AUTO FEES INCREASE $400,031 DURING YEAR

Annual Report Of E. Austin Baughman Shows Total Receipts Of $2,451,166.08—Records 189 Fatal Accidents— Cites Operation Of State Police In Suppression And Detection Of Crime In State.

Showing not only a material increase in receipts for the fiscal year 1921, but a decrease in the cost of maintaining his office, E. Austin Baughman, Commissioner of Motor Vehicles, has filed his annual report covers the 12 months ended September 30, 1921, besides the five months from May 1 to September 30, 1920, because in a change in the statutes fixing the fiscal year.

Under the head of finances, Commissioner Baughman shows total receipts of $2,451,166.08, an increase, over the previous year of $400,031.01. In the same period his office expenses decreased $3,842.36. The receipts of $2451,166.08 are contrasted with those of 1911, ten years previous, of $56,204.

Much stress is laid on the Title law now in effect in the State, and the benefits it has brought to the methods in the office, as well as to the motorist in general. The greatest benefit noted at the close of the year was the fact that the records made possible the mailing of license tag applications to all owners thruout the State, thus facilitating the issuance of tags for 1922.

The fact that there were 189 deaths from accidents due to motor vehicles is deplored by Commissioner Baughman. Nevertheless, the report expresses the belief that automobile drivers are exercising greater care in the operation of their cars. Doubt is thrown on the theory that congested roads have caused many accidents. The report declares that the proportion of accidents on little used roads is greater than for the roads where there is heavy traffic.

Overcrowding of cars, particularly of the driver's seat, also is blamed for many serious accidents as well as intoxication.

A total of 3,950 reports of violations of the traffic laws were heard in the Commissioner's office an increase of 22 7-10 per cent. more than the previous year. Various disposition of the cases was made, including suspension of 1,392 licenses, revocation of 277 and 1,876 reprimands Fines also were imposed to the total of $143,386.95, an increase of $44,403.73 more than 1920.

Of the operation of the Title law, the report says Delaware, Ohio and Indiana have adopted laws almost word for word of the Maryland Act. Four other States are mentioned as having like bills pending in their Legislatures. Receipts from the title department since its inception have been $188,827.08, with disbursements of $134,391.11.

Attention is called to the work done in the rural communities throughout the State in the suppression and detection of crime, either through the sole efforts of the State police, or in co-operation with the local peace officers.

In recording the amount of patrol work accomplished in seven months from its creation, the report shows 423,956 miles of highways covered in approximately 100,000 hours of active duty of the force, During this time 6,000 arrests for traffic law violations were made, 67 stolen automobiles were recovered, approximately $17,000 worth of stolen property of other kinds recovered, 1,689 ordinary crime cases handled, 329 accidents with vehicles investigated, 141 of which caused injuries and 94 persons died.

Another feature of the operation of the force is shown in that the motor vehicle fines collected through the work of the men paid the daily cost of operation of the force and left a balance for the State.

IN MEMORIAM

In loving memory of our dear little son and brother, Charles Edwards, son of Mr. and Mrs. Burton Edwards, who left us to join the angels six years ago, age 9 months.

In a casket snowy white
Lies our precious jewels so bright,
Oh, our darling so sweet and fair,
With eyes so blue, and golden hair.
Let us be brave throughout this day,
And bear what burdens come our way.
Sadly missed and dearly loved.
By his Mother, Daddy, Baby Sister.

Another little lamb has gone
To dwell with him who gave;
Another little darling babe
Is sheltered in the grave,
God needed one more angel child
Amongst his shinning band,
And so he bent with loving smile,
And clapsed our darling's hand.
Sadly missed by his Grandmother and Grandfather, Mr. and Mrs. Joseph Edwards.

A sweet little flower too tender to stay
But God in his mercy called Charles away;
Not from my memory,
Not from my love,
But to dwell with the angels in heaven above.

Aunt Winnie.

The More Annoying and Common Motor Troubles are Avoidable

IF your motor overheats frequently, misses, gives off vile-smelling exhaust fumes, requires frequent carburetor adjustments, carbonizes quickly at valve seats and spark plugs, it is probable that impure gasoline is the cause.

Have you ever really considered the reason for using a certain type of gasoline in your motor—or do you simply go to a dealer and ask for "Gas"?

The improved "Standard" Motor Gasoline has certain definite advantages that make it the superior of any other. These improvements were made possible principally by the long experience of our refining experts and our access to practically every needed source and grade of crude petroleum.

It is for these reasons that we are able to produce consistently a well-balanced gasoline—gasoline that is not lacking in any essential factor. It insures a maximum of motor efficiency, cleanliness of combustion, smooth, strong pulling power and long mileage, because it is the well-balanced, all-'round fuel.

"Standard" Motor Gasoline is the best you can buy—and it costs no more. Now obtainable wherever you motor.
