SPIRITED BIDDING ON HIDES

"Market" Near Kent News Building Visited By Several New Buyers—Over 2,000 Bought Saturday.

Saturday was the big day in muskrat hides in Chestertown market. The "market," near the Kent News Building, was invaded by several new buyers and more than 2,000 hides bought at a price ranging from $1.60 up to $1.85 each. The biggest lot was brought in from Mr. Malcolm's marsh in Morgnec about 300 pelts. These were caught by three colored men who live on the farm. During the war the business brought hundreds of thousands of dollars to trappers in this county, and even though the price has dropped a little the returns are almost as great.

Butchers and grocers have tubs full of skinned "rats" for sale and a ready market is available at a fair price. They bring from 15 to 25 cents each, many people preparing them similar to terrapin. In some places the number trapped this year is greater than ever before, in spite of traps being set in the same location year after year.

A few years ago these hides were sold for about 25 cents each and the farmers thought it profitable then, but in these days of $2 or thereabouts a more businesslike air is associated with the trapping and selling.

Figures are not obtaining yet, but it is believed that this season will reach the proportions of last year, when hundreds of thousands of dollars' worth of hides were bought and shipped from here.

CLEAN MILK CAMPAIGN

A series of very important farmers' meetings will be held next week in Kent county with the Inter-State Milk Producers' Association, the Philadelphia Dairy Council, the Local Milk Association, and the County Agent co-operating.

Meetings will be held as follows:

Monday, February 13th, 7.30 p. m., Massey, I. O. O. F. Hall.

Friday, February 17th, 7.30 p. m., Chestertown, Court House.

The program will include three motion picture reels specially prepared for this purpose on the objects of the campaign. These pictures are very interesting in telling the story they hold. A talk on the campaign will be given by a representative of the Philadelphia Dairy Council, who will also exhibit sedimentation tests of samples of milk taken at the local receiving stations. The meetings will be equally as interesting to women and boys and girl's club members as to men.
