"Miss America" Declares Tanlac Wonderful Health Giving Tonic

Miss Campbell in "Miss America" crown which she has won on two occasions.
Photographed by Atlantic Foto Service.

Miss Mary Katherine Compbell, twice proclaimed "Miss America," has taken TANLAC and endorses it in a statement recently given to the women of America through International Proprietaries, Inc., distributors of this great tonic. In this statement, Miss America declares that Good Health is the basis of all Beauty, and advices women who would be beautiful to "first find good health."

Her complete statement as given is as follows: "I consider it a great privilege to be able to tell the thousands of women everywhere what a great tonic TANLAC is. Health is the basis of all beauty. Without good health, one is apt to be run down, nervous, underweight, high-strung, anemic. Indigestion drives the roses from a woman's cheeks and robs her of that radiant quality of womanhood that is real beauty.

"I have taken TANLAC and I do not hesitate to say that it is a wonderful health-giving tonic. It has brought relief and good health to many women, and with good health one may have a measure of beauty that will overcome shortcomings in face and figure.

"Rosy cheeks, sparkling eyes, a well-rounded figure, a lovable disposition, go hand in hand with good health. To those searching for beauty, I would say—'First of all, Find Good Health.' The TANLAC treatment has proven itself a boon to womanhood, and I recommend it."

Miss Campbell has written a booklet on Health and Beauty which may be secured by filling out the coupon below.

INTERNATIONAL PROPRIETTARIES, INC.
Departmeut B, 79 ATLANTA, GA.
Gentlemen; I herewith enclose 10 cents (stamps will do), for which send me a copy of Miss Mary Katherine Campbell's Booklet on "Beauty and Health."

The Noblest Instrument Is An Organ

and it ought to be in every musical home, but space and cost sometimes prohibit the installation of a pipe organ. However, an

ESTEY

two manual reed organ, built on the exact principles and measurements of a pipe organ—and used in the studios of such organists as Gibson, Dethier and others—such an instrument closely approximates a pipe organ and has everywhere given great satisfaction. It can be built to the special specification of organist and to match the design of any room. Adapted for lodges. Call and hear it

CHECKERS

If you enjoy a game of checkers
to see them set,
Just go up in the Barber Shop, owned by Ralph Barnett,
There you will find some one, waiting for a game,
Thinking always of course, that you will be easy to tame.

Owen Blades for sometime has ranked with the best,
And has always held his own in any test,
Joseph Wheatley takes his stand chewing juicy fruit,
And the way he handles checkers, is certainly cute.

John Clendaniel always shouts when winning with a loud hurrah,
But oh my! when defeated, he is the sadest sight you ever saw,
Capt. Wilson from the Western Shore remarks "that move of yours was fine
Then the next thing he says is this game is mine."

Wm. A. Wheatley comes in apparently for a full evenings fun,
But if he wins the first one, has some excuse to make him run,
Wm. G. Smyth for some unknown reason has apparently quit,
And it is certainly noticed and looks like he received an awful hit.

Polk Bramble handles checkers like eggs in his incubator,
And says my move did not hatch, but will a week later,
Ralph Barnett studies a book, memorized each play in same,
Until now he moves them back from whence he came.

Harry Fallowfield, quiet as a mouse especially when in a tight game,
Until suddenly he springs an unknown move, that makes him hard to tame,
Frank Taylor has a professional move and a record breaking jump,
That when he is through with you, you get over the bump.

George French makes a deep study and then puts on his specs,
To win out if possible, so all honors he can collect,
But there is one so quiet, and Wm. T. Nicholson is his name,
Who can make most all own up, that he put them to shame.

Ed Hurtt played a good game, until when tied three checkers this was said,
Good bye to you Ed, I am going to put you to bed,
Another new gent, who can certainly move them around,
And holds his own with the best is Lawrence Brown.

This game also has a star, as baseball has Babe Ruth,
And I certainly feel I am stating the truth,
When I say that these honors will triumphantly be,
Given without hesitation to Joseph Wheatley.

He has a Bald-Eagle move and a Rattlesnake twist,
With a Honey Bee sting, known as the Maid of the Mist,
And an Alligator snap, with a Flying Machine drive,
Which makes all admit, "he just simply eats them alive."

Of course we could name others, as we have them by the score,
Who are ready and willing to play any one on the shore,
And right now a series is talked of With Barclay they say,
So if you desire real pleasure, be on hand when they play.

The Kent County Council for Home Demonstration Work met the Chestertown on Jan. 4th. The purpose of the meeting was the election of officers and the discussion of home and community problems. The officers elected for 1924 are as follows: President, Mrs. W. B. Copper; First Vice President, Mrs. D. W. Ingersoll; Second Vice President, Mrs. W. H. Morris; Secretary, Miss Susan V. Hill; Treasurer, Mrs. Walter Morris; Delegates: Mrs. Harold Baker, Mrs. Earl Nichols, Mrs. Hope Malin.

In addition to the business meeting, the program included a baking demonstration by Ann Matthews and Julia Williams of the Chestertown Girl's Club, a demonstration with the electric washer with Mrs. Harrison W. Vickers, Jr., as leader.

Dr. J. P. Franklin, Deputy State Health Officer, and Miss Lillian Grimm, Home Demonstration Agent for Cecil County were the main speakers.

Middletown Farms Creditors To Meet

Creditors of Middletown Farms, Incorporated, have been asked to attend a meeting at the Century Club rooms, at Middletown, to discuss the advisability of selecting a creditors' committee. The purpose of the meeting is to investigate the affairs of the company and determine whether the business should be continued, under its direction, with the hope of paying the creditors and patrons in full, or whether it should be liquidated at once with probable losses to all concerned.

FOR RENT

Growers To Pool Interests; Stand for One Price

A movement of vital interest to most farmers is being launched indirectly under the auspices of the Farm Bureau of Queen Anne's. An Association has been formed for the purpose of having all tomato growers pool their interests and stand for a uniform price based on the equitable cost of producing the crop. A contract has been prepared for the growers to sign, which is self explanatory. Following is a short digest of the instrument, paragraph by paragraph.

The Preamble: Deals in three paragraphs with the mutual advantages to accrue to Producers and purchasers of tomatoes through the organized marketing of graded and classified tomatoes, and the securing of a price more favorable to the Producer than can be secured through individual marketing methods heretofore employed.

Section 1. Deals with the delivery of all tomatoes produced by the Producer to the Association at a place designated by the Producer and approved by the Association.

Section 11. Takes up in some detail the plan by which the Producer constitutes the Association his sole agent in the grading, handling and marketing of his crop, and by which the Association exercises all powers at its command in securing for the producer the best price, terms and conditions obtainable.

Section III. The Producer agrees to abide by necessary rules and regulations established by the Association in handling the 1924 tomato crop, grading and selling the tomatoes and administering the affairs of the Association. The grades to be established are based upon all tomatoes being red, sound, ripe and in good condition, neither sun burned nor frosted.

Section IV. The Association is authorized to deduct from the net proceeds of sale the necessary costs of selling and grading and one-half cent per five-eigths basket to cover necessary over-head expenses.

Section V. Inferior tomatoes delivered to the Association by any Producer when this inferiority causes loss, will not be figured by the Association against the Producer so delivering. By the terms of this clause each member is protected from inferiority that may exist in some other Producer's goods.

Section VI. The Association is authorized to act for all Producers in any litigation arising.

(b) The Producer agrees to pay as liquidated damages to the Association 1 cent per pound for all goods disposed of in violation of his signed contract with the Association.

(c) The Association is authorized to institute an injunction to enforce adherence to the contract when necessary.

(d) The Producer violating his contract with his fellow Producer pays all costs of court in case of litigation to prevent his damaging interests of his fellow Producer Members.

Section VII. If the Association has not secured 2,000 acres as the contracted acreage of the pool prior to February 20th, any Producer Member has the right to withdraw his acreage. This simply avoids binding any Producer to a pool that is not sufficiently large to meet its needs.

Section VIII. The Producer agrees to grow ..... number of acres to be sold by the Association at the best possible advantage.

Section IV. The Producer agrees to do his protracted part in financing the enterprise by becoming a stockholder in the Queen Anne's Association, stock to be subscribed at the rate of one dollar per share, and share to be purchased for each acre of tomatoes to be produced.

(b) The Association agrees to refund on March 1st, 1924, all money subscribed, less expenses incurred, in the event that the Board of Directors has decided that the acreage secured does not justify the continuance of the Association. In brief, the pool, unless worthwhile, refunds money for subscribed stock.

DEATH OF WILD DUCKS

Following the second report on the wholesale destruction of wild ducks in the Susquehanna river from phosphorus caused by smoke screens thrown out by army aeroplanes State game officials have urged the United States Bureau of Biological Survey to press the complaints against the War Department.

Harold S. Kolmer, Deputy State Warden, received a telephone message Monday night from the Spesutia Island section to the effect that the ducks were "dying by the thousands." Last week 26 dead ones were discovered.

A technical test conducted by the United States Game Department in Washington showed the ducks had died from phosphorous poison. Mr. Kolmer declares the phosphorus from the smoke screens let out by Army aeroplanes from Aberdeen settle on the wild celery and other foods that the ducks eat.

So They Voted for "TH"

The question in the Graham home was whether it was to be TH-rift or a D-rift. The vote was for TH-rift after Mrs. G. presented it thusly:

"Are we content to drift along with no preparation for the future?

"Or, are we thriftly going to save money for the future?

"A bank account will help us meet possible misfortune without a qualm.

"And when opportunity knocks it will make it possible for us to take full advantage.

"Now—what do you say, shall it be thrift or drift?"

This bank helps people save by paying 4% interest on saving accounts.
