She is 91 years of age, has been head chef at the Marshall House since 1876 and only lost 11 days. This was caused by her being called to a funeral in North Carolina.

Great quantities of pike, catfish and other fish with which the dam had been stocked were lost.

**The largest amount of rainfall** recorded in the history of the weather bureau is noted for August. Monday was the second coldest August 23 in the history of the local Weather Bureau. Only once since 1876 has the thermometer registered a lower maximum temperature for the day, and that was in 1890, when the mercury climbed only to 67 degrees. Monday's high mark was 60 degrees, at 3 o'clock.

He has taken the case to Maryland State College department of poultry industry with the hope of stamping out the disease, which resembles cholera in some of its symptoms.

**Dogs have a fondness of running** after automobiles and many times are either killed or hurt. Within a few days last week eight dogs were killed in town by automobiles. Among them was a little pure-bred German Spitz dog belonging to Mrs. T. D. Bowers. She had owned this dog for sometime and prized him highly.

**A Department of Commerce will be** started at Washington College this week. Details will begin next week.

**The Conservation Commission has** reappointed G. Frank Akers, Rock Hall, commander of the First District, power-boat Kent. John Anderson, of Cecilton, and Summerfield Tilghman, of Queen Anne's, were named as game wardens. John H. Thomas was appointed special oyster inspector at Kent Island.

**Dairy Business.**—There is a story told in minstrel lore of two colored men who embarked in the dairy business. They bought a cow for $40. Bill owned the front end and Pete the back. Bill had to toat all the hay and the water to feed his end of the cow while Pete got all the milk. One day Pete's end hooked Bill and he was going to sue but Pete got even with Bill by killing his half of the cow and Bill's end died! A city farmer removed to Kent last year and had almost a similar experience as noted above. He agreed with a Kent farmer to go into the dairy business each sharing in the receipts and each furnishing half the cows. An end to the contract came a short time ago when the city man asked for his half of the milk check. The practical farmer told his landlord, "there's the cows half milked. I got mine. You go milk your half!" Needless to say the partnership culminated and a new tenant procured.
