IT'S NOT YOUR HEART IT'S YOUR KIDNEYS

Kidney disease is no respecter of persons. A majority of the ills afflicting people today can be traced back to kidney trouble.

The kidneys are the most important organs of the body. They are the filterers, the purifiers, of your blood.

Kidney disease is usually indicated by weariness, sleeplessness, nervousness, despondency, backache, stomach trouble, pain in loins and lower abdomen, gall stones, gravel, rheumatism, sciatica and lumbago.

All these derangements are nature's signals to warn you that the kidneys need help. You should use GOLD MEDAL Haarlem Oil Capsules immediately. The soothing, healing oil stimulates the kidneys, relieves inflammations and destroys the germs which have caused it. Do not wait until tomorrow. Go to your druggist today and insist on GOLD MEDAL Haarlem Oil Capsules. In twenty-four hours you should feel health and vigor returning and will bless the day you first heard of GOLD MEDAL Haarlem Oil.

After you feel that you have cured yourself, continue to take one or two capsules each day, so as to keep in first-class condition and ward off the danger of other attacks.

Ask for the original imported GOLD MEDAL brand. Three sizes. Money refunded if they do not help you.

DEFENDS WORK OF THE 'Y' OVER THERE

Rev. J. E. Horn Says Its Only Mistakes Was Taking Over Canteens At Army's Request

Just returned from France, were he had been under fire at the front, at Chateau Thierry, Argonne forest, Cantignz, in the Toul sector and at other shell-torn battlefields on which fellow-workers had "fallen never to rise," Rev. J. E. K. Horn, Y. M. C. A. secretary with the First Division of the American Expeditionary Forces all through their battles, told at Emmanuel Episcopal Church, Baltimore, of the work of the Y. M. C. A. at the front, answering the criticism heard in this country.

"No one would think of defending the American Army," said Dr. Horn, "nor would anyone think of defending you who worked here for the winning of the war, because the Army nor you had not been 100 per cent. efficient. And I, who have seen my 'buddies' in the 'Y' fall never to rise again, or fall, only to be carried back and nursed to life—I shall not defend the organization for which they slaved. And when you see them—these 'Y' workers, returning to you, some wounded, some with an arm gone or a body broken—you will not listen to the criticism. They will be few, for there were only 5000 of us. But they will come."

The Y. M. C. A. did the work it had set out to do; its greatest mistake, he said, was in allowing anyone to persuade it to take over the canteen work. Here it was that the criticism has come, and it was only because the Army had asked the organization to take over this work that the 'Y' had complied, a request from this source being paramount to a command. And on the question of overcharging, about which so much of the criticism has hung, the facts may be found by anyone by an examination of the open books that nearly $1,000,000 was lost in this traffic, goods being sold so far below the cost laid down at place of consumption.

"Your boy will come home, wounded, perhaps," said Mr. Horn earnestly, "and he will tell you that he never saw a Y. M. C. A. man after he was wounded—that the Red Cross took charge of him. And it will be true," he added. "On this the Army was adamant—it would not allow the 'Y' and the Red Cross to overlap. It was our work alone to care for them and cheer them when the men were well—and this we accomplished—we were not allowed to do one single thing for them after they had been wounded—that was for the Red Cross and it is well that it was so."
