POULTRY DEMONSTRATIONS

For the past two days poultry demonstrations have been held at the homes of Mrs. E. J. Watson, of Fairlee, and Mrs. Charles Willis, of Betterton. Prof. H. W. Rickey, Poultry Specialist, and Miss Mabel Stephenson, District Agent, of the State College, have been co-operating with County Agent Derrick and Miss Susan V. Hill, Home Demonstration Agent.

With continuing high prices of food materials and the cost of production it is thought necessary that the best methods of care and feeding be adopted by those carrying on this type of work.

Miss Stephenson has been showing in her demonstrations that the canning of chicken is a saving of time and energy to farm women and a saving in money by not continuing to feed fowls which represents no production in the flock. The steam pressure cooker which is becoming a common kitchen utensil was used as the only safe means of canning meats or poultry.

Prof. Rickey talked on methods of culling the boarder from the farm flock, diseases caused by improper feeding, and feeding for egg production.

FOUNTAIN ESCAPES AGAIN

Isaiah Fountain, colored, convicted of criminal assault on a young white girl several months ago, sentenced to be hung at Easton, escaped from the jail Tuesday night at 11.15. The escape was made possible by the use of a steel file on the bars of the prisoner's cell. Posses of citizens are searching for the escaped prisoner. This is the second time that Fountain has escaped from the Easton jail.

Lee Nixon, trusty at the Easton jail, confessed that he had obtained the file with which Isaiah Fountain sawed his way to liberty. He said he had given it to Ralph Loper, another prisoner, on last Saturday night and that Loper, upon being paroled that very day, turned the instrument over to Fountain.

Fountain and Loper were intimate friends and Nixon admitted to officials that he had heard the two planning the escape. He said further that he saw an automobile drive up to the jail at night and saw a man resembling Fountain step into it.

Loper, who was paroled last Saturday evening after having served a short term for bootlegging and burglary, was found in Wilmington and it is thought Fountain will be found there also. It is a serious neglect on the part of officials. Gov. Ritchie says he had not fixed the day of execution because the papers had not been sent from the court.

STEAMER SUSQUEHANNA HIT

The storm passing over here Friday afternoon and night did little damage beyond putting several telephone lines out of commission. Passengers leaving the steamer Susquehanna, of the Tolchester Line, however, report that a bolt of lightning struck the flagstaff of the steamer as she was going to Betterton from Baltimore Friday afternoon. According to the report, the engineer noticed the occurence in the engine room and stopped the ship. The captain, finding no serious damage had been done, proceeded. The passengers, however, according to the report, were badly frightened.

The dam at Steinke's electric plant from which Millington receives the electric current for lighting homes and streets washed out again on Sunday night last and Millington is again in darkness. The same accident occured in August last besides the burning out of a generator. Mr. Steinke, who is a very estimable gentleman and has many friends in the community has been very unfortunate in having these accidents, which have cost him large sums of money to repair, and has the sympathy of all in the community. It is hoped he may see his way clear to repair the damage and put the plant in operation again at an early date.
