TERMS—$1.50 per year; 75 cents for six months; 50 cents for three months, in advance. Single copies 3 cents.

Governor Ritchie expects that the State's revenues for the next fiscal year will be about $15,000,000. With $15,000,000 in revenue, budget estimates total some $22,000,000. It would appear, therefore, that unless new revenue producers are discovered, the budget estimate will have to suffer to the extent of $7,000,000.

Maryland bankers do not look for another bank call from the Comptroller of the Currency this year. So far, only four have been made and the opinion prevails that a call will be issued shortly after the first of the new year for a statement from banks at the close of business December 31. The calls this year were issued in February, April, June and September.

In another column is noted a most commendable effort on the part of Kent citizens near Coleman's Corner to improve the road leading to State road, a distance of a mile. It is a beautiful spirit of co-operation which not only will build a road but will make any community a better place in which to live. Rev. J. H. Stevenson, the colored pastor, is to be commended for his work.

In an editorial in The Sun of the 14th, which says, "Include Health in your Christmas gifts and that Baltimore ought to purchase millions of them," what should Kent county purchase? The allotment was 60,000 seals, meaning $600, with 16,000 peopeople in the county, how easily that could be raised by pennies, some self denial for others, just five cents worth, just ten cents worth, and if a dollar, why the investment in seals, under the symbol of the double barred cross, will do "guard duty" against the greatest single enemy of our health, happiness and welfare—Tuberculosis. Buy of your community chairman.

NEW TREATY BETWEEN UNITED STATES, GREAT BRITIAN, FRANCE AND JAPAN.

Following is the text of the treaty between the United States, Great Britian, France and Japan.

Article One.

The high contracting parties agree as between themselves to respect their rights in relation to their insular possessions and insular dominions in the regions of the Pacific Ocean.

If there should develop between any of the high contracting parties a controversy arising out of any Pacific question and involving their said rights which is not satisfactorily settled by diplomacy and is likely to affect the harmonious accord now happily subsisting between them, they will invite the high contracting parties to a joint conference to which the whole subject will be referred for consideration and adjustment.

Article Two.

If the said rights are threatened by the aggressive action of any other power the high contracting parties shall communicate with one another fully and frankly in order to arrive at an understanding as to the most efficient measures to be taken, jointly and separately, to meet the exigencies of the particular situation.

Article Three.

This agreement shall remain in force for ten years from the time it shall take effect, and after the expiration of said period it shall continue to be in force subject to the rght of any of the high contracting parties to terminate it on 12 months notice.

Article Four

This agreement shall be ratified as soon as possible in accordance with the constitutional methods of the high contracting parties and shall take effect on the deposit of ratifications which shall take place at Washington and thereupon the agreement between Great Britian and Japan which was concluded at London on July 13, 1911, shall terminate.

CO-OPERATIVE SELLING

The Peninsula Horticultural Society held its annual meeting last week in Berlin.

The key-note of the session was co-operative selling of standardized grades and packs of fruit and vegetables. It was urged that the peninsula growers adopt certain brands for their fruits and vegetables and it was brought out that proper grading, packing, and advertising is essential to secure best sale values.

Col. Albert W. Sisk, of Preston, a large canner and broker of canned goods, predicted that in order for the Eastern Shore to hold the lead in tomato canning, growers must adopt methods whereby the cost of production will be lower. He said that the present average yield of four tons to the acre is not profitable, but showed that by proper selection of land, seed, up-to-date cultivation and thorough spraying the yield on commercial plantings can be raised to an average of 10 tons to the acre. He also said that it is up to the canner to cut his operating expenses so that the consumer may obtain tomatoes at a reasonable price.

Columbia Grafonola

"And the night shall be filled with music
And the cares that infest the day
Shall fold their tents like the Arabs
And silently steal away."

When Longfellow wrote, reading some poem was the nearest most people could get to the peace and relaxation that music alone yields. In his day it was only the accomplished musician who had it in his power really to fill the night with music and banish the cares that infest the day.

THE UNIQUE CHARM OF AN EVENING AT HOME.

Time and again we have had patrons tell us that a quiet evening at home with the Grafonola, listening anew to their favorite songs in the voices of the world's greatest singers, gives them more genuine pleasure and more real recreation than most of the more pretentious and and costly forms of entertainment.

MAY WE DEMONSTRATE.

May we invite you to a private demonstration, where you can listen to these songs and examine the Grafonola with its non set automatic stop, the ultimate in effortless musical enjoyment? And we have arranged a very economical form of payment that will enable you to bring this music to your home with a minimum of expense.

Open Evenings until Christmas.
