PAY UP!

Notwithstanding all our dunning, we have yet a large amount of money outstanding, which we now greatly need and intend collecting in the speediest manner. It will be well, therefore, for those knowing themselves indebted to us to take this hint and save costs. It is no use longer to be mealy-mouthed about it, we have to pay cash for paper, ink, hands, taxes, and indeed everything else, and trusting out our work from year to year is a humbug we will tolerate no longer.

Adjourned.

The fossil Convention at Annapolis finally adjourned on Saturday last, after a session of seventy-four days. The result of their labors, we suppose, will soon be printed in full and circulated, when we hope the eyes of the people will be sufficiently opened to induce them to vote it down on the 18th of September.

ORGANIZE! ORGANIZE!

The Rebel Convention at Annapolis has fixed, by an order, the 18th day of September, as the time for submitting *their* Constitution to the people of Maryland for ratification or rejection. Of the result of that vote, we can have no doubt. All Rebels have been enfranchised, and all the colored citizens are disfranchised.—This gives them a large majority; and to a man the Rebels throughout the State will vote for it. It matters but little to the rank and file what kind of an instrument is brought forth at Annapolis. It is enough for them to know that it was produced by a nest of Rebels, and they will "go it blind." The ratification of this Rebel Constitution will be followed, in November, by a general election for State and County Officers. It is true the regular time for an election for State Officers would not be until the Fall of '68, but the Rebels are fearful that the Negroes may be invested with the right of franchise before that time; and to forestall the result of that vote, and secure the "loaves and fishes" for the next four years, they will order the election this Fall. To our own mind it is very clear that Swann and his Rebel "backers" intend to take the State by storm, and secure the control of public offices by fraud.

The campaign will be a warm one. We have great odds to contend against, and we cannot too soon prepare for the fight. the Rebels will make a desperate struggle to carry every County in the State. They boast already that they will carry even this county. We know what means will be used to secure the prize. Rebels by the scores will be introduced from other States and counties. The laws of this State are so accommodating that any "gray back" or "bushwhacker" may come here and vote. Swann's Registrars will receive their instructions, and the Judges of Election will not have the power to reject a registered vote. This Militia Law will place perhaps $75,000 in the hands of Tom. Swann. Do you suppose he would scruple to use it in the election to secure the triumph of the rebel party?—The very object of this Militia Bill was to force money from the Union citizens to defray the expense of the coming election, and fatten a few Rebel parasites who have become bankrupt in fighting the Government and starving Union prisoners. This Military Fund will be used in circulating Rebel lies and buying up Rebel votes—importing them from foreign States.

There is work for us to do. A thorough organization of our Leagues, &c., is needed. The very fact that we have the odds against us should nerve us for a more vigorous and determined fight. A man who will not help himself deserves no help. So with parties. How can we ask our friends in Congress to care for us, if we sit down, fold our hands, and let the Rebels walk over us? Ignorance is the strongest foe we have to contend with.—In the ignorance of the people lies the strength and success of the Rebels. The dummer the man, the more certain he is to vote the Rebel ticket. Documents and papers should be circulated. From the rebels we might learn a lesson in this matter. Half the circulation of such Rebel papers as the Hagerstown *Mail*, is made up by the party, and sent to every man who will lift it out of the office. If he is too ignorant to read, some good Rebel neighbor will read it for him. He is naturally stupid, and but one idea enters his brain. He cannot reason—take all for granted, and vote for Andrew Jackson McFinnigan—the best Dimmycrat in the country.

Half our defeats are owing to our inaction. We have made many most stupid blunders in that policy of running *available* candidates. We may redeem these errors by going to work in earnest. If we do nothing, we are certain to be defeated. Again we would urge a speedy and efficient organization of the party. It cannot be done too soon.—*Boonsboro Odd Fellow.*

A STARTLING TRUTH!—Thousands die annually from neglected coughs and colds which soon ripen into consumption, or other equally fatal diseases of the Lungs; when by the timely use of a single bottle of *Wistar's Balsam of Wild Cherry* their lives could have been preserved to a green old age.

The Tyranny of Congress.

Andrew Johnson and the Copperhead organs which support him in his faithfulness to principle, has had much to say on the subject of the *tyranny of Congress*.—Speaker Colfax, in a speech to some friends who honored him with a serenade on Saturday evening week, most happily disposes of this charge. He proved that all that Congress had done had been previously done by the President by proclamation, the only difference being that one was the work of legal legislature, the other arrogant assumptions of a distinct department of Government. He well sums up the parallel cases:

"Has Congress made State Governments subordinate to the military power? So did the President. Has Congress provided for the calling of State Conventions!—So did the President. Has Congress authorized the ratification? So did the President. But he ordered conventions by his executive fiat, and recognized their constitutions without their being submitted to the people. Congress required the people—the registered voters—to call the convention themselves, and then to approve or reject their work by a popular vote.—Has Congress established a test oath? So did the President. Our crime is, I suppose, that we provided that those whom the nation had made free shou d have the freeman's ballot for their protection, while the President did not."

The parallel is perfect, with the exception of the extension of suffrage to the loyal people Yet the man who has furnished a precedent for each of these acts of Congress now threatens to disobey the laws because the qualifications prescribed are not in the same as he held, in his wisdom, to be necessary.

Cost of Uniforming the Militia.

The Rebel Militia Law of this State provides for uniforming the Maryland National Guard, by promising to pay at the rate of $20 00 for a single uniform This will cost something. Let us invoke the figures to make it clear. The voting population of this State is about 75,000—Let us estimate the number of men subject to military duty at 60,000—we think this low. Suppose that out of that number 20,000 men enroll in the National Guard, and get uniforms. At $20 00 a man, it will cost just $400,000. To pay this neat little sum we tax 40,000 men $2 00 apiece, which brings us into the *military fund* only $80 000, which is $320,000 less than the uniforms alone will cost. Add to this $320 000 the cost of enrolling, and other expenses necessary to put the machine in running order, and we have another $100,000—making a total of $425,000. For arms, accoutrements, &c, we may add another $400,000, which gives us the modest little sum of $8 .0 000 to be paid by the citizens of Maryland.

We leave it to any sensible man if such a debt as this would not grind the people to powder, and plunge the State into a debt that would cripple her energy and prosperity for generations to come. And yet, unless figures lie, this is just what the Rebels are doing, in putting this infamous Militia Bill into operation.

But it was not the plan of the Rebels to make *active* Militia out of that number;—7,000 or 8,000 Rebels, who have been drilled under Lee and Stonewall Jackson, armed and uniformed, are about all they want. The Union men were expected to pay their $2 00, and thus help to foot the bills. For the ballance they would make a special appropriation, and tax the State to pay it.

It is plain, then, that the easiest way to strangle this Rebel monster, is to be enrolled in the "Maryland National Guard." To arm and uniform 50,000 men will be impossible, and Swann's militia system will fall to pieces of its own weight.

Inconsistency.

Whatever else may enter the political composition of the Conventioners at Annapolis to command them to the respect and confidence of their constituents, they certainly have no claim to the merit of consistency. In the debate last week on the report of the Committee on the Treasury Department, it was stated and admitted that the great object for which the Convention was called was to turn out Radical office-holders, and fill their places from among the late abetters of treason. The report also provides for the retention of Gov. Swann until the expiration of the time for which the Radical party elected him, but the proposition to retain the Treasurer and Comptroller of the Treasury, both of whom were put in office by the party now in power, until the expiration of their time, was voted down. Now if there is any consistency about this we are totally unable to see it. The sole object of the Convention was to oust from office men who are alleged by the opposition to have been elected to office by the "aid of Federal bayonets," but when it comes to the question of removing Gov. Swann, who was elected while the Registry law was in full force and when rebels were either ashamed or afraid, on account of their treason, to show themselves at the polls, the Convention graciously consents to retain his Excellency, while the two officials who were elected by copperhead votes, are to be unceremoniously thurst aside. Comment is unnecessary. We have been led to believe, though very much against our will, that when a man once gets to be a rebel, he can be made to stoop to any mean act for political purposes, and the Convention has done much to confirm us in this belief. There is some more dirty work to be done yet before the control of the State can be fully vested in rebel hands, therefore the Convention has declined to dismiss Gov. Swann, although he was made Governor at a time when very few of the members of that body had scarcely a political right beyond that of a negro. But it matters not about this; the Governor has been a supple tool, and the Convention intends to make all the use of him it can. He is not only to be rewarded for what he has done in the past, but he is to keep in office that his new born admirers may have the benefit of his rascality in the future.

We hardly know which deserves the most of public execration, the Governor for his scoundrelism as manifested in the part he performed in putting traitors in places of power and trust, or the Convention which has rewarded him for the outrage.—*Frederick Examiner.*

☞Two-thirds of the counties of Tennessee have been heard from, giving Brownlow a majority of forty thousand, and the remaining ones will swell it to forty-five or even fifty thousand. The State Legislature stands so far as reported, seventy eight Union to six Democratic members. The State bonds have risen with the election of the Radical ticket.—What a brilliant contrast this to Kentucky, where twenty thousand Rebel soldiers went to the polls and thirty thousand black Union soldiers stood by disfranchised, and where the Stars and Bars now float triumphant! As we have before remarked, all the Congressmen elected favor universal suffrage throughout the United States, and of course desire that Maryland shall be placed on the same footing as Tennessee.

☞A whole pic-nic party at Vicksburg, Miss., were poisoned on Thursday last. Eight persons died and others are not expected to recover.

Local Items.

Large Personal Estate Sale.—On Saturday next, 24th inst., the Personal Property of the late Joseph Myers, near Uniontown, will be offered for sale, and those in want of fine Stock or valuable Farming Implements would do well to attend.

Pleasant Pic Nic.—We are requested to say that a Pic Nic will be held at Cranberry Station on the Western Maryland Railroad, on *Tuesday the 27th inst.* Refreshments of all kinds furnished on the ground at moderate charges. The close proximity to town will enable many of our citizens to attend, and we doubt not a very pleasant time may be anticipated.

Serious Accident.—We regret to learn that our friend Mr. Stephen Smith, of Taneytown District, met with quite a severe accident a few weeks since, from which he is yet suffering. It appers that while loading grain the horses suddenly started, throwing him from the wagon, breaking his collar-bone, and severely bruising other portions of his body.

Opening of the Public Schools.—We learn that the Public Schools in town will commence on the 2nd day of September, the Western School in charge of Miss H. P. Lord, and the Eastern under Mr. —— Warfield. The Schools through the country will commence on the 7th of October.

Female Collegiate Institute.—It will be seen by advertisement in another column that this popular Institution, Rev. John A. Munroe, Principal, will open on the First Wednesday of September. This School has already earned for itself a reputation that needs no eulogium at our hands, and a perusal of one of their Circulars will give all necessary information.

Religious Notices.—A Prayer Meeting will be held at F. R. Buell's School Room next Sabbath afternoon, 25th inst., at 3 o'clock.

There will be a Woods Meeting held in Col. Gist's Woods, Ebenezer appointment, near Winfield, Westminster Circuit, on the 25th, 26th and 27th of this month. Rev. David Evans of Baltimore is expected to be present.

Western Maryland College.—We are pleased to announce that this building is being pushed rapidly to completion, and will be ready for occupancy early in the coming month. A few days ago we had the pleasure of a thorough inspection of the premises, and feel no hesitancy in pronouncing it far superior to any Institution of the kind in the State. Its position cannot be surpassed, as from every avenue of approach to our place it is the prominent object of attraction; its rooms are large, airy and convenient, and the view from the Cupola grand and imposing in the highest degree. Indeed we never before knew our town was so beautiful, and the surrounding country so picturesque, until viewed from that point.—The first Collegiate year will commence on Wednesday, September 4th, and from a circular before us, we perceive that the Faculty has been selected with especial pains, and is composed of Professors and Teachers of well known ability, who, we doubt not, will render every satisfaction, and soon make this Institution one of great popularity.

City Affairs.—The Mayor and Common Council met at their office August 14th, at 8 o'clock, P. M. The Committee on Printing Ordinances were granted further time to report. A written communication in regard to the survey of the centre of the line of Main street, with its bearing upon the present location of Green Street, was received from John Cassell, Esq., Surveyor, read and ordered to be placed on record. On motion Mr. Cassell was employed to prepare a plat of the whole of Green Street, as at present located, with the new or corrected lines as found by survey, placed thereon. Mr. E. K. Gernand submitted to the Board the following proposition:

To the Citizens of Westminster:

The undersigned, Mayor and Common Council for the City of Westminster, recognizing the growing interests of your City and the demands that business and the convenience of our citizens make of us as the guardians of the public interests, recognizing the importance of Lamps for the purpose of lighting the Streets, and with recognition have to contend with the fact of the insufficiency of the City's revenue to meet the necessary expenditure. We have therefore come to the source of our authority, with a proposition that will secure the immediate accomplishment of this want, and with no sacrifice of interest on the part of any citizen. We propose therefore as follows:

That the citizens of Westminster or vicinage, subscribe in such sums as they may desire, or be convenient, (no single subscription to exceed $50,) in the whole not to exceed Five Hundred Dollars, for the purpose of creating a fund whereby the City authorities may be enabled to place Lamp-posts and Lanterns upon the Streets of the City at such points and distances as they in their judgment may determine; and with such economical arrangement of Posts, that the same may in time be used for the burning of gas. And the Mayor and City Council on their part shall upon payment of said subscription, and as a part of their contract, pass an Ordinance pledging the faith of the City to a redemption of said loan, with interest at 6 per cent. from the date of payment and until paid, at or before the expiration of five years from the date thereof. And should this sum be inadequate the Corporation will furnish the balance necessary therefor to secure its accomplishment; or should it be in excess, the amount thereof shall be held as a sinking fund for special investment, to enable this Corporation the sooner to refund said subscription and interest; the interest thereof to be paid upon the redemption of the loan. And further, this Corporation pledges itself to appropriate at the expiration of each and every year from the reception of this fund an amount sufficient to cover the annual interest on amount in trust, which amount shall be paid out of the general fund, and set apart in conjunction with previous excess—if any—as a sinking fund for the final redemption of the aforegoing loan.—And further, that the Corporation will provide the necessary material and light said Lamps at such times or lengths of time as may by Ordinance be determined. The above was unanimously adopted, and the Clerk ordered to furnish a copy to each of the newspapers.

The consideration of the Ordinances was resumed and continued to the hour of adjournment. Board adjourned to meet on Wednesday evening, Aug. 21st at 8 o'clk.

☞A large meeting of soldiers and sailors was held on Saturday night in front of the Union League House, Philadelphia, at which resolutions condemnatory of the President's course in the removal of Mr. Stanton were adopted.

Change of Firm.

A dissolution of copartnership has occurred between the Messrs. S. A. FOUTZ & BRO., wholesale druggists, 116 Franklin street, Baltimore, and the business will hereafter be conducted by the junior member, our enterprising friend, Mr. DAVID E. FOUTZ. This house for a number of years, has been engaged in the extensive manufacture and distribution of patent medicines, including Horse and Cattle Powders, Life Invigorator, Cough Syrups, &c., and is the most extensive labratory this side of New York. The city of Baltimore is indeed indebted to this establishment, as in consequence of its extensive business ramifications it has superinduced a considerable amount of trade from all parts of the country. The gentleman who will hereafter conduct the busines is a young man of popular manners, great energy and perseverance, and noted for his courtesy and true politeness to all with whom he comes in contact.—We bespeake for him not only a continuance of the former business of the house, but a large increase in his favor.

Washington Rumors.

The Baltimore *Commercial* of Tuesday says, there seems to be no abatement in the number of rumors emanating from Washington. This morning we have it that the order relieving General Sheridan from the command of the 5th military district was being made out yesterday afternoon, but it has not yet been promulgated. It is not known, but it was supposed that General Sheridan would be assigned to the Department of the Missouri, in which case Mr. Lo, the poor Indian, will have a brave on his track who will teach him that two can play at a game of "scalps," and that he had better light the calumet of peace in the shortest possible space of time. It is also stated that General Howard, Chief of the Freedmen's Bureau, is to be relieved, and an officer of the regular army, not above the rank of colonel, assigned to the Bureau. An order, it is likewise alleged, relieving Judge Advocate Holt, will be issued during the present week. Mr. Plumb, Secretary of Legation to Mexico, has been designated to represent our Government at the City of Mexico, and was to leave Washington last evening to enter upon his duties.—The commission of Mr. Otterbourg has been cancelled, and Mr. Plumb succeeds him with powers in the nature of Charge d'Affairs.

Southern Leaders.

Gen. Pope has addressed an important letter to Gen. Grant. The letter encloses a paper containing a speech made by Hon. B. H. Hill, late a Senator in the Confederate Congress. He was pardoned some weeks ago, and Gen. Pope says that he being a representative man, this speech shows the hopelessness of any satisfactory reconstruction while such men retain influence. Gen. Pope thinks they should be silenced, and says it is better that the battle should be fought now. Congress did well by disfranchising the leaders, but Gen. Pope thinks it would have been better to have banished them, and he is opposed to relieving the disfranchised classes of their disabilities. He says it is his duty to state that, in his judgment, the condition of affairs in the Southern States, even should reconstruction be satisfactorily accomplished, will, of necessity, be a reproduction in a more or less modified degree of what now exists in Tennessee, unless some measures are adopted to free the country of the turbulent and disloyal leaders of the reactionary party. Whilst these persons remain in the country to exercise the baleful influence they undoubtedly possess, there can be no peace.

☞The necessity for the laws protecting the freedmen was never more strongly illustrated than in the case of the brothers Wythrow, near Lebanon, Ky. A colored girl, aged 16, for a trivial offence, of which she was not guilty, was dragged out into the woods, tied up by the neck to a limb, and whipped unmercifully with green withes. Fortunately, these barbarians have been arrested and bound over in $5,000 bail, to answer at the District Court. Had they been brought before Kentucky magistrates, it is probable that very trivial, if any bail would be required. These vindictvie assaults are very common in Kentucky—no less than sixteen arrests for the same offence having been made within the last two weeks. Language is not strong enough to express the feelings of a civilized community on hearing of such outrages.

☞An ex Rebel, "who has been used to hate the Yankees with all his vim," writes that "as far as little Phil. Sheridan and all the balance of the mongrel crew are concerned, they may inclose themselves in all the armour a loyal Congress will give; but when such men as I get ready to strike them, we won't hit them in a theatre, but will strike them down were they in a church." There is no doubt that this man speaks for no insignificant class, yet Sheridan, for removing its leaders from office, is bullied and abused by the whole Copperhead press.

☞General Sheridan has written a letter to General Grant, complaining bitterly of the conduct of General Rousseau in New Orleans, stating that he had exerted his influence with the Rebel citizens to to prevent the acceptance by them of General Sheridan's construction of the Reconstruction acts, and also of his general demeanor towards Sheridan. Rousseau is one of Johnson's pets.

The Indians.

Late despatches report a number of Indian outrages committed on the Plains. The northern tribes are reported defiant and warlike. They demand possession of the country, withdrawal of the troops, the suspension of railroad construction, instead of being willing to co-operate with the Government in its effort to induce the hostile Indians to withdraw from the warpath. The condition of affairs forebodes serious trouble.

SCHENCK'S SEAWEED TONIC.

This medicine, invented by Dr. J. H. SCHENCK, of Philadelphia, is intended to dissolve the food and make it into chyme, the first process of digestion. By cleansing the stomach with Schenck's Mandrake Pills, the Tonic soon restores the appetite, and food that could not be eaten before using it will be easily digested

Consumption cannot be cured by Schenck's Pulmonic Syrup unless the stomach and liver is made healthy and the appetite restored, hence the Tonic and Pills are required in nearly every case of consumption. A half dozen bottles of the SEAWEED TONIC and three or four boxes of the MANDRAKE PILLS will cure any ordinary case of dyspepsia.

Dr. SCHENCK makes professional visits in New York Boston, and at his principal Office in Philadelphia every week. See daily papers of each place or his pamphlet on consumption for his days for visitation.

Please observe, when purchasing, that the two likenesses of the Doctor, one when in the last stage of Consumption, and the other as he now is, in perfect health, are on the Government stamp.

Sold by all Druggists and Dealers, price $1 50 per bottle, or $7.50 the half dozen. WISTAR'S BALSAM OF WILD CHERRY.

Coughs, Colds, Bronchitis, Asthma, Croup, Whooping Cough, Quinsy, and the numerous as well as dangerous diseases of the *Throat, Chest* and *Lungs*, prevail in our changeable climate at all seasons of the year; few are fortunate enough to escape their baneful influence. How important then to have at hand a certain antidote to all these complaints. Experience proves that this exists in *Wistar's Balsam* to an extent not found in any other remedy: however severe the suffering, the application of this soothing, healing and wonderful Balsam at once vanquishes the disease and restores the sufferer to wonted health.

MR. JOHN BUNTO,

OF BALDWIN, CHEMUNG COUNTY, N. Y.—writes:

"I was urged by a neighbor to get one bottle of the Balsam for my wife, being assured by him that in case it did not produce good effects, he would pay for the bottle himself. On the strength of such practical evidence of its merits, I procured a bottle. My wife at this time was so low with what the physicians termed SEATED CONSUMPTION as to be unable to raise herself from the bed, coughing constantly and raising more or less blood. I commenced giving the Balsam as directed, and was so much pleased with its operation that I obtained another bottle, and continued giving it. Before this bottle was entirely used, she ceased coughing and was strong enough to sit up. The fifth bottle entirely RESTORED HER TO HEALTH, doing that which several Physicians tried to do but had failed."
