SATURDAY, MAY 31, 1919

Blazing the way of the first air trial from the Western to the Eastern Hemisphere, the United States Navy seaplane NC-4, under Lieut. Com. Albert Cushing Read, swept into the harbor at Libson, Portugal, Tuesday, the first airship of any kind to have crossed the Atlantic Ocean under its own power and through its natural element.. The total elapsed flying time from Newfoundland to Libson was 26 hours and 41 minutes.

The big plane continued to Plymouth, 775 nautical miles to the north. The great object of all the effort lavished on the undertaking—navigation of a seaplane across the Atlantic through the air—has been accomplished. Twentieth Century transportation has reached a new pinacle and the United States Navy has led the way.

The News heartily endorse the great movement to more fully reward the teachers of Kent county schools. No class has assumed so heavy, so trying a burden and a responsibility with such willingness as these consecrated men and women. Never has the future of the nation been so clearly committed into the hands of the teachers. And yet thousands are forced to seek other avocations by the hard necessities of their very existence. We are not pleading for teachers merely but for Kent county, Maryland and America for the scholars of today are the men of tomorrow. We trust the County Commissioners will grant the request of our School Board.

It is reported T. Allan Goldsborough, a member of the bar of Caroline county and a candidate for chief judge of this judicial circuit in opposition to Judge Adkins, the present incumbent, was making some amusing claims in Easton Monday. He is reported to have said that if the primaries were held at this time he could carry Talbot county. Whether he did or not, the report spread, and with ever-increasing ridicule.

The Star-Democrat thinks it is fairly well informed as to conditions in this county, and asserts without hesitation that it is the general opinion here that Judge Adkins will get practically all the Democratic votes in this county at the primary election, and that at the general election in November, if there is an opposing candidate, Judge Adkins will receive a larger majority in this county than he got in 1917, which was over 600 being more than any other candidate for any office ever received in Talbot county.

If Mr. Goldsborough is not better advised as to conditions elsewhere than his claim as to this county would indicate, his estimates should not receive serious consideration anywhere.

The people here understand that if Judge Adkins should fail to receive the nomination in September it would mean his retirement from the bench, and they intend by their votes to defeat Mr. Goldsborough's efforts to substitute himself, an untried man, for Judge Adkins.—Star-Democrat.

**The Queenstown News in speaking of the ball game between Kennedyville and their team says, "The Kennedyville boys are all ringers and have played together for several seasons and know the game and are considered the fastest team on the Shore. Everybody who saw the game spoke in the highest terms of the fast work of both teams. Archibald for the visitors and Carter for the home team both did splendid work as the score will show. Archibald allowed four hits while Carter allowed three hits. Hill gave Archibald perfect support likewise Cross and Carter."

**The steamship Virginia burned to the water's edge off Smith's Point, on the Chespeake Bay, early Saturday morning. All the passengers and most of the crew have been accounted for. The origin of the fire is still unknown.

**Here is a suit for damages on account of bad roads: The County Commissioners of Talbot were served with summons issued by Magistrate H. Skipwith Gordon requiring them to show cause why should they not be made defendants in an action brought by John S. McDaniel for $91.72 damage done to his automobile tires by the shells on the road between Easton and St. Michaels.

**The following letter from a widowed mother in France, expressing gratitude for help given, has been received by the ladies of Rick Neck Queen Anne's county, Md.:

Paris, March 5, 1918.

Dear Benefactors:—I wish to thank you in the name of my three sons for your great generosity. Your charity has not fallen in the hands of an ungrateful person. Since the death of my dear husband I have had difficulty many times.....and with four children the task is heavy..... ....I can now face life less bitterly. Be assured.....your kindness has gone straight to my heart..... I can assure as to my children are very nice.....as to my two little angel twins, they are real dears.... It is in accomplishment of my duty as a mother that I find comfort.... accept my sincere regards.

Cows on Pasture Need Grain

Large extra summer profits may easily be obtained from cows on pasture. Two pounds of PURINA COW CHOW FEED on pasture will increase the flow of a good producer at least 6 pounds of milk per day, usually more.

At $2.00 per cwt. the extra milk will bring 12 cents per cow at an extra feed cost of only 7 cents per cow. This means 5 cents extra profit per cow per day or $1.50 a month. On a herd of 20 cows it would mean an extra profit of $30.00 per month. These figures are conservative. Make a test. Order PURINA COW CHOW FEED today and start tomorrow.

How To Buy Shoes With Your Head

Yes, your feet and purse had the final say of course. But even when they protested your head didn't pay much attention, and your eye usually picked out the shoe. Your fancy was satisfied.

There is something more than looks and leather in a good shoe. In these RALSON "LOT O'WEAR OXFORDS is successfully combined elegance, ease and economy. They are light yet durable; cool and "summery," yet picturesque—modish and becoming. Unlike many OXFORDS, RALSTONS will not bulge at the side, slip at the heel, and need no breaking in.

ALL RALSTON SHOES represent the maximum of intrinsic shoe value and the utmost in perfect shoe essentials—at a happy medium price. They are what all thrifty-wise Americans demand today.
