Complete co-operation of every coal dealer in Kent is necessary in order to prevent exorbitant prices being charged householders in the present emergency, just as complete co-operation of the householders is necessary to prevent unfair hoarding and to achieve equitable distribution.

What Was Said At Meeting.

On Monday B. Howard Haman, Esq., of Baltimore, addressed the ladies of Literary Society and the League of Women Voters on the referendum or Bond Issue voted upon on Tuesday. He gave a most interesting talk repeating practically what he had written and was published in Kent News in July, showing the method by which this money would be borrowed, showing the control of the money to be in the hands of the County Commissioners through their control of the County Engineer under the Kent County Road Law. Mr. Haman also stated that he had sent Mr. Mackall a copy of his letter to the Chestertown papers before it was published and that Mr. Mackall wrote him that he could make no suggestion concerning it for its betterment. Mr. Mackall stated in his letter to Mr. Haman "You have covered the situation carefully, and I do not believe you could add anything to it." Mr. Haman thereupon stated that Mr. Mackall approved the Applegarth suggestion to build gravel roads in the outlying regions of Kent county as proposed by Mr. Applegarth. All who heard him were deeply indebted for his guidance and help in enabling them to cast an intelligent vote on Tuesday.

ENGINES! SHELLERS! GRINDERS!

Three very necessary things at this season of the year. Most farmers have found out long ago that it does not pay to feed whole grain to stock. Ground feed is worth about 25 per cent more than the whole grain.

We have a complete line of Engines, Shellers and Grinders and we will be pleased to have you come in and talk the matter over with us. A few hours work on a rainy day now and then gives a supply of nutritious stock food that adds many dollars to the farmer's yearly profits Prices are right.
