSTS 700 USE OF GAS

Since January 1st about 700 Maryland motorists have been denied their right to buy rationed gasoline for varying periods after being convicted of breaking the 35 miles an hour speed limit, Daniel B. Leonard, State OPA enforcement attorney said yesterday. The revocation of gasoline coupon books ranged fro m15 to 90 days.

CHRISTIAN SCIENCE WAR RELIEF ACTIVITIES

Since 1940 the members and attendants of the Christian Science Churches of Baltimore have been engaged in making garments to be shipped abroad and distributed among the needy in the devastated areas.

Units of Christian Science workers, similar to that represented by the Joint War Relief Committee of Baltimore, have been organized in more than 1500 branch churches and societies in this country, the garments and other articles which these units have made and shipped abroad since 1940, represents a value of nearly two and three quarter million dollars.

Relief is not limited to members of the Christian Science faith who are in want, as no distinctions in distribution are made on account of race, color, or creed. It suffices only to know that a person is in immediate need of help.

Contributions of cash and of garments by Christian Scientists already bulk large, the destruction of life and property which the war has wrought is so appalling, that very much more aid is not only needed now, but will continue to be needed when postwar rehabilitation and restoration set in.

THE OLD JUDGE SAYS...

"We can't argue with the Judge on that point, can we Mabel? It's not fair to penalize the many for the actions of the few."

"That, folks, is exactly what we would be doing in this country if we ever voted for prohibition again. Authorities who have made a careful study of the problem, report that only about 5% of those who drink abuse the privilege occasionally... 95% drink sensibly. Probably doesn't compare with the number of folks who overeat and do other things to excess. Prohibition certainly isn't the answer. It's not that simple. We had nearly 14 years proof of that, didn't we?

"The real answer is education and better control. In fact, the responsible members of the distilling industry are working constantly toward that end. They don't want anybody to abuse the use of their product any more than the three of us do."

"If everybody would take that sensible attitude, Judge, and cooperate as more and more are now doing, we'd be a lot better off a lot quicker."

FORD

"6" OR "8"

IN THESE UNUSUAL TIMES we invite you to inspect an unusual new car—new in its beauty, its comfort, its choice of two fine 90 horsepower engines, 6 cylinders or 8.

See it and you sense at once that here is new style that will *stay* good for years. On a lower, wider chassis, we have designed new long, low, wide and modern lines.

Interior treatment is entirely fresh, distinctive, pleasing. The beauty of this Ford will more than hold its own in any company.

Inside, the car is *big*—wide across the seats, generous in knee-room, leg-room, elbow-room.

On the road this year you find the "new Ford ride" still further advanced in its softness, quietness, steadiness and all-round comfort.

At the wheel, you will find driving easier than ever. Steering, gear-shifting, action of the big and sure hydraulic brakes have all been made smoother and easier.

In quality, the car is sound to the last detail. Defense requirements have all been met without a single reduction in the basic and lasting goodness of the Ford mechanically. Some new materials have replaced old ones, usually at a greater cost to us, *but in every case the new is equal to or better than the old.*

If your family needs a new car, go see and drive this Ford. *For what it is today and for what it will be through the years ahead, we believe that you will find in it more and better transportation for your money than you have ever found before.*
