PULIC SERVICE UTILITY VISIT CHESTERTOWN

Electric Light Company and Citizens Appear And Thoroughly Canvas The Rate Situation As Well As Other Matters—Gas Rates Touched Upon.

President W. M. Maloy, J. Frank Harper and Edgar Whitman, members of the Maryland Pulbic Service Commission, visited Chestertown Wednesday and held a public hearing of the protest filed by the citizens of the town against the increased rate of the Chestertown Electric Light & Power Company. Considering the fact that the hour of meeting was not definitely known the attendance was remarkably representative.

H. W. Vickers, attorney to the Commissioners opened the meeting by a formal protest on the ground that the rate was higher than any other town on the Shore, that the increase is asked at a time when all labor and supplies are supposed to be on a descending scale and in order to make good some past deficit.

H. H. Barroll, attorney for some of the signers to the protest, addressed the Commission along the line of exorbitant charges they being really prohibitive. He mentioned the bill of the Third National Bank to have been $32 for last month.

S. Scott Beck spoke as the attorney of the Electric Light Company stating that the company had not paid any dividend for several years and had really run at a loss, the deficit being $2,000 for each of 1919 and 1920. He said the books would show the justice of the increased rate.

Mr. Roland, of Philadelphia, president of the Company, spoke expressing the plea that they had been running at a loss and wanted to make up for same by this increase. He admitted later that what he had heard surely had opened his eyes to possibilities for service that he did not know existed.

An adjourned meeting was held at 2.30 o'clock at which various speakers showed how the high rates was keeping industries from using the power and how other plants and power were taking the place of what this concern should do. Among those who spoke were M. P. Brooks, A. S. Turner, E. F. Perkins, Fred. G. Usilton, C. N. Satterfield, W. B. Copper, T. W. Perkins, J. N. Bennett, J. Herman Blackway, C. A. Godwin, S. P. Townshend, R. Hynson Rogers, H. R. Graham, R. H. Collins, R. Moffett, W. L. Fowler and others.

The Commission also referred to the gas increase and state that inasmuch as the citizens did not ask for a hearing after filing their protest they concluded the rate was satisfactory. They promised, however, to look into the matter. A further hearing of the light rate increase will be held in Baltimore after the auditor and engineer shall have finished their work.
