TERMS—$1.50 per year; 75 cents for six months; 50 cents for three months, in advance Single copies 3 cents.

SATURDAY, MARCH 20, 1920

Chestertown is confronted with an unusual situation in its religious life. There are three pastors who will resign their pastorates here as soon as their successors are named, as follows: Dr. Henry B. Martin, Dr. G. T. Alderson and Dr. J. L. Ward. All will leave a host of admirers and each will have the consciousness of having done their best for Him who gave His life for the world.

Elsewhere in the News is the report of the Kent county Auditing Committee, T. G. Wroth, Wm. G. Smyth and Henry Brown, the auditors have performed the work in a most satisfactory manner and every taxpayer should read it carefully.

This committee recommend that the Kent County Alms House farm should be sold and that a bill should be presented to the present Legislature giving the County Commissioners the right to sell this property.

LEGISLATIVE NOTES

The race-track referendum bill was defeated in the House for the lack of one vote. Kent's two representatives voted against the referendum. Stephen Gambrill, of Howard, is reported to have made the best speech heard at Annapolis for 30 years.

Senator Russell has introduced road bills for roads from Rock Hall to Gratitude; from McLain's Corner to Tolchester; from Still Pond Station to Urieville school; from Millington via Massey to Ireland's Corner. Delegate Bowers has introduced a Bill for a State road from Hossinger's Corner to Lynch.

A 3½ per cent beer bill was reported favorably and a measure to apply to the Volstead dry enforcement act to Maryland was reported unfavorably by the House Temperance Committee. The report that farmers are prevented from making cider is a mistake.

A bill was offered in the House for merging of the University of Maryland with the State College of Agriculture.

An agreement has not been reached on the State Road Bill.

WANTED.

I will be in front of KENT NEWS office in Chestertown every Saturday from 11 to 3 to buy your Furs and Hides. Good price guaranteed.

Common Dangers

The archives of the Business World indicate that speculative investments have a fatal fascination for women suddenly left with money.

They also indicate that well intentioned people, often "friends of the family" importune with "pet" investments which are not always of the gilt-edged variety.

Moreover, suddenly acquired money is often merely deposited in a bank, and being easily accessible, frequently wastes away.

Consideration of important business matters of this kind leads to the inevitable conclusion that the provisions of modern Life Insurance policies on the Income plan make it **entirely unnecessary for the man in normal health to subject his family to many of these common business dangers and errors.**

Ever since 1900 the Mutual Benefit Life Insurance Company has paid 4.7 per cent interest annually under the value income provisions of its superior policy contracts, which protects the Insured's family if he dies, or his old age if he lives, leaving the principle intact. On a monthly basis the Company is now paying 4.75 per cent, which is a higher net rate than that attainable generally from high-grade securities.

A Mutual Benefit Income Settlement Agreement attached to a Mutual Benefit policy is one of the very best ways of insuring the future safety and happiness of women and children inexperienced in business life.
