SATURDAY, MARCH 27, 1920

The Bill authorizing sale of Almshouse farm has been introduced as recommended by the Auditing Committee.

The Legislature adjourns April 6th. Bills for increase of salaries occupy a large part of the time, besides local bills, election bills, increased representation, race-track, wet and dry legislation, etc. The result of their labors will be seen later.

THE RACE-TRACK EVIL

There is but one side to the race-track gambling business, and that is the right side which declares it a curse and should be abolished.

Just why the State should expressly sanction wide-open gambling on horse races if done at the tracks, and actually be a partner in the business, and at the same time make it a crime if done away from the tracks, is difficult to see. Yet that is precisely the present state of the Law.

The whole enterprise has long since descended to the sordid plane of a gambling business on a huge scale, and the sole issue confronting the law makers of the State is whether the State shall continue to be a partner in this business and grant it immunity from criminal action involved in the license fees and taxes.

Kent county citizens will read with pleasure the following letter written by Senator W. F. Russell in reply to a letter from W. W. Hubbard against the gambling evil: I am in receipt of your strong and splendid letter against "Race-Track Gambling" in Maryland. I feel sure that your judgment is sound and your views correct, concerning this important matter, and beg to say that I will do all that I can in harmony with your recommendations."

CANDIDATES FOR CONGRESS

A new candidate has appeared in the field to contest with Col. A. W. Sisk for the Congressional nomination. The new Richmond is Mr. H. W. Robertson, of Wicomico County. It is also asserted that Mr. T. Allen Goldsborough, of Caroline County, and former Governor Harrington, of Dorchester County, may be candidates, and for this reason it has been suggested that Col. Sisk withdraw for the sake of harmony.

We cannot understand why Col. Sisk should stand aside to make "harmony" any more than should all the other candidates stand aside and make harmony by uniting on Mr. Sisk.

We have no authority to speak for Mr. Sisk. We have not talked with him regarding his candidacy. We do not know what leaders are back of his candidacy, but we do know that he has asked the party in previous campaigns for the nomination for Congress and that he has been a candidate for the Democratic nomination for several years—that he was defeated in his ambition and that he took his medicine like a true party man and cheerfully supported Mr. Price, his opponent.

So we do not see why he should get out of anybody's way to make "harmony," because, perchance someone else wants the nomination.

Is Col. Sisk competent?

Is Col. Sisk a true Democrat?

Is Col. Sisk the kind of man who would inspire confidence in the success of the party at the polls next November?

Is Col. Sisk a winner?

We know he is a gentleman. We all know he is an educated man and a splendid business man. We know that he is able to finance his campaign.

If he meets the tests we have named, why should not the Democratic party nominate him for Congress.—From Democratic Messenger of Snow Hill.

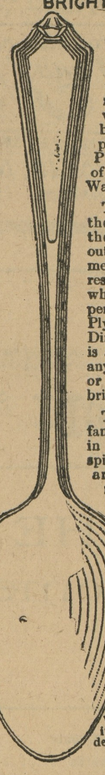
STERLING

The Plymouth
BRIGHT FINISH



This attractive design has been specially prepared to meet the insistent demands for a flatware pattern to be used with the popular Gorham Plymouth line of Dinner and Tea Ware.

The rich effect of the square edge, the simplicity of outline and refinement of decoration result in a pattern which harmonizes perfectly with the Plymouth line of Dinner Ware, and is appropriate with any other Colonial or Old English bright finish ware.

The bowls of the fancy pieces, while in accord with the spirit of the design, are attractively novel in construction and appearance.

Made in Sterling Silver only, and stamped with the Trade Mark: Lion Anchor and letter G

Robertson Takes Stand for Moderation
Declares for Modification of Volstead Act

Among the questions upon which the voters of the Eastern Shore want to know how their next Representative in Congress is going to stand, there is one they are asking me now.

That question has to do with the Volstead prohibition enforcement act.

In order that there may be no doubt about my position on this question, I now state it as follows:

If I am honored with the vote of the Eastern Shore, I shall work and vote in Congress for a change in the Volstead Act that will permit the manufacture, sale and use of beer, domestic wine, cider and of home-made wines and similar beverages.

I am against the saloon. I believe in temperance in all things. I have never taken a drink of any kind of liquor in my life, but I believe the Volstead Act interferes as seriously with the personal liberties of the people as the saloon interfered with their morals, health and efficiency.

As a parent, banker, employer and life-long resident of the First Congressional District I think I know what the people of this district want and, if they send me to Congress to represent them, I'm going to represent them.

Performance in The Hands of Thousands of Owners

has given the Cletrac its leadership in the Tractor field. All—yes, more than Rollins H. White, designer and builder of the Cletrac, claimed fo it, has been done by Cletrac farmers.

When the farmer buys a Tractor he wants a complete hauling and stationary power service, not simply a Tractor that will plow. A Cletrac meets this need in every way. It has only 4¼ pounds of weight per square inch on your fields. The same as your roller or cultipacker, therefore, does not injure your farm by packing the soil too much.

The Cletrac was designed not only to do a good job of plowing, but all kinds of farm work, and all kinds of hauling under all kinds of conditions. It fits the seed bed, as well as it plows; it does the seeding and harvesting; the hay making and threshing; the farm hauling; the wood sawing; silo filling and road building.

When in town stop in and see this wonderful little Tractor work, get a descriptive catalogue and arrange for demonstration, so as to assure prompt delivery, as the factory is back with orders. The Canadian Government has a contract for 1000 Cletracs, at once. We had more Cletracs in the Great War than any other maker of Tractors. See me before you buy.
