WANTED. $27.60 per day.

AGENTS wanted, ladies and gentlemen, in every County in the United States to sell the Ink Powders of the American Ink Company. The powder sells for forty cents per package and will make ink enough to fill fifty bottles of the size usually retailed at ten cents per bottle. A smart agent can sell a gross of it a day, and clear $27 00. The ink can be made from the powder in three minutes in common boiling water. It is a perfect black Ink, the best in the world. It flows easily, does not corrode the pen a particle, never gums up, is not injured by freezing and its color will last forever.—Every family in America will buy it, as a package will last a family for years, and ink can be made in as all quantities as wanted. With each gross we send a thousand circulars, with testimonials from clergymen, lawyers, teachers, merchants, commercial colleges, editors &c., and the agents name on the bills. Only one person will be made agent for a county. The first one sending Thirty Dollars for a gross, will receive it by return express, together with one thousand circulars and the right to sell in the county he or she designates. If others send for the same county, the money will be returned to them free of expense. To make sure, one had better designate several counties, either of which he or she will take. Send for trade list and circulars if you dare run the risk of waiting, or send the money for a gross. Letters addressed to the Mayor, Postmaster, cashiers of the banks, or the express agents of this city, will show that the business is honorably and quarterly conducted. An Ink Power will be sent by mail to any address, free of charge, on receipt of forty cents

Dental Improvements.

DR. BEAN'S

Improved Nitrous Oxide Apparatus.

DR. GEO. S. FOUKE, DENTIST.

Having furnished his office, in Westminster, Md., with one of Dr Bean's Patent Improved Apparatus for the manufacture of perfectly pure

NITROUS OXIDE GAS,

would announce that he will be at all times prepared to administer this popular Anæsthetic for the

Extraction of Teeth without Pain.

Dr FOUKE would invite the attention of the public to his lately improved ATMOSPHERIC PRESSURE PLATES FOR ARTIFICIAL TEETH. By means of an improved Air-Chamber, the pressure of the atmosphere for holding teeth firmly and securely in the mouth, is more certainly and effectually attained than by any style or form of plate hitherto used by the profession.

The value and excellence of a set of Artificial Teeth are much enhanced by this new and truly philosophical arrangement.

Dr F continues the Practice of Dentistry in all its Branches, and being a *Pioneer Worker in Hard Rubber* for Dental purposes, he is thoroughly experienced in the manufacture of teeth upon the *Vulcanite* base, and is prepared to supply this style of work at very moderate rates.
