BETTER ROADS DEMANDED

The Citizens Of Kent Looking Into The Expenditures For Roads And Bridges — Too Much Supervision And Not Enough Work At Proper Time—New Laws In Preparation.

A representative meeting of taxpayers was held in Chestertown Saturday and an investigation made of some of the expenditures for roads and bridges. It was found that of the $27,000 appropriated for roads and bridges, there had already been expended $22,000 and five months yet before the year was ended.

It was also learned that $8,000 was expended each year for supervision, that is, it required $8,000 to supervise the expenditure of $27,000. Is there any business house or firm that would continue long under such a system? Other vital facts were presented so as to place the control, oversight and disposition of the money in the hands of the County Commissioners. As at present they are held responsible for levying the road fund but have nothing to do with the expenditure.
