INTERESTING LETTER FROM A KENT COUNTIAN IN THE WEST

Muskogee, Jan. 26, 1921.

My Dear Editors of Kent News:
Chestertown, Md.

Enclosed please find my check for renewal subscription. Must have the Kent News. Your valued paper reaches us every week, coming into Muskogee, Okla., on Tuesday in time for mid-day delivery.

The time for its arrival is looked for with anticipation, as it brings us the news from the Dear Land of our nativity and dwelling place for many years. Many of the weekly items fill our hearts with sadness, so many of our dear friends have been called from earth away, as you tell us, and others fill our lives with gladness.

Yes, we love our "old home-land," with Oklahoma, our "new" home-land, a very close second.

Truly, this is a great state. Oklahoma with $1,079,133,000.00 total production from her lands in 1919 in crops, live stock, oil, gas and minerals offers a tremendous market to the manufacturer or jobber for his wares.

Where else can you find 2,000,000 people with one billion dollars annually to spend? This vast sum offers an abundant opportunity to men of all walks of life, to the laborer, the doctor, the lawyer, the merchant, the manufacturer, the minister, teacher, mechanic and to him who tills the soil.

A land which will yield in one year of crops a value greater than the United States Government says the land is worth, is a good place to invest.

Now, the City of Muskogee, our home, by reason of its railroad facilities, cheap freight rates, and geographical location, is a logical center from which to reach two-thirds of this rich trade territory.

More than sixty-five million dollars of Oklahoma's production is in the eastern half of the state, and Muskogee is situated in the center of Eastern Oklahoma. It has five separate and distinct lines of railroad running in eleven different directions and covering eastern Oklahoma and all the adjoining states, thus placing her in easy reach of this great market. Muskogee is a city of 35,000 population. Excellent living and health conditions. An abundant supply of the purest water. Many beautiful and well-kept parks, modern stores, office buildings and hotels, good churches, splendid public school system, but not freebook, bill for these pending now. 15 modern school buildings, Young Men's Christian Association, Elks Home, Shrine Temple, Home of U. S. District Court, Home of U. S. Indian Agency for five civilized tribes, sixty miles of well-paved streets, street railway system and electric interurban, municipal owned water works, gravel roads throughout Muskogee county, sixty-five or seventy wholesale houses and jobbers, just about the same number of industrial plants, six banks with $2,000,000 deposits, bank clearings for 1919 $176,000,000, 43.1 per cent. increase over 1918. One wanting an excellent city in which to live and rear a family, and at the same time a progressive city offering abundant opportunities in business, there is no city in the southwest that can offer more than Muskogee. Yours very cordially,

AZARIAH M. KENDALL,
562 N. 10th St., Muskogee, Okla.

INTERESTING COURT CASES

The January term of the Circuit Court for Queen Anne's County was held last Monday with Judge P. B. Hopper on the bench. On the call of the November term ten motions were filed to set aside judgments that had been gotten against C.F.Parks and endorsers who had gone on his notes. All of these judgments were entered by confession. The first motion was in the case of the Chestertown Bank of Maryland versus Claude F. Parks. The papers in the case disclosed the fact that the note on which judgment was entered was not a confessed judgment note and that therefore the judgment was improperly entered The execution issued on this judgement was also set aside. In the remaining nine cases the Court granted the motion and set aside the judgments as far as they related to B. C. Coppage, but preserved the lien of said judgments against Coppage pending the final outcome of the suit. The defendant claimed he had a good ground for defense and for this reason, following the rule of the usual practice and the cases placed on the trial docket and the May Term of Court.

By the last will of the late Dr. Robert M. Price, of Centreville, his real estate, was devised to his widow during her life, and at her death a life estate descended to J. Frank Harper, at whose death the fee simple became vested in the Methodist Protestant Church.

Mrs. Price died, Mr. Harper becoming possessed of a life interest in the property. Several years ago Mr. Harper, by the payment of certain sums of money secured the fee simple right in the property now known as his Centreville home property.

By the more recent transaction he also acquires the fee simple right in all the other real estate of the late Robert M. Price, consisting of a farm near the brick school house, the coal and lumber yard occupied by Wright & Collins, of Centreville, two double houses on Broadway the Dulaney home adjoining the Pennsylvania depot, and a small lot at Centreville Landing.

It was mutually agreed that the best interest of the church would be to dispose of its rights in the property for a cash consideration, the investment of which would at once begin to produce a revenue and thereby secure an immediate benefit to the church. With that object in view appraisers were selected and the property was valued at $34,000.

This amount was accepted by the parties and as by agreement previously made, Mr. Harper paid in cash one-half the amount, or $17,000, in consideration of which the church relinquished any and all claim to the several properties and executed a deed to Mr. Harper conveying the fee simple of the estate to him.

This Is Not An Attempt To Be Sensational

But we are telling you that you can NOW acquire Farm land and other kind of Real Estate at prices less than will obtain in 1922, and the only way to tell the public is by advertising.

The undersigned company, having bought and sold Real Estate during the past ten years, NOW ANNOUNCES IT IS GOING TO DISPOSE OF ALL ITS PRESENT HOLDINGS. This company has plans which will be inaugurated in the spring of 1921—plans which will require that we RAISE FROM THE SALE OF THE PROPERTY DESCRIBED BELOW FROM $20,000 to 30,000.

We delayed this conclusion to dispose of all our Real Estate. We hesitated to make this announcement. And we frankly tell you why: We doubted whether you would believe that we would sell at this time while the price of land is off. We believe for both the owner and the seller it is an unfavorable time to dispose of Real Estate. But we must raise funds to carry out our new plans; hence there is nothing else for us to do but to SELL.

We believe that Real Estate will advance the latter part of 1921 and will decidedly advance during 1922. Hence NOW is the BEST TIME FOR ONE WITH FUNDS WHICH ARE BRINGING IN ONLY A NOMINAL INCOME TO INVEST IN REAL ESTATE. OR, FOR YOU TO ACQUIRE A HOME AT A PRICE WHICH WILL MEAN THE DISCONTINUANCE OF RENT PAYING AND CONSTANT MOVING FROM "POST TO PILLOW."

As either owning or controlling the hereinafter described Real Estate, we offer it FOR SALE at the reduced figure quoted. And, REMEMBER, if unsold at these figures, *WE WILL SELL AT EVEN GREATER SACRIFICE.*
