SATURDAY, FEBRUARY 14, 1920

Mississippi has passed a State-wide Woman Suffrage Bill!

Wouldn't it be well if the Grangers would get back of a bill for raising the license for Gypsies?

Governor Ritchie by lopping off 2 cents in the tax rate for the next two years has jumped the Ritchie stock 200 per cent. Good work.

In the new budget Washington College is to get $35,000 for 1921 and 1922. It deserves all allowed. A great future is ahead of this institution. Let's all boost Washington.

Chestertown citizens made a good start Wednesday night on some needed improvements as noted elsewhere. Let's all get behind these matters and give them a boost instead of a knock.

An appropriation of $200,000 is named for a war memorial by the State. We would suggest that this sum be put in a Hospital or divided among the wounded rather than put in a marble shaft.

The great storm gave Ocean City an inlet which cut thru the beach separating the ocean and bay, a project figured a long while by State and Congress. It is thought the salt water would make the bay a fine place for propagating oysters. Its an ill wind that blows no one any good.

The women would like to know if the men who signed a petition against them voting will publish same. Show your colors, men. Since the News published the list of those in favor of justice being done to women, scores have added their ranks. Among the Kent organizations favoring this great movement towards moral reform are Pomona Grange, Kennedyville Grange, Worton Grange, Woman's Literary Club, W. C. T. U., of Chestertown, Rock Hall and Kennedyville.

The Star-Democrat says, "Col. J. C. Mullikin, of Easton, is the oldest living Republican on the Eastern Shore, the only one, indeed, who attended the meeting in Baltimore in 1867, when the Republican perty in Maryland was born, it being the Union party prior to that time." Kent disputes the claim. Col. Wm. J. Vannort without doubt has this honor. He is in his 84th year and as spry as a youngster.

BEGIN AT HOME

There is a well-known saying "Charity begins at Home." This is a true statement and doubly so in these strenuous days of high living costs. If the Legislative bodys in Washington were to practice a little economy there'd be enough print paper for all county papers. If they'd quit sending thru the mails such a mass of unread and unused lot of pamphlets there'd be enough time saved to till a farm. If they'd discharge the swivel chair employes who get up this stuff there'd be enough men to cultivate a 1,000 acre farm.

Here is just one practical instance of how the money goes at Washington. Representative Kitchen of North Carolina brought to light the fact that former Colonel Ansell is now in the employ of one of the partisan investigating committees of Congress and drawing a salary, or "fee," as they term it, of from $20,000 to $25,000 annually for his services. This information leaked out when Congressman Kitchen took occasion to ask Chairman Good, Republican, of Iowa, of the House appropriations committees, why the investigating committees were asking an appropriation of $77,000. Chairman Good came forward to reply, but he was choked off by several of the Republican leaders, including "Uncle Joe" Cannon, Representative Nicholas Longworth and others, who did not seem to relish answers to these inquiries. A running word duel ensued, in which Kitchen ultimately carried his point.

In the course of the discussion these items of expense were quoted from the committee's report: "G. G. Gabrielson, 14 days and 5 hours, at $25 a day, $365.63; expenses, $490.89." "O: W. Illig, 25 days at $15 a day, $375; expenses, $187." "W. J. Sperl, 25 days, at $15 a day, $375; expenses $187.61." Another, "Salary, 18 days 3 hours, at $25 a day, $459.38; expenses, $512.67." One more was: "Services, 4 days, $200; expenses, $193.'

Herein is shown how money is being wasted by the senseless partisan investigations the House of Representatives is carrying on. Party favorites are being richly rewarded. The "smellers" are discovering no fraud or graft, but the people are being robbed.

TO OUR SUBSCRIBERS—The date on the label of your paper shows the time to which your subscription is paid. Look at that date and see how your account with the News stands.

"What's to become of the Sheriff," asks the Centreville Observer. The liquor business going has given a solar plexus blow to his revenue. What do the "wets" say to this? In Baltimore the Chief of Police reports arrests falling off to an alarming extent.

Idaho passed the Woman Suffrage Amendment on Wednesday making the 30th State. But 6 more are needed. West Virginia is anxious to be one while several others are on the waiting honor list.

Arizona joined the ranks yesterday making 31.

ANNAPOLIS NEWS

The Sunday Sun had the following interesting reference to Kent's Senator: "And there was an interesting and amusing triangular skit down there the other day. It seems that Senator Russell, of Kent county, a Democrat elected last fall, is inclined to favor woman's suffrage. It further seems that Senator Frick, who is an ardent anti, carefully explained to Senator Russell that it would be very terrible for a Democrat elected on last fall's platform to vote for ratification of the suffrage amendment—Senator Frick being in the habit of talking about personal dishonor and party perfidy in connection with the possibility of such a thing. And it still further seems that Senator Russell, being an honorable and conscientious man, called on Senator Metzerott, an old-timer, and inquired what was the code and all that. And it still further seems that Senator Metzerott, being an ardent suffragist, suggested to Senator Russell that he ask Senator Frick what advice the latter gave two years ago to Democratic Senators from the counties, who had just been elected on the "no-Annexation without-a-refrendum" platform. And they do say, they really do say, that Senator Russell placed a finger against his cheek, and brought an eyelid softly down over one eye, and softly murmured: "Ah!"

President Norris of the State Senate is the backer of a bill proposing an amendment to the Constitution of the State, which, if adopted, will make the pay of members of the Legislature $1,000 for the 90-day session, instead of the per diem of $5.00, or $450 for the period.

The bill also provides that the presiding officer of each house shall receive an additional $500, instead of the $3 a day extra now allowed, a difference of $350.

The bill also provides that if the General Assembly is called into special session by the Governor, such session shall not continue longer than 30 days, and that the compensation of each member shall be $10 a day, with an additional $5 a day for the presiding officers of both Houses.

The Torrens System.

Senator Harrison of Worcester has introduced a bill to provide for the settlement, registration, transfer, devolution upon death, and assurance of title to land, and to constitute or designate the Superior Court of Baltimore City and the Circuit Court of Baltimore City and the Circuit Courts of the Counties' courts of landregistration, in those counties of this State, and in Baltimore city, where a majority of the voters vote to adopt its provisions. This is the so-called Torrens system of land registration.

NOTICE

February 5th, 1920.

In view of the tremendous increase in the cost of materials entering into the manufacture of gas, particularly coal and oils, this Company will be compelled to increase the price of gas from $2.00 per one thousand feet to $2.50 per thousand.

The present price we are charging to all consumers is and has been a serious loss to the stockholders of this Company.

Therefore, commencing with April 1st, 1920, the net price of gas will be $2.50 per thousand cubic feet.

All bills must be paid on or before the 10th of each month.

Frick Tractors

The superior construction of "Frick Tractors" is apparent at a glance, to men who are familiar with the best mechanical design, but only after a term of service covering several years is the quality of Frick stamina and endurance fully appreciated. For the ability to give consistent, economical and enduring service is one of the fundamental qualities of every "Frick Tractor" built.

Full information on request.

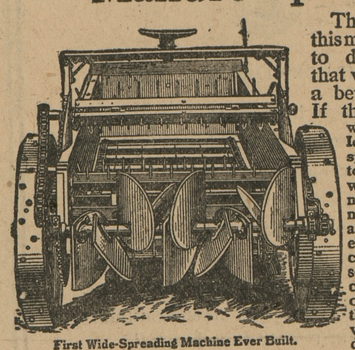
We Have Always Wanted To Handle the BEST Manure Spreader---And We've Got It.

As all our friends know, we have been engaged in the farm implement business right here for a long time. We've made it a rule to handle only thoroughly reliable goods. No matter how tempting a maker's proposition is, we leave it alone, unless we are convinced that the article will be of real value to our customers.

Now please keep this rule of ours in mind and then come in and see the

NEW IDEA Registered U.S. Pat. Off.

Manure Spreader



First Wide-Spreading Machine Ever Built.

The fact that we have this machine set up, ready to demonstrate, shows that we believe there isn't a better spreader made. If there had been we would have found it. "New Idea" is the original wide-spreading spreader. Built to spread outside its own wheel track when other machines merely dumped manure behind. Low down and light draft, easy to load, easy on a team. Its chain conveyor brings every scrap of manure to the two cylinders where it is thoroughly pulverized and thrown onto swiftly revolving steel paddles that distribute it in even width and depth across three corn rows. This makes driving over spread manure unnecessary.

The New Idea Spreader can't clog and spreads at will, 3, 6, 9, 12, 15 or 18 loads per acre. It has a chain drive—no gears to break or strip from cold or under sudden strain. Wide tires fit the "New Idea" for use on soft soil. The New Idea Spreader is thoroughly well built of exceptionally stiff and sturdy materials, and the makers cheerfully guarantee it for a year against breakage from any cause. With proper care it will last a lifetime.

Now here is a machine that will give you dollar for dollar on a moderate investment in one year's time; because if used regularly it will absolutely save the full fertility value of manure and put it on the soil in such condition that growing plants can get it all.

The New Idea Spreader will save you money. Come in and see it next time you're in town. You'll be interested.

DON'T FORGET TO ASK US FOR THIS FREE BOOK We've a book here we would like you to read—"Helping Mother Nature." Tells more about the care and use of manure than you ever thought of. Written by an expert and full of right-up-to-the minute scientific data. Don't forget this—it's important.

Yours for better farming,

WM. A. HYLAND, Dealer
