LOCAL NOTES

John E. Smith started cutting wheat in Kent Thursday afternoon.

Julian Byrd, of near Melitota, is confined to his room suffering from a broken knee-cap and injured leg having been kicked by a colt.

The shock from the big guns at Aberdeen have caused every window in many houses in Worton Point to be cracked while others were broken out.

The vacant lot on Water street recently purchased by Henry W. Catlin and wife is being converted into a beautiful park. It is located on Chester river opposite Mr. Catlin's fine home.

Wheat in Kent and surrounding counties is ripening slowly. Many farmers hope to commence harvesting it this week. It is looking fine and it is predicted that a larger yield will be gotten in the county than for a number of years, and it will be in good condition as the heads are well filled and the grains large and plump.

The large Magnolia tree in the yard of Mr. and Mrs. J. W. Kirby has been in bloom the past week.

Among the change in tenants are Samuel Wiltbank from the Woodall farm at Galena to the Lockwood farm at Kennedyville. Wm. Jewell will remove to the beautiful town of Kennedyville. John Mullen will move from the Lockwood farm at Lambson's Station to the Woodall farm at Galena. A. Lindel Beaston will come back to Kent from Cecil and will tenant the Shrewsbury farm.

Lewin H. Porter, residing on the Bradley farm, in Worton, lost two cows by lightning during the storm of Thursday. The animals were insured in company represented by Jos. N. Wheatley.

John S. Vandegrift, tonsorial artist, while stropping his razor Saturday afternoon cut two fingers on his right hand quite severely. He had them dressed at Toulson's drug store and continued with his work. It was the worst cut he ever received in an experience of 25 years or more.

The home of T. W. Eliason, Jr., with its blooming white and pink roses, may well be called the rose cottage. It is one of the pretty places in Chestertown.

The following is the newly elected Board of Commissioners for Rock Hall: Joseph Judefind, Wm. Leary, Wm. Francis, John Dowling and J. Arthur Urie. Frank B. Jester who has been the faithful and efficient bailiff, was re-elected.

A Destructive Storm.—The storms of last week were unusually severe at Galena. The one on Wednesday afternoon tore up trees, knocking off small fruit and knocked down grain. On Thursday the barn of Mrs. John D. Boyd was struck by lightning and totally destroyed. At the same time trees nearby were struck and some telephones burned out. At the home of Mr. and Mrs. James Caldwell, the house was struck, the bolt seemingly going thru the floor to the second story and traveling the entire length of the house wrecking things in every room. There was not a room in the second story fit for the family to occupy. Fortunately the family were all on the first floor and no one was injured. The house was set on fire in three places, but with the aid of the farm men it was saved.

Personal Tidings

Attention, Farmers!

Having just received a carload of the old reliable CHAMPION BINDERS, MOWERS and RAKES and being advise by manufacturers that another invoice is doubtful, and if so, at about 15 per cent advance. We would advise an early order. This machinery needs no boosting as it is too well known on this market. So we advise all who are in the market for them and our other well famed machinery to give us our earliest favor.

Velie Six

POWER

Velie success in the development of power is known thruout motordom. The power plant of the new Velie 34, maintains and enhances the Velie reputation.

Here you will find everything you expect of motor science for 1920—a new assurance of energy for every emergency for the steep climb—the hard going in snow, slush, mud, clay and sand—as well as for speed on the broad, hard highway.

It is a remarkable motor. Here is a new experience in quick, sure pickup. Here is a flexibility that marks a distinct advance in this quality for which engineers have striven so long. We are proud of the new Velie's power plant—and you will justify our pride after an inspection of its performance.

COMFORT

Plenty o froom even when the car has five odult passengers. Easy, restful riding—even when the roads are not the best.

These things so essential to the 1920 ideal of car comfort, are realized in the new Velie 34, to a degree that sets it apart from all ordinary light sixes.

RELIABILITY

"The Name Insures the Quality" is a slogan backed by records in the case of the Velie. The new model 34, we can confidentially assert, will add new lustre to the line. For more than ten years Velie cars have made exceptional history of performance. Some of the first Velie cars are in faithful use today.

STYLE

When you make your comparisons of the new Velie 34 for style, you will appreciate at once the smartness and distinction which mark it as one of the finest creations of 1920 art in automobile design and finish.

This is the result of special concentration by the Velie body builders, long famed for their leadership in this line. With its high cowl, its extra length defined in well-harmonized lines, its charm of perfectly-unified form, it expresses a style ideal of which any owner will be proud in any company.
