A GREAT EVENT

The local History Pageant arranged by the Chestertown Elementary School will be presented on Friday afternoon, May 28th, at 3 o'clock, on the college campus.

This pageant portrays the history of Chestertown from the time the land on which it stands was granted to Marie Foxly Tilghman in 1656 to the present day; it should be of interest to every resident of Chestertown and county.

There will be no admission charged and every one is invited.

The interesting phase of the production is that the work has in large measure been done by the children themselves, as part of their regular school work, it has, therefore, proved to be of great educational value and something of which school people should be justly proud.

Chairs will be rented at 10 cents each and ice cream cones will be sold to help defray the necessary expenses.

A Woman's Profession

There is a profession for women—and a most honored one it is. It is not acquired in a day or a week, but once gained is always an asset for livelihood and honorable service, and once acquired is never lost.

Do you know that throughout this country many of our greatest hospitals have schools for nurses? Tuition, board and lodging are not only free, but you are paid for your time while learning. The opening is there for rich or poor—for the woman who has learned that serving brings happiness, and that a profession means prudence.

It is a three years' course for women between the ages of 18 and 35 who are healthy, conscientious, loyal and who understands the happiness that comes from service.

And, your training completed, you have a profession that insures independence and comfort always.

Any and all questions will gladly be answered and complete information given if you will communicate either in person or by letter with
