A NEEDED IMPROVEMENT

There seems to be a universal desire to give to Rock Hall better roads and we believe the time has now come for practical action. The Pomona Grange elsewhere in the News publish a resolution in favor of the completion of the State road from Edesville to Gratitude, a distance of about six miles.

The last Legislature passed a road bill of $3,000,000. Following are some of the roads, highways and bridges to be constructed out of this sum:

Cecil—Bohemia river bridge, gravel section of road between Northeast and Elkton.

Kent—One-half of Chester river bridge, finishing road to Rock Hall, Millington to Galena road, Lambson to Crumpton.

Queen Anne's—One-half of Chester river bridge, road from Ingleside to connect with the Millington-Galena road via Masseys, Crumpton to Sudlersville and Church Hill road.

A delegation of 200 persons from Harford county were before the State Road Commission Monday asking for a State road in that county. Chairman Zouck told the delegation that nothing could be done about the matter at this time and that no decisions would be made which would commit the commission to new roads until after Congress adjourns. Several bills are now before Congress appropriating money for roads which will be built on a 50-50 basis, the Government requiring the states to appropriate for roads amounts equal to the amounts contributed by the Government. If Maryland's road money is tied up in appropriations for specified roads it may not be in a position to meet the Government's propositions, dollar for dollar, and the State therefore might lose some part of what it would otherwise obtain from the Federal authorities.

There will be available from the Government for construction after July 1 next a total of $1,273,218 if the Bankhead bill, providing for the appropriation of $500,000,000 for the construction of roads during the next five years, passes Congress, as now seems likely.

It has been suggested that there might be some difficulty in the way of Maryland taking up the total of this appropriation during the coming season; that is, in matching a State dollar against every Government dollar, but Chairman Zouck says there will be no difficulty in the way at all. Every Government dollar will be matched, for he is not going to overlook any such proposition as that. Under the law this would not have to be done this year, for there would be another year in which to make the preparation. On the other hand there will be a new appropriation for the whole country of $95,000,000, which will become available on July 1, 1920, if the Bankhead bill passes, from which Maryland's share would be as large if not larger than the sum it will be entitled to this year. According to Mr. Zouck, Maryland will be in a position to take and use all that may be coming to it from the Government for roads, and is prepared to go just as far as the Government likes.

We quote this interview to show the exact attitude of the commission on road building. Kent wants to cooperate in getting this government money but there is no reason why plans for the Rock Hall road may not be made and arrangements made for building same. The money end of it will not be needed until after July 1. Here is the News' plan to bring this needed improvement before the State Roads Commission. It is impossible for many of our citizens to go to Baltimore therefore we would suggest that they write of the great need of a State road to Rock Hall. Let there be at least a thousand letters go to Chairman Zouck, Union Trust Building, Baltimore, within the next 30 days. Then let there be a delegation consisiting of our County Commissioners, Senator, Delegates, Rock Hall Commissioners, Grangers and citizens from all over Kent, visit the Commission and present the justice of the case. We believe this action will bring this important public improvement before the State Commission in its proper light.

The resolution in regard to taking over the road between Still Pond and Betterton is also an important one. The Kent County Commissioners have taken up this case with the Commission and it is thought an amicable settlement will be made. A case similar to Kent's was heard in Baltimore county last week and a decision given compelling the State to take over certain State-aided roads.

Reader, don't expect some other person to do this work. WRITE TODAY.

Ratification of the prohibition amendment to the Federal Constitution was proclaimed formally Wednesday by Frank L. Polk, acting Secretary of State. Legal authorities of the department say ratification was accomplished when the thirty-sixth State acted favorably on January 16 and that under the terms of the amendment itself prohibition becomes effective one year from that date.

The proclamation was signed by Mr. Polk at exactly 11.20 o'clock in the presence of Senator Sheppard, of Texas, author of the amendment resolution, former Secretary Bryan, Representative Randall, of California, prohibitionist member of the House, and officials of the Anti-Saloon League of America, the Woman's Christian Temperance Union and other anti-saloon organizations.

Mr. Polk used several pens in affixing his signature and presented them to Senator Sheppard, Mr. Bryan, Representative Randall and others. New York and Vermont have joined the temperance ranks making 44 States to ratify.
