FORTUNES IN POTATOES

The new potato crops are now coming in with very satisfactory results to the potato growers. From stations on the N. Y., P. and N. R. R., in Accommac and Northampton counties in Virginia, Irish potatoes are selling at $16 a barrel. Twelve trains, 380 cars, of potatoes passed through Salisbury from Virginia to Northern markets on Tuesday. Each car contains approximately 200 barrels and each barrel approximately three bushels of potatoes. At the rate of $16 a barrel it is seen that one day's shipment of potatoes from the Virginia potato growing sections was worth around $1,229,800. One Virginia grower loaded and shipped eight carloads of potatoes on Monday, for which he received $16 a barrel or $25,600.

CRUMPTON'S 4TH OF JULY

Well! Well! Well! They said we could not celebrate the 4th of July in Crumpton, but nevertheless it has been done, for surely everybody that came did enjoy themselves.

The first thing was the parade, of which for the size of the town, it proved to be one of the best. The floats of the Just Government League was as neat and as pretty that could be had and won first blue ribbon. The float of the farmerettes, in care of Fred Stevens, received second prize, of which could not be beaten anywhere. The third prize was given to Mr. Gordon's truck from Millington. There were also some very prettily decorated cars of the town and of which added very much to the credit of the town and owners of same. The two games of ball in the afternoon—the first game between Golts and Rich Neck, of which Golts won. The second game between Chestertown M. E. Church and Crumpton M. E. Church. We were sorry to see the visiting team had to go back without the ribbon. But nevertheless it could not be helped. For one of our Crumpton players, the pitcher, was crippled, our back stop had not played ball for 5 or 6 years, and then the second baseman was the preacher of the M. E. Church, the Rev. J. T. Rowlenson. He was on the job. That is the reason the visiting team was affraid of the first base. For he was on the job. Score 4 to 0 in five innings. The whole 7th district can lay their big fourth held in Crumpton to the Rev. J. T. Rowlenson and his co-workers. Hurrah! May he be returned to us another year and have a big and better Fourth. Then the stunts gotten off by the boys on the green were funny. The address given by Wm. Chandler, a National Worker of the Y. M. C. A., on "A New Nationalism" was great and interesting. While the selections by the brass band were enjoyed and the fire werks most beautiful on the banks of Chester river.

PRODUCTION NOT REDUCTION
Is What the World Seeks

PRICES of some things have been temporarily reduced; prices of other commodities remain about as they have been for months past. So long as people leave the farms to flock to the already overcrowded cities, creating an acute shortage of housing facilities, prices for building materials are likely to remain about on the present level.

IF DEMAND continues to exceed supply, you will be able to build as cheaply now as you can later in the year. Whatever your problem may be it will pay you to come in and talk over your plans, to get estimates. Remember that our architectural service is at your disposal entirely free of charge. And we can at least get acquainted.

PRODUCTION is about the only thing that will bring prices of anything down to a permanent lower level. If you can foresee increased production in all industrial lines, you might wait: but if you can't see larger supplies for the future, don't take a chance. Come in today.
