Children Cry for Fletcher's

CASTORIA

It was only after years of research in the fields of herbs and roots for a combination of purely vegetable matter that would have all the virtues of Castor Oil, without its disagreeable, nauseating properties, especially when used for infants or children, that the formula used in Fletcher's Castoria was found, and which for over 30 years has proven its worth. Try it.

DENTIST

will be open for business in Gill Bros, Building on Cross street, Chestertown, after Saturday, November 25th. The Caroline Sun, Ridgely, says:

"Dr. Louis C. Hess, resident dentist, has produced a system by which the sensitiveness of excavating teeth for filling can be reduced to about thirty-five per cent in anterior water soaked cavities to as high as seventy-five per cent in many posterior cavities. The system in itself gives the operator a step forward and it is of considerable benefit to the patient."

HUNTERS CATCH BIRDS DRUNK OF LIQUOR-GRAIN

Hundreds of wild ducks are being bagged at Milford, Ind., by Chicago hunters who have devised a painless method of obtaining game by scattering corn soaked in moonshine liquor on the banks of the lake.

The birds, which are unusually plentiful this year because of the protracted warm spell, devour the grain and become so inebriated they cannot fly. The hunters then collect their spoils.

OYSTERMEN HELD ON MURDER CHARGE

The feud existing between the oystermen of Wicomico and Dorchester counties who operate on the Nanticoke river doubled in its intensity when three Wicomico oystermen, Captains John Collier, William and Frank Travers, all prominent residents of Nanticoke, were arrested by Sheriff John H. Farlow on a charge of murder following a shooting affray from ambush Thursday morning.

Some 25 shots, it is alleged, were fired by Wicomico men upon an oyster canoe containing Emerson Pritchett, Gordy Pritchett and Ivy Bramble. The former was shot through the head, the charge lodging in the jaw, and he died in the Cambridge Hospital.

Two of the prisoners, Captain William Travers and Captain Collier were turned over to Sheriff Wheatley, of Dorchester county, to be placed in the jail at Cambridge, but the third, Captain Frank Travers, because of ill health was not equal to the journey. In Cambridge each of the prisoners were compelled to furnish $5,000 bail, and later returned to their homes. A special session of the grand jury of Dorchester county has been called by Judge John R. Pattison to convene Monday, when the case will be presented.

Drastic Order For Militiamen.

Under a new order issued by Maryland National Guard Officials for rigid enforcement, all militiamen who fail to report for the regular weekly drills each Wednesday night. will forfeit their pay and be subject to either a $5 fine or jail sentence. Capt. Butler has issued notice of the new order to all Queen Anne's county guardsmen. State officials found the drastic ruling necessary in order to insure continued efficiency in the Maryland Guard. While the attendance at drill each week is particularly good, it will be necessary to enforce the recent order rigidly.

MORE JOBHOLDERS—AND WHY

The United States Treasury has, we are told in dispatches, hung out the "help wanted" sign and will employ an indefinite number of accountants to speed up the work, some of which is five years behind. An idea may be got as to why all these extra jobholders are needed from the incident related of Secretary of the Treasury Mellon at Hot Springs. His barber there consulted him about a correspondence carried on for months with the treasury Department concerning an item of seventeen cents in his tax bill. Mr. Mellon persuaded him to pay the seventeen cents, thereby doubtless saving the services of a clerk or two.

Here is another significant fact to show why so many jobholders are kept busy. Representatives of business concerns are advising their chiefs when the latter receive the many questionnaires sent them to reply that the information asked is already in the hands of the Census Bureau. The Bureau of the Budget has found that in some cases information and statistics of the kind have been duplicatted or overlapped thirty-five times. Think of doing the same thing or part of the same thing thirty-four unnecessary times!

Little wonder that the Treasury Department needs more jobholders!

PRAISES AID OF MOTHER IN LAW

"I Am Feeling Like A New Person Already," Declares Baltimore Woman.

"I am so grateful for what Tanlac has done for me I just wish I could tell everbody what a remarkable medicine it is," said Mrs. Elizabeth M. Gentile, highly esteemed resident of 447 N. Robinson St., Baltimore,Md.

"I suffered from stomach trouble and a terribly run-down, nervous condition for about a year. I lost my appetite and fell off several pounds. The little food I managed to eat would upset my stomach so bad the pains were almost more than I could stand, and I was so weak I could do no housework. I never got a good night's sleep, just tossed about all restless and so nervous that in the morning I was even more tired out than ever. Fearful pains in my back and limbs added to my agonies, and I got so bad off I had to take to my bed for two weeks.

"My mother-in-law finally got me to take Tanlac for it had been so helpful to her. My pains have about all gone now and I have picked up wonderfully. My appetite has come back, my nerves are steady, I get plenty of restful sleep and I am feeling like a different person. Tanlac is worth its weight in gold."

Tanlac is sold by all good druggists.—Adv.

The Long-Life Battery For Your Car

The Cost of Telephone Service

Telephone service has become of such universal use as to justify it as one of the various items which go to make up the householder's budget.

That its cost has not mounted to the extent of the other items is shown by the following comparison of per cent increases in costs throughout the United States since the year 1914, taken from the reports of the National Industrial Conference Board.

	Per Cent Over 1914	
	1920	1922
House Rents	58	65
Clothing	166	53
Fuel	66	81
Sundries	85	72
Food	119	40
Maryland Telephone Rates	23	23

This table shows that in 1920, the period of highest prices, the increase in the cost of telephone service over 1914 was less than a fourth of the average increase in the cost of the other items; and now, with prices largely stabilized, the increase is less than one-third of the increase in the other items.

The usefulness of the telephone service to the patron in a city, town or community depends largely upon the number of persons with whom he may communicate; in other words, the value of telephone service increases as the number of telephones increases.

In some places in Maryland since 1914, the number of telephones has increased as high as 100%; in the entire state the increase has been 53%. In other words, the increase in the value of the telephone service to the user in Maryland has greatly exceeded the increase in our rates.
