GOOD WILL TRIUMPHANT UNDER TEST

As this message is being written, Dodge Brothers' daily, weekly and monthly production, is at the highest point in its history.

Within sight and sound as we write a great addition to Dodge Brothers' immense works, is being rushed to completion.

The interesting thing about this situation is, that it is not likely that a half a hundred people have ever bought Dodge Brothers Motor Car just because they wanted a motor car. Of the more than half a million who have bought it—the overwhelming majority did so because of the name it bore.

It has always been thought of, and is still thought of, first, and foremost, and all the time, only in terms of its goodness, and the results it gives,

It all dates back to the day when John and Horace Dodge conceived and designed and finally built the car—after warning each other, and their associates, not even to think of it in any other terms than the best obtainable value.

They began with a few almost absurdly simple principles, bluntly expressed and rigidly executed, about decency and honor and integrity—such as most of us wrote in our copy books at school.

They reduced these old copy book maxims to the splendid and scientific system, pouring more, and more, and still more value into the car, and then marshalling all the resources of modern massed manufacture to get their product into the hands of the people as an honorable and an honest cost.

These policies and principles have never been changed, and never will be changed, by so much as a hair's breadth; and they have come to be recognized and accepted as Dodge Brothers principles wherever motor cars are driven.

t has all happened as John and Horace Dodge planned it—quite simply, naturally, and automatically, all over the world.

People do discriminate, as Dodge Brothers contended they would; people will find out when a motor car is well built and gives good service and great good value.

Dodge Brothers market today is where they planned to locate and establish it—in the mind and the heart of every man and woman who admires good work, well done.

It will last, and it will keep on growing, as it has kept on growing for five years (faster than Dodge Brothers works could keep pace with it), as long as the number of those who believe that a manufacturer should build to serve and not merely to sell, continues to increase.

All is well with Dodge Brothers today, because John and Horace Dodge builded well in the beginning, and because their business will continue to build well until the end.

MARYLAND BOYS WIN HONORS AT CHICAGO

That Maryland has made rapid strides in the dairy industry and particularly in the training of the young men and boys who will be able to advance the industry in the years to come, was proved by the record of the three judging teams which represented the State in three of the leading contests at the National Dairy Show in Chicago this month.

Two of the teams were composed of students from the University of Maryland at College Park, and the other team was made up of boys between the ages of 12 and 18 years, selected from members of the Agricultural Boys' Clubs. All of them made enviable records in competition with similar teams from all parts of the country.

The Maryland team which entered the Student's Dairy Cattle Judging contest was composed of J. H. Snyder, C. K. Holter, J. R. Graham and Clayton Reynolds, alternate. They were coached by Dr. DeVoe Meads, head of the animal husbandry department of the University of Maryland.

TO ALL KENT COUNTY WOMEN

Owing to the increased interest that the people of the county have shown in the Agricultural, Industrial and Health Exhibit, much better premiums have been offered than were offered last year. First prizes for canned vegetables have been doubled this year making the first prize one dollar and second prize fifty cents. The prize for the best collection of canned and preserved products will be an aluminum bread raiser, donated by the Kent CountyCouncil for Home Demonstration Work. The first prize for the best home cured ham will be a silver bread tray, donated by Mr. Rote, one of Chestertown's thrifty jewelers. Mr. P. M. Brooks will give six 12 pound bags and three 24 pound bags of Rose Bud flour as premiums for bread and cakes. For the woman who can make the best collection of home made candies, Mr. A. L. Sparks will give a fine cabinet of excellent toilet preparations.

The premiums in sewing will be the same as last year with the exception of the premiums for the best design and workmanship in kitchen apron and the best design and workmanship in housedress. Mr. G. E. Noland will give a sweater for the best apron and Mr. Harry F. Jefferson a pair of sheets for the best housedress.

For the best home made labor saving device Graham & Thomas have offered an aluminum coffee perculator.

With such premiums as these there should be no scarcity of exhibits. Let every woman in Kent county feel it her duty to exhibit some product that has been made or grown at her home since December 1, 1920, and so make this the best exhibit Kent county has ever had. This can only be so when every woman takes some part.

COUNTY COUNCIL MEETS

The Kent County Council for Home Demonstration Work met on Tuesday, October 12, 1920, at the Chestertown High School. The meeting was called to order by the President, Mrs. Wm. G. Smyth. The minutes were read by the Secretary and the Treasurer gave a report.

The subject of a Juvenile Court for the purpose of enforcing the compulsory attendance law was discussed by Dr. Edward J. Clarke, County Superintendent of Schools, Miss Kellog, Mrs. Hynson Beck, Miss Rogers and others. It was pointed out by Dr. Clarke that the Juvenile Court is directly interested in school attendance. It was moved and seconded that Dr. Clarke take up the subject with the proper authorities and that this visit be followed up with committees of three appointed by the President of the Council.

The Home Demonstration Agent, as a member of the Executive Committee of the County Agricultural, Industrial and Health Exhibit, presented the plans for the exhibit. It was moved and seconded that a committee be appointed to select a suitable premium to be donated by the Council. It was also moved and seconded that a committee be appointed to take charge of the exhibit of labor-saving devices. This was followed by a discussion of labor saving devices.

The President then took up the election of the three delegates of the Executive Committee. The following delegates were elected: Mrs. W. B. Copper, Miss Emma Shafer and Mrs. Hynson Beck.

The next question considered was the means of presenting the Constitution to the local organizations in the county for their approval and having them elect delegates to the Council. It was moved and seconded that the Secretary prepare copies of the Constitution with a letter of explanation to the President or Secretary of the organization asking him to present same to his organization and if approved send delegates to the first meeting of the Council after January 1, 1921, of which due notice will be given.

Twelve members were present. It was decided that the next meeting would be held in December.

As there was no further business the Council adjourned.
